Nearly all the silver Senators voted against the arbitration treaty.

Spain is tired out financially in Cuba, and is equally weary with the results of its military operations.

Their old soldiers have started a boom for Congressman Young for the Republican nomination for Governor.

Their paying question seems to have taken a back seat to allow the "light" agitators room for their proposed onslaught.

Their Republican members in the Legislature should redeem the party pledges without delay, in the passage of the reform bills.

Their McKinley administration is two months old, and even the Democrats admit that it is an exceedingly interesting infant.

Pennsylvania is still short on its quota of Federal plants. Quite a number will drop, or fail to drop, after the state legislature adjourns.

Senator Quay says he is for "hard money," but it must come without debt. In this he will have the support of all good Republicans.

It begins to look as if at least some of the State Senators would never place their boots under the desks in this chamber after the present session.

According to law the oyster season closed on the first day of the present month, but according to practice and precedent the oyster season never closes, at least in Shenandoah.

Mr. Bryan is about to visit Mexico. It will be a hazardous picnic when he crosses the border and doubles his dollars, but he should save a few pecks for the awful shrinkage when he comes away.

Philadelphia has an active Board of Health. So has Shenandoah. Its Secretary is very active in depriving the readers of the Herald of all information concerning that department of the borough government.

It has been noticed that the pronoun "I" was not used in President McKinley's speech at the Grant ceremonies. The word was greatly overworked during the last four years without adding anything to the success of the administration.

A leading health authority says that rest is not idling, but "a change of scenes and activities." The true way to rest is to occupy the mind with something congenial and unhectored in work and recreation. To sit down and do nothing leads to brooding, which is more exhausting than work.

In his writings, Dickens expressed many ideas in such felicitous language that they are treasured as gems. It was in "David Copperfield" we believe, that he said "it may be profitable to you to reflect in future, that there never were great and cunning in the world yet, that did not do too much, and over-reach themselves."

Advertisers in looking for mediums sometimes fail to consider the class of people to whom a paper goes. Where are your buyers? Do they belong to the six-dollar-a-week class, the ten, the twenty-five, the fifty, the hundred? Think of that. If you have something that all classes should have, choose your medium accordingly. The mediums that reach a special class are many, the mediums that reach more than two or three of them are few. The Herald reaches every class. It is read in the home of the neophyte, the tradesman and the banker. It is powerful, because it has always stood for the best that there is in journalism. It is profitable to the advertiser because of its power and influence with the reading public of Shenandoah. It gives its readers "all the news that's fit to print."

The gold production of the world has been the subject of some recent investigation by the director of the French mine at the request of the International Institute of Statistics. The report of M. d'Foville shows that the increase in the production of gold during the last half of the present century has been something enormous as compared with former periods. The average annual product of silver and gold during the 16th century, he puts at 16 million dollars, 23 million dollars in the 17th century, and 30 million in the 18th century. For the first half of the 19th century the annual production of both metals averaged about 45 million dollars,

but in the 25 years between 1831 and 1875, there was an enormous increase, the average production being 180 million dollars, two-thirds of which was in gold, while in previous years the proportion as between gold and silver had been about equal. Between 1881 and 1895 the gold production increased enormously, so that the gold production of the world is now about 250 million dollars per annum, with the prospect of a further increase during 1897.

YOUNG CLAWSON EXECUTED. The Youngest Murderer Ever Hanged in New Jersey. Somerville, N. J., May 12.—Elmer Clawson was hanged here yesterday in the Somerset county jail. He met death bravely, and was the youngest murderer ever executed in the state, and next to the youngest person convicted of a capital crime in New Jersey. Aiden Patis, the Newark boy murderer, was 16 when he was sentenced to death for the murder of Thomas Hayden. Patis' sentence was commuted to life imprisonment.

Elmer Clawson, 10 years old, shot a former employer, Harry Rodgett, a farmer, on the morning of Aug. 29 last. The murderer asked Rodgett to employ him, and on the farmer's refusal to do so a quarrel began, during which Clawson drew a revolver and fired three shots at his victim, two taking effect. Then, mounting a wheel, he rode away, leaving Rodgett lying but five minutes. The case was taken to the court of appeals, but without effect. Clawson recently, at his request, was accepted into the Methodist church.

Railroad Taxation in Michigan. Lansing, Mich., May 12.—A bill passed the lower house of the legislature yesterday which raises the specific taxes on railroad earnings in Michigan from \$700,000 to \$1,000,000. This is a partial victory for Governor Pingree, but there is still considerable doubt whether any of his railway measures will pass the senate. If the senate should pass this bill the local taxation will probably not be pushed.

Me, D. P. Davis, a prominent lawyer and merchant of Goshen, Va., has this to say on the subject of rheumatism: "I take pleasure in recommending Chamberlain's Pain Balm for rheumatism, as I know from personal experience that it will do all that is claimed for it. Discouraged people are numerous now—some because of lost business, others because of lost health. All may find fresh inspiration and valuable suggestions in the following: C. C. Hood & Co., Lowell, Mass. "I feel that for 12 years I have been a commercial traveler, and owing to the hardships of my life, long railroad trips, all kinds of exposures, and sudden changes of climate, etc., my health gave way. Physicians did not help me and I was given up to die. My illness developed a complication of diseases. I was without ambition or appetite. All strength had left me. One doctor said I had heart disease, another torpid liver, a third said it was lung trouble and another croup, and so on. I have no doubt, symptoms of all these complaints, and even that of rheumatism. Pains in the stiffness and pains in my joints and legs at times, were manifold. I was unable to attend to business, was confined to my room and frequently lay in a comatose state for hours. I was so feeble, and so little encouragement was offered, that I began to wonder where I would be buried. Finally, as a last effort to help myself, I decided to try Hood's Sarsaparilla. The

The Stenographer Responsible. Trenton, May 12.—The responsibility for the error which has necessitated the calling of a special session of the legislature has been located. It falls upon Miss Margaret Williams, a stenographer and typewriter in one of the state house offices. She wrote the word "provided" instead of "prohibited" in the proposed anti-smuggling constitutional amendment in the bill providing for a special election next September, at which the people were to vote on the question. Miss Williams is much agitated over her mistake.

The bodies were found in a half mile from the place, yesterday. The men had been employed by prospectors, and went to work Tuesday evening. At 10 o'clock they were located from the mine, and after taking their lunch returned to their work. That was the last seen of them until they were found in the mine. CHAPMAN IN THE SENATE.

A Resolution to Bring the Stubborn Witnesses Before the Bar. Washington, May 12.—In the senate yesterday the solar investigation of 1894 was recalled by the introduction of a resolution by Mr. Allen, of Nebraska, proposing that Elverson B. Chapman be brought to the bar of the senate to purge himself of contumacy as a pre-requisite to pardon. Mr. Allen sought to secure immediate action on the resolution, but it went over on objections from Mr. Gallinger, of New Hampshire, and Mr. Hear, of Massachusetts. The latter criticized the resolution as giving away the authority of the senate, and said he would propose an amendment with a view of having Chapman punished unless he purged himself of contempt, without recourse to the question of pardon. The consideration of the resolution will be in order today. The Cuban resolution also went over until today to permit the committee on foreign relations to submit a statement of facts bearing on the subject. The calendar was taken up late in the day, and several bills passed.

Still Awaiting Chapman's Pleasure. Washington, May 12.—The cases of President Haymeyer and Secretary Sawyer of the American Sugar Refining company were referred for trial on the 17th of this month for refusal to answer questions put by the senate sugar trust investigating committee. It is made for just this occasion. It cures all diseases of the digestive organs, and gives them power to extract from the food all the nutritious elements and transform them into rich, nourishing blood. It enables the liver to cleanse out all vicious impurities and pour into the circulation a pure, healthy blood. It builds up healthy flesh, muscular strength, and nerve-energy. It does not make flabby or indigestible food, but builds up a strong, healthy body for energetic people.

West Virginia Rivers Rising. Parkersburg, W. Va., May 12.—Steady rain for the past 24 hours has swollen the creeks, and Kanawha river threatens to overflow a big river. All Baltimore and Ohio railroad trains are delayed. It is reported that the railroad bridge at West Union, 35 miles east of here, has again been washed away.

NUGGETS OF NEWS. The court has settled the majority fight in Omaha, Neb., and has given the chair to Mayor Moore. President McKinley will not accept Governor's resolutions, but they will remain at Washington. New gold mines have been discovered in the province of Carabaya, Peru. It is believed they will yield largely. A negro leper who escaped from North Brother Island nearly two weeks ago is still at liberty, and is hidden in New York. It is said that an American volunteer legion of 2,000 men has been recruited in various parts of the country to help the Cuban insurgents.

The Sultan and the Pope. London, May 12.—The Rome correspondent of The Standard gives the history of the discontinuance of relations between the pope and the Vatican. He says: "Last summer the pope, in an autograph letter, begged the sultan to protect the Christians in Crete. The pope delegate, Mr. Bonetti, presented the letter. The sultan, evidently irritated, said in an under-current in Turkish: 'Who's this pope that is always making me the affairs of our state?' And then, in French: 'Tell his holiness that it is my constant care to attend to the welfare of all of my subjects.'

Advice to Empires. Washington, May 12.—President Nick Young, of the National league, last night issued the following circular to the press: "Don't be afraid to enforce the rules strictly. It is your only show of going through the season. If you fire the first man out of the game that deserves it, after due caution, you will have no trouble. You must be master of the situation or the players will boss you all over the league. Keep your head with you, but let the players understand from the word 'go' that they are paid to umpire and they are paid to play. Some of them will run you out if they can, but if you are run out it will be for lack of nerve to enforce the rules."

How to Treat a Wife. (From Pacific Health Journal.) First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not therefore carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will wonder in closing from her brow all clouds of gloom. To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by Grubler Bros., druggists.

Eternal Vigilance.

"Eternal vigilance is the price of liberty." It is the price of everything worth having. It is the price of life itself. A man who is not always looking for a danger, is not always prepared for it. A man who is not always looking for a danger, is not always prepared for it. A man who is not always looking for a danger, is not always prepared for it.

When a man's stomach is out of order, his digestion don't work; when his liver gets to be sluggish and won't clear the bile out of his blood, it is time for him to lock up for himself. It cures all diseases of the digestive organs, and gives them power to extract from the food all the nutritious elements and transform them into rich, nourishing blood.
