READY FOR THE FOURTH.

Many Residents Preparing Decorations For the Monday Observance.

ATTRACTIVE PARADE ARRANGED!

Several Societies and the Firemen Will be in Line - The Business Men Will Also Take a Hand and Put Forth Unique Displays.

In all parts of the borough are evidences of extensive preparations for America's natal day and the 181st anniversary of the Declaration of Independence will be observed on Monday by the residents with no little degree of pomp despite the six months of hard times they have passed through. This is an indication that it is almost impossible to suppress the patriotic spirit of the American people. Thus far there have been no decorations but from the display of flags and bunting made at several places it is reasonable to assume that the red, white and blue will be abundantly in evidence by the time the first gun is fired.

The Grand Band has taken the initiative by this year and through its efforts a parade has been arranged which will no doubt result in a very appropriate public observance of the anniversary of the Declaration of Independence. At least two of the fire companies will be in line and many of the business men have arranged to participate with neat displays reflecting their respective lines of business. It is expected that this part of the parade will be a very unique and interesting one. After the parade the picnic of the Grand Band will be opened at Columbia park and it is expected that this, too, will be a very pleasing feature of the day. Bicycle races for two prizes, a gold medal and a bicycle lamp, have been arranged in connection with the picnic and many converts to the pedal will strive to secure them.

The following is the order in which the line of parade will form:

- Chief Burgess and Uniformed Police. Chief Marshall, W. T. Schopp. Aids - Phil. Maher, David Morgan. Committee of Escort.

Boyer Practices the House.

Harrisburg, July 2.-The record of the legislature of 1897 has been made up, and nothing which may be said now will in the slightest affect that record. In the closing hour of the session, when the era of good feeling prevailed, and when the asperities of the long session had been in a measure smoothed away by the thoughts of parting, Speaker Boyer took occasion, in responding to some complimentary remarks on a resolution thanking him for his impartial and able discharge of the duties of presiding officer, to say that the present house had done much that was good and that, notwithstanding the criticism which had gone broadcast throughout the state, when the people of the commonwealth had an opportunity to study the record of the legislature they would give praise where praise belonged, and properly estimate the work of their representatives.

Philadelphia, Shamokin, Wilkes-Barre, Shenandoah, Ashland, Williamsport, Berwick, Mahanoy City, Delano and many other places are well represented in the entries. Moore, of Williamsport, and Gistahler, of the Mahanoy City, are the favorites to try at the State half-mile record. For State Delegate.

This morning's Mines' Journal, in a leading editorial, announces the candidacy of John F. Finney as a delegate to the next Republican state convention. It was hardly necessary for the Journal to make the announcement because the people of the Fourth district are well aware of Mr. Finney's candidacy, the majority of the delegates having already pledged themselves to vote for the doury Major. The editor of the Journal has only to express, but if all signs fall not he will represent the Fourth district in the next convention. His candidacy, it is said, has received the endorsement of the state leaders.

The Diamond Vein.

The officials of the P. & R. C. & I. Co. are much elated over finding the Diamond vein at the Pot's colliery. The work was prosecuted through an old tunnel that was driven in 1890, and which has been standing idle for many years. It was extended a further distance of 83 yards, when the coveted vein was found. A test was made with the drill and the vein was found to be full ten feet thick and of splendid quality.

THE STRIKE OF MINERS

A General Suspension of Work Ordered For July 4th.

A DEMAND FOR LIVING WAGES!

In Some Places Seventy-five Cents a Day is Above the Average of Wages. Strike Leaders Declare That 370,000 Men Are Involved.

Columbus, July 3.-A general strike of miners of the United Mine Workers of America has been ordered for July 4 by the national executive board, whose headquarters is in this city, and also by the district presidents, as the result of a meeting held here June 24, 25 and 26. The officers here say 375,000 men are involved as proposed strikers. So far as anything can be learned here from officials, the call for the Pittsburgh meeting of miners today is to decide how the strike is to be conducted in that direction. They have to consider plans to take care of the women and children during the strike. President Ratchford says this is the best time to settle the question of wages, as during the summer the men can make use of their little garden plots in obtaining subsistence. The needs of clothing are not as great as in winter. The proposed scale is intended by the union to make work for miners profitable to them in the Pittsburgh district and elsewhere. Pittsburgh, as claimed, is paying 45 cents per ton and Ohio 10. To make the differential what the Ohio operators claim it ought to be they threaten to reduce Ohio miners to 45 cents per ton, or nine cents below Pittsburgh. The miners propose, if possible, to raise Pittsburgh prices so as to prevent a reduction in Ohio to 45 cents, and the possibility of even a further reduction here in case Pittsburgh should keep on lowering as Ohio lowered to maintain the differential of nine cents. District President Patrick Dolan, of the miners' association, in an interview at Pittsburgh regarding the strike circular, said: "It will remain with the convention of miners today to decide whether a strike shall be inaugurated in this district or not. The circular contains only a recommendation of the officials of the United Mine Workers. If it is decided to strike I will do all in my power to make it general." A number of Pittsburgh operators were seen, but none appeared to be worrying over the possibility of a strike at this time, and they all took general. Some say they will pay the advance, and can do so and make money, provided the majority of the mines are closed. The miners' leaders believe, however, that if the convention orders a strike they will be able to bring out all the miners, whether they are working under contract or not. The miners of Spring Valley, Ill., have voted unanimously to obey the order of the national executive board of the United Mine Workers of America to mine no more coal after July 4. All employees of the company, whose wages rise and decline when the wages of the miners are affected, have also been asked to come out. This means that the trappers and even the cagers, who have charge of the hoisting of cars, will also come out. This puts a serious aspect upon the situation, for if the miners are allowed to remain idle without the constant attention of the trappers it would not take long for them to cave. The miners of that city are very determined. They have had their wages reduced nearly 50 per cent in the past four years, and 75 cents a day is above the average. The men were not allowed to work this morning, fixed up their tools, and took their tools, and say they will remain out until the operators concede their demands. All kinds of business in the city will be more or less demoralized.

The calling of a general strike has caused much talk among the operators of the mines at Brazil, Ind. There is no organization there, and official information cannot be secured. The leading miners believe the workmen there will join in the strike, notwithstanding they are in a destitute condition and uncertain as to stand a strike. A mass meeting is called for today, and the state president of the United Mine Workers is expected to be present. At Terre Haute, Ind., President Knight, of District No. 11, United Mine Workers of America, officially condemns the news of a miners' strike. He estimates, however, the number of men who will be involved is about 100,000. Mr. Knight says the object of the strike is to clear out the markets and enable the operators to pay living wages to their men. He declares it is not a war on operators, and the miners do not regard it. They admit, according to Mr. Knight, that the operators are not responsible for the present aggravated condition of affairs, but are, like the men they employ, the victims of overproduction and under consumption. Mr. Knight says that while the miners may not be especially hopeful as to the outcome of the strike, they feel sure they have nothing to lose and trust they may gain something. It is believed the block coal miners will also join the strike.

A special from Birmingham, Ala., states that the miners at Brookside, Brazil, Cardiff, Blossburg, Blount, Adger, Johns and Sumter coal mines are idle, having refused to accept a reduction. Three hundred coke ovens at Johns have been shut down and notice given that work is indefinitely postponed. In Birmingham and Gate City two rolling mills have closed awaiting the signing of the scale of the Amalgamated Association of Iron and Steel Workers.
