A "Paper" Hospital.

In view of recent developments in connection with the hospital, alleged to be erected near Mahanoy City, and for which it is claimed \$8,500 have been subscribed, the proceedings of the Legislature on Saturday furnishes interesting reading. It will be remembered that the \$8,500, making up the "roll of honor," it is asserted that not one penny has been, or was ever intended to be subscribed by those whose names appear opposite the respective amounts; that the publication of the list, from day to day in Senator Coyle's paper, was done for the purpose of securing an appropriation of \$30,000 from the state treasury—and for what, we leave our readers to infer.

When the bill appropriating \$10,000 to the above mentioned hospital was reached on second reading in the House on Saturday Mr. Voorhes said he did not want to be inquisitive or presumptuous, but he would like to know of the gentlemen having the measure in charge where this institution is located. This brought Mr. Gustavus Schrink, who represents the Fourth district and is sponsor for the bill in the House, to his feet with the information that the measure was prepared by Senator Coyle and that the hospital is to be located at Mahanoy City. This did not satisfy the representative from Philadelphia, Mr. Voorhes, who called attention to the fact that "the bill appropriates \$10,000 for surgical instruments" for an institution that has not yet been built, and for which, he was reliably informed, a site has not yet been selected. He closed his remarks with a demand for a roll call on the bill. Mr. Schrink appealed to the House to pass the bill on second reading on promise to furnish more information when it came up for final passage.

What the promoters will do with the \$10,000, provided the Legislature appropriates that amount, is problematical. With not one penny yet appropriated, by individuals or corporations, and a site to purchase, it is reasonable to suppose that the \$10,000 for surgical instruments will be added to the "roll of honor," and still there would be no hospital.

The project is a most worthy one, and were it in other hands might have received just recognition not only at the hands of the Legislature but the people of this section of the county as well. An undertaking built upon fraud, however, does not deserve success.

The Girl Graduate.

Addressing himself directly to graduates of institutions of learning—to those whose school days are over—Edward W. Bok, in the July Ladies' Home Journal, forcibly writes:

A girl reaches one of the most important times of her life when, with her school days behind her, she steps out upon the threshold of a new phase of life. What is she to do? She has the power of knowledge within her. How will she use it? It is not an easy decision this.

The home, when she returns to it, seems small in comparison with the college halls. The life of her parents seems a bit precise and circumscribed compared to the hours of girlish companionships in college. She feels just a little shut in, cramped. She longs to put her knowledge to some use. But in what direction? How? Common duties seem hardly worthy of her! It is a noble trait in a girl, when, returning home from college, she realizes the necessity for bread-winning, and feels impelled to put her knowledge to use.

Under such conditions a girl has not much choice. Her duty is very clear to her. But where the desire for a career opens itself before a girl from simply an absorbing ambition, then it is that the road opens before her, and two diverging paths appear. The desire to do something in the world is never laudable. But sometimes a young woman is apt to misconstrue the 'something' and to see the wrong world. And here, unless she is very careful, the young woman just out of college, and standing on the threshold of a new life, may make her gravest mistake.

The author of a wonderful little classic for girls—"What is Worth While?"—shows the great danger which besets the young woman who allows some intellectual ambition to be substituted for the simpler duties of life. Ambition is in many ways the most deadly foe to a young woman's character. An intellectual ambition draws many a girl away from her true place in life, and makes of her a cold, unloved and unhelpful woman, instead of a joyous, affectionate, and unselfish blessing to home and friends.

We need not try to annihilate an-

tion, this writer goes on to say in her clear way, but let us keep it within bounds, let us see to it that it holds a just proportion to our lives. We need not let our talents lie idle, nor neglect to make the most of them; there is a place and a grand work for them all. But let us keep their development forever subordinate to simple human duties usually to be found at home.

With the "Roll of Honor" laid on the shelf and a doubtful libel suit on his hands, the Senator from this district is truly to be pitied. Add to those misfortunes a consulship that looms up in the "great beyond," with a Senatorial term that expires on Saturday, one can readily understand the state of mind of our Senatorial friend who has so successfully misrepresented this district. The people can find consolation, however, in the fact that it will be written ex-Senator with the adjournment of the present session.

The list of candidates for other places is correspondingly large. It is believed that R. T. Houch, of Hillsboro, a radical free silverite, will be named for governor.

Bank Burglars Use Electricity. Cleveland, June 25.—Burglars resorted to a novel scheme to open a bank safe at Chagrin Falls, this county, Saturday night. They entered the bank of Rogers & Son, some time early in the evening. They had previously attached a wire to the trolley line of the electric railway. This wire was run through an alley, over a tannery and to the safe. Another wire attached to the rail of the street car track was brought into the bank. As the wire of these wires were carbon points. With these carbons an attempt was made with the arc light thus formed to melt the knob of the combination. The experiment worked all right, and the knob had been nearly melted away when the current was shut off shortly after midnight. The burglars then gave up the task. The thieves had even gone to the trouble of placing a little pile of sand under the knob for the molten metal to fall on, and thus avoid setting fire to the floor.

Cut to Pieces by a Mowing Machine. Bellefonte, Pa., June 25.—On the farm of Robert Henderson, near State College, George Taylor was out in the field mowing grass, when a horse frightened and ran away. Taylor was thrown in front of the cutting bar, and before he could extricate himself or assistance could reach him was slaughtered in the swiftly moving knife and literally cut into fragments. The team were caught, and the entire trail was strewn with Taylor's flesh and blood. Taylor leaves a wife and children.

A 30 YEARS STRUGGLE

And the Little Conqueror Appears. The Experience of a Wilkes-Barre Citizen.

Thirty years is a long time to struggle against an unseen foe, and this has been the experience of Mr. J. J. Miller, a citizen of Wilkes-Barre, residing at Clarksburg street. Many could be told about the circumstances surrounding Mr. Miller's case, how he enlisted during the war with the 52nd Pa. Volunteers, the exposure and hardships of the campaign, etc., right through to the receipt of his honorable discharge, a lifetime in itself, but this is not the subject of this story of human existence, and we will let Mr. Miller tell the facts as he told them to our representative. Said he: "I have suffered for over thirty years from my kidneys. Exposure during the war added to my complaint until it became a confirmed disease. As for remedies recommended and prescribed by physicians, I have used too many to mention. Doctors have had my back thoroughly blistered, and tortured me in many ways without any relief at all. I used to get up as often as twelve times in a night to pass urine, and it was a high red color, containing blood and sediment. The urine burned in passage. I could not sleep, and it hurt me to turn over in bed. I had a stinging pain in the back and most severe headaches. I got some Doan's Kidney Pills at Tuck's drug store and began taking them. They helped me the second day of use, and I was at them for weeks. I found I had a genuine kidney cure. I took nearly three boxes, and I feel like a young man. I am as good in my back as a new born child, and thank God I am cured. I feel my back every day and it is all right. No air, I would not be without Doan's Kidney Pills. I would not recommend them to any one, but I would recommend them to every one, and I am always afraid people won't test them thoroughly and I always tell them to take at least three boxes. Positively too much praise cannot be credited to Doan's Kidney Pills."

COST OF THE JUBILEE

Twenty-three Millions Expended In Honoring Queen Victoria. London, June 25.—With Saturday's naval review off Spithead the jubilee festivities practically ended. It was the biggest week any country ever saw. The ceremonies and decorations cost the British public not less than \$10,000,000, while the loss of business by small traders is estimated at \$5,000,000, and the cost to the government of entertaining guests and doing its share is not less than \$3,000,000.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stands long it is a positive evidence of kidney trouble. Two frequent desires to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passage. It cures inability to hold urine and stinging pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon noticed. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention EVENING HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Desperate Fighting in Cuba.

Canon, Cuba, June 25.—An armed force of 1,500 Mexicans made a sortie from Caena Saturday night, crossed the military cordon and surprised the insurgents at Kanikastell, three hours distant. A desperate combat ensued in which 15 Mexicans were killed and 45 wounded. Many Christians were killed, as well as many Turks. In engagements that preceded the principal fighting at Kanikastell, the Christian inhabitants of the district are preparing to make reprisals by land and sea. The trouble caused by the encroachments of Mexican refugees, who attempted to pasture their cattle within the limits of the neutral zone.

SEVERE STORM IN LITTLE ROCK.

Little Rock, Ark., June 25.—The worst storm of the season occurred at Little Rock yesterday afternoon. The wind reached a very high velocity for a few minutes, and the people who remembered the cyclone of three years ago were terror-stricken and hurried to a place of safety. Shade trees and fences were blown down, and many windows in the business portion demolished. Rain fell in torrents, followed by a hailstorm. A few small buildings were blown down and roofs damaged. A number of persons were more or less injured by flying timbers.

TARIFF DEBATE NEARLY ENDED.

The Senators May Complete Their Work This Week. Washington, June 25.—The Republican tariff managers are still hopeful that the present may prove to be the last week of the tariff debate in the senate. All the schedules have been gone over once, leaving nothing to be done but to consider the paragraphs in the various schedules which have been passed when reached in their regular order because of differences of opinion among the Republicans themselves.

Many of these differences have been adjusted in the Republican ranks, but the Democrats will naturally take advantage of their knowledge of the feeling existing among their opponents to debate some of the questions at length. It is understood now that coal, leather, hides and lead ore will each be vigorously discussed, as will also the questions, though more briefly, of reciprocity, the treatment of trusts and the disposition of the Hawaiian reciprocity treaty.

In view of the determination of the Democrats to exploit all these questions, and others as well, it would seem impossible to conclude the senate's work on the bill before the end of the week and it is more than probable that the final work will be reserved for the following week.

The house will continue this week its policy of adjournment from Monday until Thursday. After that its course will depend on the action of the senate. If by any chance a vote should be had on the tariff bill Wednesday or Thursday the house probably will remain in session to consider the bill, disagree to the senate amendments, and appoint conferees. Otherwise an adjournment will be had from Thursday to Monday.
