Over Four Hundred People Spend the Day at Lakeside.

The annual outing of the Rescue H. & L. Company was held at Lakeside today. When the first rays of the sun shone this morning, many of the fire ladders were seen swinging from the arrival of the Lithuanian band to escort them to the heading station, from which place the excursion train started shortly after 8 o'clock. They were accompanied by a large number of friends and their families. The parade was held at the corner of Main and Centre streets, where the brave ladders and members of the band were presented with white caps from the Famous Clothing.

The thunder storm of last night cooled off the atmosphere considerably and with the genial weather of today, there is no doubt that all who accompanied the excursion enjoyed a pleasant day out. A concert was rendered by the band in the grove this afternoon.

WENT DOWN WITH THE BARK.

Five Sailors Lost With the Wrecked Bark Magnahild.

Quebec, June 25.—The remainder of the crew of the Norwegian bark Magnahild, of Christiania, arrived here yesterday on board the steamer Antwerp City. The Magnahild left Philadelphia, coal laden, on June 3, for this city. They had fair weather until the 21st inst., when a heavy gale set in. The bark was then in the middle of Bird Rocks, and a heavy gale from the south to southeast was blowing. The cargo shifted during the gale, and the bark curved over. The crew immediately began to cut away the masts, which on falling broke up two of the life-boats. Twelve men got into the one remaining, the largest on the bark, but the captain and five of the crew, thinking themselves after on board, refused to leave the bark.

About four minutes after leaving those on the lifeboat saw the bark founder. This happened about 10 p. m. on Monday, and after tugging about for 24 hours the steamer City of Antwerp was started and picked up the crew of the wrecked bark and brought them to Quebec, where they were taken to charge by the Norwegian consul.

The names of the men who went down with the bark are: Captain Tedelson, H. A. Anson, first mate; Wilhelm Jergensen, second mate; Wilhelm Helder, third mate; Eilgreen and Carl Carlsson, able seamen.
