A SENATOR running for the protection of the law, like a small boy running to his parent, is a sight to make the gods weep.

The old capitol at Harrisburg has been razed preparatory to raising the new one. This is one building that does not need a "Roll of Honor" to get an appropriation.

The law which goes into effect July 1st taxing all aliens over 21 years of age who are not citizens 3 cents per day and making it obligatory upon their employers to deduct the tax from their wages is likely to cause a commotion in naturalization court.

WILLIAM JENNINGS BRYAN and Richard Parks Bland, who assume to speak for the Democratic party to control its destiny, renew in recent utterances their evidence of esteem for the gold Democrats, and announce that if they are willing to bury their golden idol and how down to free and unlimited coinage of silver, they may come into the Democratic party again, otherwise they cannot.

A CLEVER rascal was arrested in Chicago on Saturday last charged with forging railroad passes. His principal stock in trade was his resemblance to J. H. Olin, general superintendent of the Jersey Central Railroad, well known as a former resident of Schuylkill county.

NOBODY need be alarmed over the (so-called) scarecrow of "retaliation" by foreign countries with reference to the new tariff. The countries which are hinting at the exclusion of our goods from their markets because of our proposed tariff changes will think several times before they conclude to shut off their markets in this country by a process of that sort.

HOUSEWIVES throughout the land suffered a severe loss last Friday in the death of Miss Juliet Carson in New York, as she has labored for years past in the domain of cookery and her name was well known throughout the country.

AN industrial revival along the Monongahela Valley has started and prospects are brighter than for months past. Both the Edgar Thomson and the Homestead steel works resumed Sunday evening after a long stoppage.

AN interesting tale of how an egg hatched on a wedding comes from Oklahoma. It seems Ross Williams, a young farmer with romantic notions, living near Perry in that new

MAJORITY SENATORS DISAGREE

Foraker and Carter Attack the Wool Schedule of the Tariff Bill.

Washington, June 22.—An exciting debate marked the consideration of the wool schedule, which began in the Senate yesterday.

Mr. Foraker, in charge of the bill, on the other side of the chamber, and led to a warm personal exchange between Senator Carter of Montana and Foraker of Ohio on one hand, and Mr. Allison of Iowa, in charge of the bill, on the other.

Mr. Foraker, who had aroused the storm, endeavored to have the paragraph relating to carpet wools go over, with a view to securing some other action, but Mr. Vest, in an impetuous speech, objected to delaying the bill.

Too Much Knife.

The use of the surgeon's knife is becoming so general, resulting fatally in such a large number of cases, as to occasion general alarm.

Mr. William Walpole, of Washburn, South Dakota, writes: "About three years ago, there came under my left eye a little blotch about the size of a small pea."

It grew rapidly, and shooting pain ran in every direction. I became alarmed and consulted a good doctor, who pronounced it cancer, and said that it could not be cut out.

I was determined to give that medicine a trial, and after I had taken it a few days, the cancer became irritated and began to discharge.

This after awhile ceased, leaving a small scab, which finally dropped off, and only a healthy little scar remained to mark the place where the destroyer had held full sway.

Cancel is in the blood and it is folly to expect an operation to cure it. S.S.S. is a real cure for every form of blood disease of the blood.

ed more religiously than the decorations by day. Those of the metropolitan were like everything that had previously transpired, greater and more resplendent than anything in her history.

growth of empire that had met the eye in painted and gilded mottoes, devices of paper and bunting and spangled cloth were now reflected for miles in lines of flaring gas, glowworm oil lamps, opal globes, paper lanterns and transparencies, incandescent lamps, celluloid flowers and hundreds of devices in thousands of colored crystals.

Everywhere was brilliancy, sparkle, color, at many points a dazzling radiance under the mild summer sky.

With illumination which was universal in every city, town and hamlet of England, Wales and Scotland, and in some parts of Ireland, with fireworks in countless places, with illuminations following the fall of night in every part of that empire where the queen has sway, there yet remains to be mentioned the final torch—the lighting of the empire's torch—the ancient form of giving warning or sending joy, the beacon fire.

At 10 o'clock struck at the Greenwich observatory a tongue of flame shot upward from Great Malvern, "the backbone of the Midlands."

It was the jubilee beacon fire. Hardly had the spectator time to look on it before another flared in the distance on the right, then again on the left, on the north, south, east and west.

The People's Favorite.

A Man of Affairs, Who Has Long Been a Leader in Politics, and Whose Popularity Extends Beyond the Limits of His Town, Relates An Experience.

Alderman GEORGE FRY, Allentown, Pa.

It would be difficult to find a more popular city official than the gentleman whose portrait appears above. He has been so closely identified with all that relates to the well being of Allentown and Lehigh County, and been in public life so long that his numerous friends will be particularly interested in what he has to say.

Mr. Fry sends us the following statement, dated May 11, 1895: "In June 1894, I was terribly afflicted with nervous rheumatism, which was particularly severe in the shoulders. Physicians said it was the result of La Grippe which I had in 1891. They claimed my spine was affected, and this would weaken my nerves. I took medicines from many doctors without relief."

Double The Circulation. of any two newspapers in Shenandoah, and steadily increasing, is the magnet that draws advertisers to the EVENING HERALD.

It Goes Into The Homes of the people; that's what makes the Herald such a valuable advertising medium. It's a wide-awake newspaper and prints all news promptly and accurately.

Heart Disease Cured.

Mr. R. B. Greese, merchant of Chilhowee, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but got no relief.

When a well known minister after endeavoring for years with heart disease, is cured, it is not surprising that he should publish the facts for the benefit of others.
