Those running next were Chapman, Welty and Sorg. Welty's name was not presented after his friends learned that Chapman had been agreed upon as the compromise canbefore the balloting began, and the name of Sorg was withdrawn before the result of the first ballot was announced.

Although the McLean men had been In conference during the night and morning, and had agreed to go to Chapman, they scattered their vote on the first ballot and did not concentrate on Chapman on the second ballot any more than necessary to nominate, so as to dissipate as much as possible the report that McLean was naming the

it is conceded that the McLean men hed an understanding with Mr. Chap-man and his managers before the con-Yention met, and the vote of the strong M:Lean counties for Chapman bears out the report. In addition to the state the ket nominated there is an impeded arrangement for John R. McLean for separor with the state candidates, as Well as the party organization for him. Still, it is reported that ex-Congressman Paul J. Sorg will also be in the

fleid for senator. The McLean men did not name their first favorite for governor or hold the resolutions as they had fixed them, but these concessions were made in the interest of harmony. They wanted nothing in the platform but the declaration for free sliver as the paramount issue, but they would not vote against anti-Presented. And they claim all the favor and co-operation with Mr. Chapman that they could have had with Judge Blough, without entailing prejudice Undertaking from the rural districts for having ar-bitrarily used their power.

The full ticket nominated is as follows: For governor, Horace L. Chapman; ileutenant governor, Melville D. Shaw; supreme judge, J. P. Spriggs; attorney general, W. H. Dore; state treasurer, James F. Wilson; board of public works, Peter H. Degnan; school commissioner, Byron H. Hurd.

The silver Republicans held a con-ference last night and expressed great indignation. They said it was true they had announced that they did not want a place on the state ticket, but the announcement was not made till after they were told they could not have it. They appointed a state committee to call a convention to nominate a separate ticket. The Populists also announced that they would have a separate ticket. The Prohibitionists will have two separate tickets, so that there will be at least six state tickets in the field.

over Pennsylvania. The official time! Cornell, 9 mins, 211-5 secs.: Columbia, 9.23 B-h; Ponnsylvanta, 9.25 1-5.

The freshmen race over the two mile course here last evening between three American crews rowing with purely realizes that he is in danger. American methods, was one of the racing in this country. It was inspiring, magnificent. The freshmen of Cornell. lumbia and Pennsylvania rower with their heads as well as with their bodies, and showed science that was the instant the flag dropped, and the fact that but two seconds divided the first and last crews, and the boats half, is evidence of the character of the struggle. That such a struggle was watched by only a small sized crowd is a misfortune for those who missed see-The time is not record breaking, be-

couse Yale made the same course in 9.1916 Wednesday, but both Columbia, finishing second, and Pennsylvania, finishing third, made better time than did Harvard and Cornell, finishing in the same places last Wednesday. The feature of the race was the wonderful spurt made by the Columbia youngsters in the last balf mile, when they closed up a gap between themselves and Cornell so fast that had there been another eighth of a mile to row they would have been in first place. A sec Bold by druggists, or sent post-paid on receipt of price ond feature was the remarkable row ing of the Pennsylvania crew, which had been said by its trainer to be in very bad shape. This crew is a very much inferior crew to the Pennsylvania varsity crew, and the critics are wondering whether Ellis Ward has not something "up his sleeve" for tomorrow's 'varsity race. The only criticism on the race made last night was that Dr. Walter Peet, the referee, kept the rews waiting so long at their stakeoats with their oars dipped that the nervous strain took off at least two

econds from the time. After Referee Peet, in his clumsy oat, which seemed to want the whole f the river to turn in, had kept the crews waiting at their stake boats for some five or six minutes, the youngsters showing the strain they were un-der, the pistol start was given and the crews were off. Pennsylvania caught the water first with a swift stroke that shoved the nose of her boat clearahead of the others, Cornell and Co-Cornell fell slightly to the rear of the New Yorkers. All started at a 35 stroke. out Cornell, true to the Courtney train-ng, dropped down to 33, while Columbia kept it up at 35 and Pennsylvania was bitting away at 33. At the eighth of a mile Pennsylvania was leading the Columbia boat by an eighth of a length, and Cornell was a quarter of a length behind the Columbia boat. At the quarter Cornell had drawn up even with Columbia, while Pennsylvania had her quarter length lead.

Slowly and surely the Cornell boat gained. Columbia, too,was coming along, and the Pennsylvania lead of a quarter of a length was reduced in the next quarter to a bare eighth. Then the Quakers did fight for life, and down to the end of the first mile there was a terrific race for a place. So this con-tinued for another half mile, down to the mile and a half point. First the nose of the Pennsylvania boat would nd then Columbia would draw up on

Entering the tast half it was clearly seen by the condition of the men in memorable struggle. At this point Cor-nell had a lead of a quarter of a length over Pennsylvania, and Columbia was an eighth of a length behind Pennsylvania. Columbia's stroke our caught a crab at this juncture and lost about four strokes, but quickly fell in. Whether this had any disastrous effect upon the boat or not was not ap-parent from the observation train, but just following it Columbia hit up the stroke from the first 35 they had been rowing uniformly during the race to a faster 38. Cornell had made the lead three-quarters of a length, and were still going when that sourt strated, and when it was fatrly under way had

a length advantage.

Then the bent of Columbia seemed to fairly lift in-if out of the water. Pennsylvania responded with a 31 stroke, but the long shell of the New Yorkers fairly lifted itself along and year to the Pennsylvania beautiful.
