The expenses incurred by legislative investigating committees the past two years would have easily paid for the erection of a new hospital for the insane.

The Springfield Republican seems to think that the Pennsylvania legislature is endeavoring to reduce the McKisney majority of last year to normal proportions in the old Keystone state.

WANTED.—A number of men to wear discarded political collars. The previous owners have no further use for them. Apply in person and well heeled to the Senator from the 30th district. Exclusives not guaranteed, as only a small number are at present worn.

The editor of the Mahanoy City American has that "fired feeling." No wonder. Any man who undertakes to defend the record made by the Senator from the Thirtieth district has a Herculean task. O'Donnell is too small for the size of the job.

The New York Sun, in a special London dispatch printed Tuesday morning, announced that "Queen Victoria is almost totally blind." The Sun gives this painful rumor on what it considers accurate information. If it still turns out to be true it will throw a shadow upon the elaborate festivities which no pomp of display can lighten.

The latest advices from Washington is to the effect that the Pennsylvania Senators have been informed by the President that there will be no more appointments from the Keystone state until after the tariff bill has become a law. When John G. A. Lehighman's name was sent to the Senate for Minister to Switzerland, the President told Senator Quay that this would be the last Pennsylvania appointment until after the adjournment of Congress.

The very latest inside information warrants the prediction that the tariff bill will leave the Senate either on the second or ninth of July. It can be further stated that the gentlemen of the Senate and House who will be conferees are keeping up on the bill as it is being acted on by the Senate, and that there is reasonable assurance that the measure will be in conference only three or four days, instead of as many weeks, as is commonly feared.

There seems to be unpleasant feeling among the State Senators, says the Wilkes-Barre Record. The other day when the list was passed around for contributions to buy the regulation silver set for the president pro tem, Senator McCarell, a number of the Senators peremptorily declined to contribute the regulation \$10. Among those who refused were three Allegheny Senators, including Chris. Magee. Then Lieutenant Governor Lyon said he was ashamed of Allegheny, and would redeem her honor by contributing \$30 for the discourteous Senators.

The House did not do itself proud in passing the vicious electric light bill, under the provisions of which municipalities may not compete with existing light and water plants. The bill is perhaps the most iniquitous measure that has been introduced into the Legislature, and instead of having received a favorable vote of 108 to 69, it should have been defeated. It compels municipalities and other corporations to purchase existing electric light, water and gas plants before they can establish such plants of their own. Municipalities are prohibited from entering the fields of such concerns until they first purchase the plants already in existence. A powerful lobby has been working for the bill, and there has been a combination of interests that has proved irresistible, at least in the House.

The members of the Legislature are experiencing the hardships resulting from a depleted treasury, and some of them cannot pay their board bills. No money is being paid out at the state treasury for government expenses for the reason that the two years for which appropriations were made have expired, and the general appropriation bill has not been passed by the legislature. The two years expired on June 1, and since then not a warrant has been issued except for money that is due under contract with the state. None of the checks in the departments can get a cent; none of the institutions which to a certain extent rely on the state, can secure a penny. But the government employees will not be half so badly off as the average legislator is at present. The greater part of them have spent their money and are actually in want.

MASSACHUSETTS' GIFT

To Her Namesake Formally Presented to Secretary Long. Boston, June 18.—The gift of the state to the battleship Massachusetts, a bronze figure of Winged Victory, was made approximately on Thursday last. The unveiling and presentation took place in the presence of about 100 prominent citizens on board the battleship. The exercises were brief and simple. Governor Walcott made the presentation address, and while speaking he pulled a cord attached to the drapery which veiled the figure. This revealing it, while a national salute of 21 guns was fired. Secretary of the Navy John D. Long accepted the gift. The figure of Victory is 5 feet 6 inches in height, and 7 feet from tip of wing. Victory holds a sword in her extended hands. The figure is between the two 15-inch guns on the forward turret.

Train Plunged into Chicago River. Chicago, June 18.—A north-bound passenger train on the Chicago, Millwaukee & St. Paul road ran into the Chicago river last night at Kinzie street. Six men were hurt, but it is not expected that any of them will die. The accident, according to James Harrington, the bridge tender, was due entirely to the arrangement of the lights on the bridge. A large hexagon light is used, one-half of the lights being red, one-half white. Harrington said that he had opened the bridge for the passage of a tug, and was just swinging the bridge back when the train came on. He claimed that the engineer caught an oblique glance at the light instead of a look full at its face.

W. B. Johnson, Newark, O., says: "One Minute Cough Cure saved my only child from dying by cough." It has saved thousands of others suffering from croup, pneumonia, bronchitis and other serious throat and lung troubles. C. H. Hagenbuch.

Bad Again in Winona. Cortland, N. Y., June 18.—Eddie Bald was a winner in yesterday's state circuit races. Cooper qualified in the five open trial, but did not gain a position in the final. Close finishes were characteristic of the day, but both amateurs and professionals were too much inclined to loaf to make good time. After the race Bald rode an exhibition half in 15 seconds flat.

Alleged Murderer Executed. Paterson, N. J., June 18.—The murderer John Peters, the alleged murderer of Leo Reicherter, his boarder, came to a sudden end yesterday when the body of the man was hanged in a small bedroom in his home. He had evidently been dead from early Wednesday morning.

Minister Woodford Accepts. Washington, June 18.—Hon. Stewart L. Woodford of New York, the newly appointed minister to Spain, was yesterday in consultation with the president, and formally accepted the office. The new minister declines to say when he intends to start for Madrid. He returned to New York today, and it is probable that he will not sail for a couple of weeks.

Five Years for a Thieving Official. Denver, June 18.—Matt Adams, ex-chief of the district court, who was found guilty of the embezzlement of county funds, was yesterday sentenced to state's prison for five years. After the discovery of a \$60,000 shortage in his accounts Adams fled to England, whence he was extradited last year.

Killed at a Railroad Crossing. Little Falls, N. Y., June 18.—The Alton road express yesterday afternoon struck a carriage containing Samuel Stinson and Miss Schermerhorn at the main street crossing in Little Falls. Stinson was instantly killed and Miss Schermerhorn is dying. Samuel Stinson was one of the prominent Republicans of Central New York. He was a former postmaster of Herkimer. Miss Schermerhorn was a teacher in the public schools.

NOT A WHISPER

But the Trumpet's Clarion Note Sounded by a Scranton Citizen.

At first only the faintest echo reached to the coal regions. It came in the onward march through the State awakening echoes of good cheer to many of each triumphal step. Now 'tis here, and the trumpet notes of truth are daily sounded and doubt remains no more. This time 'tis to Scranton, the building city of the miners. At 110 Marion street resides Mrs. J. Filz and her evidence is added to that of many another in this region. This is how she tells it: "After being troubled six years with kidney disorders, I one day noticed an advertisement of Don's Kidney Pills. My best efforts to get rid of my trouble had failed but I determined to try them, and got a box of pills at Matthews' drug store, and I am indeed glad of this determination, for Don's Kidney Pills are all that is claimed for them. They are easy to take and have no disagreeable after effect. My affection varied sometimes worse than others, but I have never been free from the trouble in all these years. The warm weather seemed to effect me worse, and during that season the passage of urine was accompanied by severe pain. I had considerable pain in my back at night, and upon rising in the morning my limbs and back were stiff. I had stomach trouble too, but that together with all the other ailments has vanished. I have told my friends about the great good Don's Kidney Pills have done for me, and I will always persist in using them myself when necessary, although I have no need of them at the present. Three boxes of Don's Kidney Pills have made me feel strong and well."

Insect's Work a Pleasant Task. Insect's work a pleasant task. The bite of a mosquito was the cause of a man being sent to the insane pavilion of Bellevue hospital yesterday. Carmine Lepore, a bookbinder, 42 years old, a few days ago was bitten on the hand by a mosquito. He scratched it until it swelled. A few hours after the hand began to swell, and continued to do so until it was almost twice its natural size. The swelling extended to his arm and breast, and it was found that Lepore was suffering from blood poisoning. The pain became so intense that on Wednesday evening Lepore took to his bed and began to act irrationally. This is perhaps the first case on record where a person was rendered insane from the bite of a mosquito.

It required an annual outlay of \$100.00 to insure a family against any serious consequences from an attack of bowel complaint during the year there are many who would feel it their duty to pay it; that they could not afford to risk their lives, and those of their family for such an amount. Any one who is afflicted with this complaint can get relief by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. In almost every neighborhood some one has had an attack of bowel complaint, before medicine could be procured, or a physician summoned. One or two doses of this remedy will cure any ordinary case. It never fails. Can you afford to take the risk for so small an amount. For sale by Grubler Bros, druggists.

Frenchmen and Italians Fight. Paris, June 18.—In a fight between Italian and French workmen at Burgin, near St. Louis de Rhone, two Frenchmen were killed. The district is intensely excited, and the police are taking steps to quell further disturbances. Another affray between French and Italian workmen has taken place at Les Bains de Chon, near Arles. An Italian was attacked by a Frenchman, whomupon the French population made an onslaught upon the Italians, who fled for refuge to Basse Comarque. Troops have been sent to the scene of the disturbances.

Yves' of a Hotel Fly. Albany, N. Y., June 18.—While clearing away the ruins of the Delavan Hotel, which was burned on Dec. 31, 1894, workmen yesterday found the remains of three bodies. The remains were only a half buried skull, a thigh bone, some vertebrae and numerous small bones. They were identified as the bones of Mary Carney, Bridget Fitzgerald and Thomas Cannon. They were hotel servants, and occupied rooms under the roof in a corner of the building. Of the 14 persons who lost their lives in the fire, all have now been accounted for except Nogenia Storea, a servant, who slept on the top floor.

Hundreds of precious little ones owe their lives to Dr. Thomas' Ecodic Oil, the Swedish cure for croup and all other throat or lung diseases.

Be Defiantly Arrested. Philadelphia, Pa., June 18.—James Cornelius, who is charged with felonious arson on three counts, was given a hearing before Judge Love yesterday, and was bound over to the August term of court. Not being able to secure the necessary bail, Cornelius was taken back to the county jail. The evidence produced was sensational and damaging to the prisoner.

"Original Package" Agency Closed. Charleston, S. C., June 18.—The dispensary law of South Carolina is to be brought before the courts again. Yesterday afternoon J. S. Pinkens' "original package" agency was seized by the state authorities, and the premises have yet been made a magistrate and his store closed up. This action is taken under section 22 of the dispensary law, which declares that any place other than a state dispensary in which liquors are sold shall be considered a public nuisance. It is probable that the case is made to test the validity of the "original package" decision recently issued in the United States courts.

Victory For Ornamental Plasterers. New York, June 18.—Seventy-two contractors have succeeded to the demand of the plain and ornamental plasterers' society. The number on strike is 203. No efforts have yet been made to procure non-union men. It is likely that the whole trouble will be amicably settled within the next two days.

Sick headache can be quickly and completely relieved by using these famous little pills known as "Dr. Witt's Little Early Risers." C. H. Hagenbuch.

STOCK AND PRODUCE MARKETS.

The Strong Upward Tendency of Prices Observed on Wall Street. New York, June 18.—The strong upward tendency of prices for securities was retained on the Stock Exchange today after the reactionary tendency of the last two days. A powerful group of professional traders have been selling out their holdings during the two previous days to realize profits. They have done so in the conviction that the market would prove bullish for a fraction rather than with too long continuance of a steady advance. The reaction has not been caused by any general condition seriously affecting values, but as indicated by the above fact, it is a result of the result of manipulation with a view to keeping up its tone. The reaction had not reached serious proportions, and the earnings to realize have been a steady advance. Today's developments indicate that the large operators have completed the selling of their profits or have found the market too tight to effect a market-securing. Closing list:
