Trouble Over the Furniture of a Defunct Club.

MAHANOY CITY, May 8.—Some time ago an organization of town known as the National Club disbanded on account of the hard times and the furniture was placed in the care of Michael Salmon, one of the members, until the club should be re-organized. Before Justice Brennan Witchie, after arrest, said he had purchased the furniture from Salmon and he was discharged. Witchie has now caused Salmon's arrest for selling goods under false pretence and $300 bail has been furnished.

FINANCE AND TRADE.

Remarkably Gratifying Increase in the Volume of Business for April.

New York, May 8.—R. G. Dun & Co.'s weekly review of trade says: Nearly all will be astonished to learn that actual sales in April by leading houses in each line of business in the principal cities east of the Rocky mountains average only about 10 per cent less than in April, 1892, the year of largest business hitherto, and were 6.1 per cent more than in the same month last year. Yet this is the summary of 357 reports, each covering actual sales of leading merchants in a line of business in one of 14 cities. They are especially encouraging in view of the great fall of prices within the five years and the exceptional floods and other retarding influences this year.

While speculative business in nearly all the lines is small, and does not swell clearing house returns as in previous years, the volume of legitimate trade shows no corresponding decrease, and the fact is one of the highest importance in all business calculations. Moreover, returns of failures for April by branches of business given only by the mercantile agency shows decrease in number, amount and average of liabilities in almost every branch of trade and in nearly all branches of manufacture except cotton, although failures of five New Bedford mills for $7,900,734 make the total defaulted liabilities for the month 40 per cent larger than last year, 60 per cent larger than in 1895 and 53 per cent larger than 1894.

Croup and whooping cough are childhood's terrors; but like pneumonia, bronchitis, and other throat and lung troubles, can be quickly cured by using One Minute Cough Cure.

Resolution of Condolence.

At a meeting of the Philadelphia & Reading Coal & Iron Company's telegraph operators of Schuylkill county, held yesterday, the following preamble and resolutions were adopted:

WHEREAS, In view of the loss we have sustained by the decease of our friend and fellow operator, John G. Cowley, who has "answered the call" of the Most High, and of the still heavier loss sustained by those who were nearest and dearest to him; therefore, be it

Resolved, That it is but a just tribute to the memory of the departed to say that in regretting his "removal from our lines," we mourn for one who was in every way worthy of our deepest respect and "G" at all times.

Resolved, That we sincerely condole with the family of the deceased on the dispensation with which it has pleased Divine Providence to afflict them, and commend them for consolation to Him who orders all things for the best, and whose final "call" to us all may prove to be a welcome time to say "G. B." to the things of this world.

Resolved, That this heartfelt testimonial of our sorrow be published in the SHENANDOAH HERALD, and that a copy be engrossed and presented to the widow of the deceased.

To Capture the Lake Fisheries.

Chicago, May 8.—A scheme is on foot to control the fishing interests of the great lakes through the formation of a company controlled by English capital. A secret meeting to discuss the project was held here yesterday. The concern most actively interested in Chicago is the A. Booth Packing company. At the meeting only one other Chicago concern was represented, though all the big concerns interested in the fish business were urged to attend. The object is to corner all the fishing interests.

Bad Railroad Smashup.

Medina, N. Y., May 8.—A westbound fast freight on the New York Central railroad broke in two here last night, and a big pile up followed. Five cars are thrown in the ditch, and several more wrecked. The main track will not be cleared for some hours, and the Chicago express was held here all night. No one was injured.

Palmer House Manager.

Mr. Willis Howe Warmly Endorses Paine's Celery Compound.

The Palmer House, Chicago, needs no introduction to readers in America or Europe. It is one of the largest hotels in the world, and is one of the great institutions of Chicago.

Mr. Willis Howe, the well-known superintendent of the Palmer House, writes the following letter:

WELLS Richardson & Co., Burlington, Vt.

Gentlemen: It is with a feeling of sincere gratitude that I write you this letter. I was seriously sick with fever, and after passing the dangerous stage began taking Paine's celery compound. At this writing I am in excellent health, and in fact never felt better. I attribute this to the use of Paine's celery compound. Hoping others will find that Paine's celery compound will make them as well as it did me, I am most gratefully yours,

Chicago, Jan. 14, 1897. WILLIS HOWE.

Repeated and astonishing success in making people well has lifted Paine's celery compound to the admiration of the world as the surest and wisest means of invigorating a "rundown," nervous condition of the body.

Since the discovery of this great remedy men and women who keep themselves reasonably well informed in the world's progress refuse to be martyrs to such well understood troubles as sleeplessness, rheumatism, neuralgia or kidney diseases. Paine's celery compound is used with perfect assurance in those households where only an intelligent, authentic remedy can get any consideration. As a spring remedy nothing compares with it.

As physicians are all the time saying: The pain over the kidneys, headaches and the misery of nervous debility should be met by Paine's celery compound. Its invigorating action is at once felt by the irritated, worn-out nerves and brain. It makes new blood. It brings fresh strength and vigor to tired worn-out men, weary women and to sickly children. For those diseases which are the result of weakened nerves, such as dyspepsia, headaches, neuralgia and heart disease, Paine's celery compound is the only logical, permanent cure. It feeds the wasted nerve tissues and regulates their action. It tones up the entire digestive tract and encourages the body to take on flesh and to increase the volume of pure blood in the arteries and veins.
