# THE MURDER MYSTERY

Dismembered Body at New York's Morgue Puzzles the Police.

MAY BE A VICTIM OF THE MAFIA

At the District Attorney's Office It is Intimated That the Dead Body May Be That of a Missing Witness in a Murder Triat.

New York, June 29.—The mutilated body that was found in two sections. one in East river on Saturday, the other in the northern part of time city on Sunday, has not been identified. A number of persons have visited the morgue, thinking they might recogfriend or relative, but none could identify the body. One evening paper ans offered \$1,000 and another \$500 for a olution of the mystery,

Coroner's Physician O'Hanion made another examination of the body yesterday afternoon. Afterward he said that whoever had out up the body, while he might not have been a sur reon, must have known something of the human anatomy, as he had cut the body in the parts where saw and knife would meet with least resis-tance. In the case of the legs, the cuts had been made slanting instead of directly across. This was the easiest

way to make the cuts. But the physician admitted that the cutter may have struck the casiest and simplest way to do his horrible work by mere accident. Still he did not think that possible, and thought that even a butcher accustomed to the killing and rutting up of animals could have not done the work so well as it has been

It was said by a physician yesterday that the parts of the body had been boiled. This Dr. O'Hanlon does not believe. The peculiar appearance of the tragment found in the upper part of the city was due to its lying in the sun before being wrapped, he thinks.

The district attorney's office has taken a hand in the attempt to identify the body. Assistant District Attorney Bell, who has charge of the prosecu-tion in the case of the murder of Santo Abrusso, on March 12 last, which in declared to have been done at the behost of the Main, said yesterday that three witnesses in the case had disappeared. Two were lost sight of more than two months ago, when the case first came up. Seven men were indicted, one was discharged, one sent up for a term in prison, and Michael Carmeiro, another of the men, is or

In this case a man named Advaro

ness, and he had disappeared. Mr. Bell said: "One of our witnesses was offered \$1,000 by friends of Carmeiro hat to testify, and they have done everything in their power to stop the prosecution. While I have no reason to believe that the trunk is that of my witness, it is possible, and in order to do what I can to solve the mystery I shall get some Italians who know Adzaro to view the body, because from the description given there s some similarity between Adzaro and

The only distinctive mark on the parts of the body found is on the in-dex finger of the left hand. That is the test the detectives are trying to apply to every identification. The entire nail on the finger looks as if twisted to the right. The right corner and outer end extends beyond the flesh of the finger while the right corner on the inner end is nearly in the center of the finger. The units of all the others is trimmed to the quick, and this fact gave rise to an early report that the nail of the deformed finger had been broken in the struggle for life. There is no fresh in-jury on the finger. The felon, cut or blow that resulted in the deformity had bealed several years ago.

At I o'clock this morning a well dress called at the morgue and said he could identify the mutilated remains. He described certain peculiarities of the body accurately. When shown the incomplete corpse the foreigner said:
"Yes, I think I know the man." Then he asked about the cord, assertb

A detective questioned the visitor, but got no information from him. The visitor said he would return later in

Try Electric Bitters as a remedy for year troubles? If not, get a bottle now and get relief. This medicine has been found to be peculiarly adapted to the relief and cure of all Female Complaints, exerting a wonderful direct influence in giving strength and tone to the organs.
