

IMPORTANT TO SUFFERERS.

HOW YOU MAY OBTAIN A LASTING CURE FOR PILES.

No Surgical Operation. No Pain, Trifling Expense—A Simple, Harmless Remedy, but it Does the Work.

There are some people who have piles as frequently and regularly as other people have colds.

Any little bowel trouble will bring them on, any extra exertion, as in lifting, will produce them, and in fact will often appear without any apparent provocation. Piles, however, are much more serious than a cold, as the tendency is always to grow worse until the trouble becomes deep seated and chronic, or develops into some fatal rectal disease.

While there are many pills remedies which give relief, yet there is but one which not only gives instant relief but at the same time makes a permanent cure, and that is the well known P. M. Pile Cure.

This remedy is composed of simple, harmless, vegetable ingredients, but combined so effectively and act so promptly and thoroughly that it cures every form of piles whether itching, blood, bleeding or protruding.

In long standing cases the P. M. Pile Cure has proven to be the only certain cure except a surgical operation, and its advantages over an operation are many, as it is painless, causes no delay, or interference with daily occupation and act but not least, it is cheaper than any surgical operation could possibly be, costing but a dollar a package at any drug store.

The cases that the P. M. Pile Cure will not reach are so few that physicians are doing away with operations for piles and depending on this cheap but effective remedy to accomplish a complete cure, and it never disappoints except in cases beyond the reach of medical skill.

The P. M. Pile Cure is prepared by the Pyramid Drug Co., of Albion, Mich., and for sale by druggists everywhere at 50 cents per package. Each package contains a treatise on cause and cure of piles, together with testimonials from every section of this country.

FELL INTO A TRIPPLE.

Terrible Accident at an Ore Mine at Pinkney, Tenn.

TEN KILLED AND AS MANY HURT.

Those Who Escaped Instant Death Have Crashed Hip Bones, Broken Legs and Arms and Internal Injuries, and Half of Them Will Die.

Florence, Ala., May 15.—A terrible disaster occurred at Pinkney, Tenn., one mine, 30 miles from here, late Thursday afternoon. The new tripple, or ore dump, 60 feet high, fell, instantly killing ten white men and boys and seriously wounding several others.

The killed are: Joe Hemington, Cal Kilburn, Will Kilburn, Jim Brown and his 11-year-old son, Cal Harris, Landin Harris, Richard Hardwick, Mat Crow and Ben Crow.

Of the killed Hemington, Cal Kilburn, Brown, Harris and the two Crowes leave wives and from one to five children. Those who are seriously injured have broken legs and arms and crushed hip bones, and internal injuries.

At least half of those who are injured will die. All of the killed and wounded were on the top of the tripple when it collapsed. Only two escaped without serious injuries.

One young man, George Gable, was thrown 30 feet to a tree and received slight scratches, and another jumped to the ground, turning over several times and alighted on his feet, only spraining his ankle.

The seriously injured are: Bill Sims, George Gable, Cypre Gable, Alex O'Dill, Will Kilpatrick, Joe Newton, Donny Brown, Two McElmores and M. Christian.

The cause of the collapse is unknown. It was a new one, and was tested with 25 cars of ore less than a month ago. There was only a small weight on it when it fell.

A Murderous State Senator. Little Rock, May 15.—State Senator Bart McMillin of Bell county, yesterday made a desperate attempt on the life of Colonel J. N. Smith, editor of the Arkansas Gazette.

McMillin entered the private office of Colonel Smith, drawing a revolver and at the same time demanding an apology for editorial utterances made by the latter in regard to the senator's action in defeating the railroad commission bill.

When this was not forthcoming McMillin fired point blank at the colonel, who sprang to his feet and struck McMillin's arm, causing the bullet to miss his body by a few inches. McMillin was arrested, but later released on bail.

Mr. Knapp Not Driven From Turkey. Washington, May 15.—Senator Mills has received a letter from Minister Terrell, who says that all the talk of the Turks expelling Missionary Knapp from Turkey is untrue.

The "Jersey Lily" Divorced. Lakewood, Cal., May 15.—Emilie Charlotte Langtry, better known throughout the world as the "Jersey Lily," has secured a divorce from her English husband, as well as possession of her daughter, Jeanne.

Munyon Tells What to Do.

Take No Medicine Unless You Are Sick.

Munyon decries dosing and doting. Why should the glorious springtime be the signal for a deluge of physic, and the golden harvest be associated with the excessive drinking of run and whiskey disguised as bilious medicine?

Medicine should only be given to the sick, and should always be administered with gentleness and discretion. Medicine should be to Nature only a delicate rebuke of error and a kind encouragement of the physical forces for good.

This is a specific for some particular disease, and for nothing else. Each one of Munyon's cures is an climax of scientific experiment, the exact fit in each case. Munyon's Remedies for sale at all druggists. Mostly 25 cents a bottle. If in doubt write to Prof. Munyon, 1505 Arch Street, Philadelphia, for free medical advice.

GREENS WILL FIGHT.

Will Not Cease Hostilities Until an Armistice Is Declared.

PREMIER RALLI'S STATEMENT.

"Though Hundred From Acting in Crete, Greece Cannot Be Restricted to a Limited Area"—The Attitude of Greece May Prolong the War.

London, May 15.—A dispatch from Asia says: Desperate fighting was in progress today, yesterday near Giron, on the route to Filipladi. Two brigades of Greeks with many guns, two companies of sappers and a squadron of cavalry attacked the Turks.

The fighting ceased last night, and the Greeks have occupied various heights in the neighborhood. Twenty-five officers and 400 men are held in combat. The battle was resumed today.

Since 4 o'clock the gumbot flotilla has been attacking Nicolopoli from inside the gulf of Ambracis, with a simultaneous attack proceeding from the land side.

The Turkish batteries replied vigorously, and firmly resisted the attack. The coming on of darkness stopped the engagement.

All the Greek efforts are now concentrated upon capturing Nicolopoli and Preveza before advancing to Puntopadida.

The correspondent of The Times at Athens says: The resumption of offensive operations in Epirus greatly complicates the situation and tends to hamper the negotiations for peace.

In an interview yesterday M. Ralli, the premier, repeated his statement that humanitarian motives are responsible for the advance in Epirus, but he did not deny the advantages which might be hoped for from the capture of Preveza and the occupation of the adjoining Turkish territory.

"We are still at war," he said, "and until an armistice is concluded the Greek retains his liberty of action. We cannot alter our activity to be confined to Thessaly, where the Turks are preponderant. The powers have hindered us from acting in Crete, but Greece cannot be held everywhere, nor compelled to restrict her operations to a limited arena."

"We have done our best to obtain an armistice, and until it is accorded we must act where and when we can. If we have not already presented the war at various points and among the islands of the Aegean it is only because we have taken into consideration the sufferings to which the Greek population might be subjected."

The government apparently thinks that a renewal of the war will hasten instead of retard the armistice. This calculation may prove to be correct, but it is more likely that Turkey will seize upon it as an excuse for delaying the armistice, and will deal a crushing blow in Thessaly.

Except for the fighting in Epirus the Turko-Hellenic situation is virtually unchanged from what it was yesterday. It is tolerably certain that only a few Greek troops remain in Euboea, the bulk of Constantine's army having withdrawn to Lania, where it will be in closer communication with General Smolenski. This probably explains the reported movements of the Turkish army as a number of Euboean Pasha's troops have been marching from Trillicka to Voio.

The fighting in Epirus has been indecisive. It is believed that Nicolopoli is not yet captured, but only the heights commanding the town. The Greeks made a pretext of the protection of the peasants, but they evidently have information as to the reasons for the apparent inactivity of the Turks in Epirus.

This is the seventh time the Greeks have attempted to advance to Janina and have met with a repulse, which the Turks have never followed up.

For Pin Worms, Eczema, Hives, in fact, any of the various torturing, itchy diseases of the skin, Don's Ointment is an instant and positive remedy. Get it from your dealer.

Still Will Be Brought Back. Washington, May 15.—Ambassador Hay having called the state department that he has been obliged to have Charles Still, who is held in London on a charge of receiving stolen money at York, Pa., three times remanded. The department has called upon the governor of Pennsylvania for a statement of what was desired by him in the matter. The governor has replied that officers of the state will start for Europe today to bring the prisoner back.

The Grandest Remedy. Mr. E. H. Groves, merchant of Chilhowie, Va., certifies that he had consumption, was given up to die, sought medical treatment, but money could not procure relief. After all could be done he could bear of, but got no relief. He spent many nights sitting up in a chair; was bedridden in Dr. King's New Discovery and was cured by use of two bottles. For past three years has been attending to business and says Dr. King's New Discovery is the greatest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for Coughs, Colds and Consumption. It don't fail. Trial bottles free at A. Waseley's drug store.

SHATTERED.

The Precarious Condition of Prof. A. H. Nye.

A Prominent Iowa Educator's Painful Experience as Related by Him to a Newspaper Man.

From the Gazette, Cedar Falls, Iowa.

The grippe, that dread disease that has such a run throughout this country three and four years since, left many who were previously in robust health with shattered constitutions and seemingly confirmed invalids. Prof. A. H. Nye, living at No. 2000 Olive Street, Cedar Falls, Iowa, was among the number left by the disease in a precarious condition, his nervous system shattered, and with a general debility of his entire system; no strength, fact and limbs hardly swollen, in fact, he was almost helpless.

Prof. Nye is a native of New York State, having come west in 1858—a healthy, robust man. He is a school teacher by profession, having served as county superintendent of schools of this (Black Hawk) county, several terms, and he has the respect of all with whom he comes in contact. His helpless condition called forth the sympathy of the entire community. He tried the best medical skill procurable, and spent most of his ready means in the vain endeavor to recover his health, and had almost given up completely discouraged. He had stopped taking treatment, being fully convinced in his own mind that there was no help for him, and that he would have to spend the balance of his days in invalidity, a burden to family and friends. Some one who had heard of Dr. Williams' Pink Pills, spoke to him about them and urged his giving them a trial. His previous success with eminent physicians made him skeptical and he had no faith in what was called proprietary medicine, and would not listen to this advice for some days.

The friend being persistent, however, and having faith in the Pink Pills, would not let up, until he had finally prevailed upon the sufferer to send for a box, which he reluctantly did, and after receiving them decided to give them a fair trial. The first box relieved him in a surprising manner; yet he was not convinced that it was the medicine that helped him, but the weather which had turned pleasant, and did not send for a further supply until he was again about as bad as before taking the pills. Then he concluded he would make another trial, and took three boxes, and today is nearly if not quite as well as before the attack of the grippe. It is needless to state he cannot say too much for Dr. Williams' Pink Pills for Pale People, for people who have been left in poor health from the grippe or any other cause. Any one wishing to test the value of the Pink Pills, can write Mr. Nye, No. 2000 Olive Street, Cedar Falls, Iowa, and he will cheerfully recommend the medicine, and state his condition before and after using it.

Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are sold in boxes (never in loose form, by the dozen or hundred) at 50 cents a box, or six boxes for \$2.00, and may be had of all druggists or directly by mail from Dr. Williams' Medicine Company, Schenectady, N. Y.
