## Evening Herald

MONDAY, MAY 01, 1807.

Earle, of South Carolina, was the exact opposite of Senator Tillman. This makes his loss bard to bear.

This week will end out four years for W. Wilkins Carr as postmaster at Philadelphia, and whether the President will name his successor or not at once no one seems to know.

THE new county bill reached second reading in the House last week, and was then recommitted to the committee. There is not much chance for the bill's passage at this session.

Ex Connecticut 170,000 women are qualified to vote at school elections; Depetions Made of Several Places Bebut only 2687 cast their ballots this spring. The 167,313 who neglected to vote are probably discouraged about muchine politics.

vaded the county sent in large num property was next visited, after which the bers to-day. The town was gaily open space and guilles at the west end of descrated in honor of the sessions of Lloyd street, where it is proposed to extens the state convention, and everything the street is the dist banks of the Kahinos

ANOTHER BROKEN LEVEE.

Result of Oversonfloonee and Relaxa-

tion of Vigitanee.

New Orieans, May 31.—A crovasse resulting from overconfidence and relaxation of vigitance, occurred at 6 o'clock yesterday morning in the levee at Conrad's Fidnt, four miles by rall Ask your grocer to-day to show you a below Baton Rouge, on the most side of the Ratio Rouge of the most side of the Massissippi river. At 2 o'clock in that takes the place of coffee. The children may drink it without injury as well as the morning information was received at Baton Rouge that the levee at Conduit. All who try it, like it. GRAIN-O rad's sugar house was lenking budly, has that rich was brown of Morbs or Java. as that riel seal brown of Mochs or days, and that a crevasse was leaking badly, and it is made from pure grains, and the cur at any moment. There had been a need delicate stamach receives it without feeling of almost perfect security listness. I the price of coffee. The and 25 throughout that receives and the throughout that section, and the into the calculation of things likely to take place. There were laborers within call, as they had all been discharged and sent to their homes.

The leves nutberities at Baton Rouge hastily gathered together a force of men, and placing them on burges of material, hastened to the scene of danger. Shortly before the barges arrived at the plantation the levee burst with a loud report and the water, in a stream in feet wide and  $\tilde{\tau}$ deep, began pouring through the breaks and spreading rapidly over the fortile lands in the vicinity. The of- neld, 5. ficials of the Pontchartrain levee district and of the Illinois Central railroad are on hand with large forces of mon and unlimited supplies of material, and will no doubt succeed in falo, a closing the break before any very serious damage is done to the adjacent plantations.

## ONE OF TWO WAYS.

The bladder was created for one purpose namely, a receptuele for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from enreless local treatment of other disonses,

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb like the bladder, was created for in rare cases. It is situated back of and very colds, or lung troubles of any sort. close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bindder or urinary passage b often by mistake attributed to female weakness or womb trouble of some sort. The error is easily made and may be accasily avoided. To find out correctly, set you urine aside for twenty-four hours; a seditrouble. THE WEEK IN CONGRESS

Senators Making Rapid Progress on the Tariff Bill.

THE COMING DEBATE ON SUGAR.

Probability That the Sugar Schedule Will He Heached This Week, and the Discussion Will Doubtless De Pro-

Washington, May 21.—The Impression

was general about the sounts at the the tariff bill that the sumar schedule of the present week. The progress so far made, while it was much less marked Saturday than on previous days, is generally regarded as little less than phenomenal, as modern tariff debates go. Senator Vest declared that the present bill is as far advanced now as was the Wilson bill after five weeks' discussion, while Senator Jones, of Arkansas, asserts that as much of the present bill was passed over on the first day of the consideration as was disposed of in the Wilson bill in three weeks. The Republicans generally concede that good progress has been made. but they are not included to fell-tale thermelyes too much until they see what rolley is to be pursued when questions of more general interest are reached that have not yet been

The sugar schedule, in all probability. will excite more prolonged and aniextensive preparations for the used sion of this schedule, and several see speeches wall be made upon B. indications are that various other questions of general interest will be considered in connection with the sugar duty. Senator Pettigrew is content plating presenting his amendment against the trusts in this connection, and it is certain that the Hawalian question will come to the front in an amendment providing for the contin-uance of the reciprocity treaty with

the Hawaiian islands.
With reference to the Hawaiian treaty, there is no longer much room for doubt that providen will be madto continue the present treaty in ef-fect. It is probable that this will be done by a direct deciaration that nothing in the bill shall be construed as abrogating the treaty. The Republi can members of the committee are contempiating this change. If Senator Pettigrew insists upon offering the trust amendment to this schedule will precipitate one of the most interesting debates of the session. Republicans are not yet decided wheth er they will caucus on the sugar ule, but there is more or less talk to this effect.

There are two schedules to be conaldered after the conclusion of that un-der present discussion before the sugar schedule can be reached. These are the metal and wood schedules. The metal schedule is not especially ob-jectionable to the Democrats, containing as it does many of the Wilson law rates, but it is more or less complicated, and will necessarily consume time. The wood schedule will develop no little antagonism on account of the duty on lumber. There will be a determined effort to restore white pine lumber to the free list.

The Tillman resolution for a sugar investigation probably will be reported to the senate temerrow. It will be pass-ed without difficulty when taken up, according to the present outlook, but Senator Tilman will find opportunity to make another speech if there is any

apparent effort at delay. The renute is not in session today, having adjourned over on account o

Decuration Day. The attempt to embarrass Speaker Reed for the program of lunction pur-med by the majority has become the settled boiley of Representative Simpand the sessions of the house this week will witness a continuation of these tactics. The conference reports on the sundry civil and Indian appropriation bills are ready for consideration, and this week the leaders would like to dispose of them. But the difficulty now is that many of the members have gone home, and at present there is no quorum in the city. This interfered with the desire of the leaders to recess until tomorrow when the house met today, and compelled an adjournment until Thursday. On that day, if a quorum is present, the house will proports, and also the bill carrying a special appropriation for the government printing office,

Boat Upset and Two Drowned, Pittsfield, Mass., May 31.—Two young men named Katz and Elverson were drowned in the Pontosouc lake yester-day afternoon. Their boats were over-turned by the wind. The men were about 20 years of age, and were agents
