The Third Successive Victory For Her Peerless Oarsmen.

BEAT COLUMBIA BY 11 LENGTHS

looks forward to Passing the Second Mile Mark-The Result a Discouragement for Those Who Had Hoped For Becord Breaking

Poughkeepsie, N. Y., July 3 .- The second 'varsity race upon the four mile course, between eight oared crews from Cornell, Columbia and Pennsylvania, was a fixile and a procession. Cornell does it profit a won, with Columbia second, about 11% man to heap up riches if in doing so he ruins his health and his capacity for the ruins foundered just after passing the two mile mark. The official time: Cornell, 20 minutes, 47 4-5 seconds; Cornell, 20 minutes, 47 4-5 seconds; Cornell, First mile, 5,042-5; second mile, 10.51; third mile, 15.46; fourth mile, 20.47 4-5. mile, 20.47 4-5.

All of the expectations of those lovers of American sports that by establishing new records Pennsylvania and Columbia would be entitled to demand admission into what promises to be an intercollegiate rowing combination of three colleges-Vale, Harvard and Cor-nell-have been rudely shattered. The contest on the Hudson yesterday afternoon, which had been heralded as promising a close and exciting fluish, and which each college coach declared would be a record breaking contest, turned out to be the merest sort of a procession and an apology for a race. Crew. The lightest crow on the fiver and the one less likely to be able to stand the swells caused by the wind blowing against the lide came out of the contest an easy winner, and only 'varsity race with all the conditions in her favor. The heaviest crew in the race yesterday, Pennsylvania, found its boat washed full of water before the second mile was reached, and after passing that point was compelled to repassing that point was compelled to re-tire from the contest. The next heaviest crow, Columbia, brayely heralded as a rough water crew, was so fuarful of results from the same cause that it

lost many lengths steering inshore.
In some respects the contest was pitiful. Cornell, the winner of the two previous contests, the victors over Yals For sale in Shenandoah, Pa., at A. Wasley's that Pennsylvania and Columbia would put up a harder fight than her conten-tants in the other races. On the contrary, the Cornell crew rowed over the course in the easiest kind of a fashion. only hitting up the stroke in the last three-quarters of a mile in an evident endeavor to make fair time. Columbia struggled on in the rear, losing length by length, while rowing a much quicker stroke than Cornell, and finally, after crossing the line, her crew found themselves almost incapable of any further work.

When the Cornell crew had crossed the finish line they lay on their oars a few minutes until Coach Courtney came along with the launch and offered to take the boys ashore. They laughed at him and started up the river. They turned around at the bridge, a mile and a quarter up, and went over to their boathouse, another half mile, rowing a 33 stroke, and with the same rythm which marked the race, It was a phe-nomenal exhibition of the lasting powers of this most wonderful crew that has ever rowed in American

There was really no race to describe at least not after the second mile. During the first three-quarters of a mile the contest was rather pretty. Pennsylvania took the water first with owing, and Cornell hanging to the rear. At the quarter of a mile Penn-sylvania had a lead of half a length over Columbia, and Columbia was half length ahead Cornell. At the mile Pennsylvania was rowing a 34 and Commbia a 33, while Cornell, with her 52 stroke, was decreasing the lead. At the three-quarters of a mile Pennsylvania had three-quarters of a length still over Cornell, who had pulled on beyond Columbia for about haif a

length.
It was here that the trouble seemed to begin in the Pennsylvania boat. Just prior to the starting of the race the steamer Tremper, of the Albany and Newburgh line, came down the river as the boats were lined up, and although warned by the referes and the police boats would not stop. The swells that she made were blown back. by the south wind, and the local ref-sees, Harris S. Reynolds, started the crews while the swells were running, though Coach Ward, of Pennsylvania, protested against starting. When Ges-sh nell's boat, on the outside, hit them they were long swells, and the sharp hoat cut them in two, opnyerting them into a choppy sea, so that when they hit Pennsylvania's shell they awashed

OPPOSITION TO THE PROPOSAL.

If Suggested the Proposal Might He Defented in the Senate, Though It. Lower House of Congress,

Washington, July 3.-The question special message to congress recommending the creation of a currency commission will be definitely decided nact week. The president is strongly inclined at this time to senid a special currency message to congress, regarding binself as in a considerable measure pledged to this course in fact it was semi-officially announced at the White House late yesterday afternoon that such a message would be sent to congress next week, but some of his most influential advisers on financial questions are opposed to a message as ampolitic at this time, owing to hostility to a commission on the part of congress.

The executive committee of the Indianapoits sound money convention have been actively advocating the commission scheme ever since the advent of the present administration. It had also committed himself to it in his inaugurat. President McKinley, however, ed. on the sympathy of the president, who committed himself to it in his inaugurat. While a bill for the creation of a commission could easily be passed in the house, where factious opposition would be unavailing against the operation of a cloture order that would bring it to a vote, such opposition in the senate might be almost interminable. Several of the silver senators have openly avowed their unalterable hostility to the creation of a commis sion, and Senator Teller, of Colorado, has declared that he would remain here until December to defeat it.

This being the situation, it is under stood that some of the members of the executive committee of the Indianapolls convention are now inclined to be-lieve that it would perhaps be a mistake to press their request for the creation of a commission by congress. The better and wiser thing to do, some of them now think, would be to withdraw their request for a commission and to use the provisional power vest ed in the committee of the Indiana polls convention and themselves select a committee to investigate the our Trains leave Shenandosh as follows:
