Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb like the bladder, was created for one purpose, and if not detested too much is not liable to weakness or disease, except in rare cases. It is situated back and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often by mistake attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy is soon realized. If you need a medicine you should have the best. At druggists fifty cents, and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention EVENING HERALD and send your name to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Reduced in the Senate Bill Depoite the Finance Committee. REPUBLICAN SENATORIAL CARENS DECIDE That the Terms of the Wilson Law on That Subject Shall be Continued. To be Sent to Conference.

Washington, July 2.—The finance committee suffered several unexpected reverses during the progress of the tariff bill yesterday, being defeated on three important votes. Cotton bagging was placed on the free list by a vote of 30 to 25, and cotton ties also, by a vote of 29 to 23. The duty on white pine lumber was reduced from \$2 to \$1 per 1,000, the vote being 22 to 31. The amendment on pine occasioned the greatest surprise, and led to a general breaking up of the majority on both sides of the chamber. During the early stages of the debate the duty on lumber, including pine, was placed at \$2, after a protracted contest.

Yesterday Mr. Teller returned to the content and moved to place white pine lumber on the free list. The amendment was defeated by the vote of 32 to 33, four Republicans, Baker, Carter, Hansbrough and Quay, joining with the Democrats, Populists and silver Republicans in the affirmative, while three Democrats, Bacon, McHenry and Martin, voted with the Democrats in the negative. Following up this close vote Mr. Mantle, silver Republican, moved to reduce the rate on white pine from \$2 to \$1, and this carried by a majority of 1. Two Republicans, Baker and Carter, voted with the Democrats in the affirmative, and three Democrats, Bacon, McHenry and Martin, with the Republicans in the negative.

The bill is now completed with the exception of the reciprocity section and some comparatively minor paragraphs. Much progress was made yesterday in clearing up the bill. Paragraphs heretofore passed over. Only three of these—coal tar, potash and tea—remain, so that these items, the reciprocity section, and the brief internal revenue and administrative provisions are all that remain of the bill to be disposed of before the final vote is taken.

The Republican senators held what they decided should be their last caucus on the tariff bill last night. The meeting continued for more than three hours, and was productive of important results, which were not reached without the display of considerable feeling. Among the points decided were the following: To report no anti-trust amendment toward the original finance committee provisions for a duty on tea and an increase of 40 cents per barrel in the tax on beer, and to propose for a tax on bond and stock transactions.

The greater part of the time was given to the proposition for a provision against trusts. The committee had held a meeting during the afternoon, at which the whole question was gone over at length with the Republican senators, including Messrs. Hiram Chandler. It was then decided that it would be extremely difficult to secure legislation that would be effective, and that upon the whole it was impolitic and unwise to undertake it. A report was made accordingly to the caucus and a resolution adopted authorizing the presentation of an amendment providing in express terms for the continuance in effect of the terms of the Wilson law which makes it unlawful to form a trust in imported articles. This report was finally agreed to.

The estimate of the revenue the bill would produce, made by Mr. Worthington C. Ford, who had given the opinion that, with an equal volume of imports, the bill would produce during the first year more than \$100,000,000 in excess of the returns under the Wilson law for the first year it was in existence. Senator Allison said, however, that these figures were misleading, as the imports would not be expected to be so large, and advised his fellow senators on this account not to accept them as any indication of the possibilities of the bill.

When the tariff bill reaches the house after it has passed the senate it is not probable that there will be any attempt to oppose the motion which will be made, either directly by Chairman Dingley or by the operation of a special order, to discharge the bill from amendments and send the bill to conference. The Republican leaders do not think there is any necessity for debate until the bill is reported back by the conferees, and the Democrats are inclined to the same opinion. Mr. Bailey, the leader of the minority, said he would not oppose a motion to get the bill into conference, provided the Republicans would agree to a reasonable time for debate when the bill was reported back to the house. He thought three or four days for discussion at that time would be sufficient.
