<text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text> Bureau of New York City. A hep-to-or the latter is in term to-day. The Mainuter City Curn Club will meet whit to effect a permanent organization refuters suspend. Collieries suspend. All the collieries of the P & R C & I Co report operations to algebt wall next Tures ay morning. This spoke the learned attorney who made the original application for the right of way, as I remain-

developed since to strengthen the bullef that the application was made in good fifth? It the first place the promoters have gone back on every representation that was made. The lawyor has since stated to Council that he was mistaken, that his people cannot guar-antee a better street light, but will furnish one just as good, and the promoters of the movement have refrased to give the bond Caupell demanded. There is only one thing vate dimminution, and will dimminute in view bearing any resemblance of good Dominion and Victoria minures and in view bearing any resemblance of good Dominion and Victoria with 1500 faile-a charter, and that was patched after

the original application was made. I anticipate that the promoters will point to the excavation that has been made for the proposed plant; but who will doubt that cadlight of the movement would hesito spend three, or five times what that various has cost, and let the memory go to iste, so long as he might be able to carry s point. And let me say right here that the Councilinen of this borough will violate their duties if they do not restrain further work on the construction of that plant until the company vacates the public streats which they have confiscated. By its excavations They have connected, by he exceeded this company has become a freepoisser upon public property to an extent that he annahing, and surely that is no evidence of good faith 1 understand it is claimed that the borough succondered the use of a certain part of Oak street, but I know, as well as many others.

But to go back to the main point-at Issue, t me say that all the talk about silk mill ins ine plants, etc., etc., in conne-For capes or dress waists, non-with the great philanthropic electric in rich brocades, 39c, to st.oo, Satin Duchesse and Faille Silks in all grades at low prices. The provide the second provide the second provide the provide provide the provide provide the provide provide provide provide the provide p proposition. With revenue from a silk mill, ice plant, etc., I inven't the slightest doubt This department is so famish light at a figure which no other camcomplete that no descrip- pany could touch, provided always, however, that the silk, ice, hats and mps, beef, etc., should become paying investments. Should they fail after the companies now furnishing we are the leaders in this the borough with lights had been driven out of existence there would be nothing lift but line and our goods are to mise the price of lights, and when the figures would start to go up the people of sheunadish would be in a position to kick themselves for having turned down "the old for the new. Gentlemen of the Borough Council, let me, to entropy of the relation of the relation of the second of the relation of th exorcise economy in the management of the barough's affairs, you are at the same time bound to avoid false economy. It is your duty to encourage honost competition, and at he same time you are bound to protect home restments and industries. There are score and citizens and worthy widows and phane interested in the companies that now nish light for the borough and you should a housest, deliberate and careful thought your movements, lest you by a word rule in ens and the widows and orphans of thems who have helped to build up the og. For corns a shoe must be so constructed as a disgether avoid the corn. As too and miner cracks, when they occur are usually sequel of one of the above. I will not usually rough to its present proportions. I do not make this plea as an interested party weblog sympathy, but as a citizen who a cartain show for this trouble in this case, redisposing causes must be dealt with, the cost can be schemed with all and them the ack completely cut out in the shape of a them if hoof is kept acfs and its other onder hooked to, around hoof is ansured, must having heals that grow down vorti-illy should receive special attention in even give hosts at proper length, lead the orac become wurthless. Each animals ould be provided with a show that rocks advanta. artain shoe for this trouble. In this case cates Justice In a pure and unadulierate Don't lead your voices and votes to a intery based upon vengennee, but stan like men for what sour conscionces distant fair and lust. Any intelligent cliben d see that the new company monot place if he a position to furnish street light within the next sixty, or ninety days and that the new company made represent ons to the Borough Council which it must odurards it is a cure as well as provotta-Knee spring can be the source of various And such being the case, what hope can be entertained that the promises as to the ather system of light will be better fulfilled T. To be the start of the start put the situation briefly, I feel that a better

ally enuse pain if the horse would stand to the vertical line. Thus the trouble continues, ble horse not always being able to take are of the structure of his foot and especially when investing, he becomes painfully line tribented "no foot no horse" becomes a fact with nower owners, and the much with nower owners of such unfortunate ani-mund, went owners of such unfortunate ani-mund geonsiderable money for shoeing and as much more for medical treatment, is so dia moth source for model in the former sphere for the ward of proper treatment. An unlabanced third phalaxy, and to be able to know the second to a curter, A good horse is thus soid, and in currecting hay trouble a perfectly level boof a casantial that if the third phalaxis unhalanced in a level hoof, you have an ab-momility to dual with or one that has un-dergone pathologinal changes as above de-wnout has been mentioned. An interesting way to make encess! understand the cause of different humenesses and poluting, from an ancheaved of third polating, from and apple Krupersuvage.
