Evening Herald

WEDNESDAY, JULY 7, 1897.

Crops generally are in a most promising condition. A country blessed with three abundant crops in succession is no place for croakers.

The political battle this fall is only a skirmish line. The one a year hence, with Congressional and Legislative candidates in the field, will be a hammer.

The latest Brooklyn bridge jumper succeeded in jumping to death. We know of some Schuylkill county "statesmen" who, politically speaking, are on a fair road to reach the same result.

It is said the Mahony Plane post office has been promised to three different parties by the ex-Senator. This is one way—but not a very "promising" one—to make votes for state delegate.

As all important question just now, will the salary remain at ten dollars a week, or will the school plum drop in the locality in question? It will reach a final settlement to-night, at the Board meeting.

The future rulers of Great Britain, Germany, Russia, Greece and Rumania will be descendant of Queen Victoria, and there is a large reserve for contingencies in her seventy grandchildren and great-grandchildren.

The proprietor of a large New York dry goods store says: "The women are the buyers, and I believe that most of them care more for the advertisements than for the news." It would be nearer the mark to say that many of them look on the advertisements as news—as a good advertisement always is.

In the death of R. A. Glover, which occurred this morning, Shenandoah loses one of its most prominent and influential citizens—a loss we can ill afford at this time. Identified with every movement tending to advance the interests of the town and its people, he made a most exemplary citizen.

THE HERALD has made arrangements with one of the most versatile political writers in the county, whereby our readers will be furnished with a budget of news from the county seat, detailing the doings of the politicians of both parties. The campaign is becoming interesting, and the skirmish lines just prior to the conventions, and HERALD readers will be kept posted on these matters.

The School Board will hold a regular meeting this evening. It is probable—if the Democratic members can agree upon a "slate"—that the annual election of teachers will take place and that a number of heads will drop in the basket to satisfy the craving for revenge on the part of one or two of the majority party, regardless of the best interests of the schools.

THE North American, in calling attention to the fact that every member in the Pennsylvania delegation at Washington will seek re-nomination, has this to say of our Congressman: "If Mr. Brumm, of the Thirtieth, can capture a re-nomination he has only one Democrat to fear. His name is James B. Reilly, the present Marshal of the Eastern district. He is the only man who has ever been able to defeat Mr. Brumm, and then only occasionally."

WHAT IS known as the "Polish Avenging Association" has been unearthed at Wilkesbarre. The existence of the association was made known at a hearing before an alderman, in which a prosecutor said he was afraid to push cases because his life had been threatened by the avengers. He then pointed out Benkovitch, who was held and placed in jail in default of \$800 bail. Some sensational developments are expected when the case comes to trial.

MR. WILFRED LAURIER, Prime Minister of Canada, says the Philadelphia Star, assumes without evil or doubt that Americans love England. In one sense that is true, but can it be said that we regard the mother country, as he is pleased to term Great Britain, with affection and reverence? That is saying a great deal. As long as England behaves herself it will be the policy, as it will be the natural disposition of the Americans, to keep on good terms with her, but if she should deem it proper to deport in an unseemly manner or take liberties not in accordance with our conceptions, it will be found that our "affection and reverence" would not in any sense interfere with our saying to her: "Shiny on your own side, or take the consequences." International love is rarely more than skin deep. However cordial may be the relations that

HAD TEN YEARS OF IT

And Then the Right Thing in the Right Place Alters the Condition of a Bloomsburg Lady.

Mrs. E. A. Ross, of 7th street in Bloomsburg, Pa. For ten years she has suffered from kidney disorders. Many things she has tried, looking for relief and cure. At last her efforts were rewarded. The little enemies to kidney disease have conquered the distressing lockache, the stomach ailments, the headaches, the faints, the aches that follow where the kidneys fail to perform the work designed for them by nature. This is what she says: "The symptoms described for kidney complaint were mine to a dot. I had pains sharp and piercing, was down low in the back; I suffered from headaches that were terrible in severity; I had some stomach disorder; the urine was highly colored and came too frequently; I was much weaker after doing any kind of heavy work that required the use of or taxed my back, such as cleaning house, etc.; but this year I cleaned house alone and never felt the least bit of inconvenience; I thank to Doan's Kidney Pills. Colds affected me and I grew nervous and weak; I have been so bad I would try anything to relieve the pain. I began taking Doan's Kidney Pills, and only used them two or three days when I began to notice they were doing me good; an aching noise I am glad to say I feel perfectly well. I earnestly recommend Doan's Kidney Pills to all sufferers with a pain in the small of the back. What more can you ask than testimony like this? Plain, truthful endorsement is what the proprietors of Doan's Kidney Pills are placing before the public and no medicine of modern times can produce such testimony as that which is being published about the little kidney cures."

Doan's Kidney Pills are sold by all dealers. Price 50 cents per box, or 6 boxes for \$2.50. Sent by mail on receipt of price. Foster-McMillan Co., sole agents for the U. S., Buffalo, N. Y.

Denise Forging a Senator's Name.
Washington, July 7.—S. P. Williams, a young man whose home is in Littleport, N. D., but who formerly held a clerkship in the treasury department in this city, was arrested yesterday on a charge of forging the name of Senator William E. Mason, of Illinois, to an application to the Pennsylvania railroad company for two round trip passes from Washington to New York city. Williams protests his innocence. "The police say they caught Williams by means of a devious letter."

Fatally Struck by His Brother.
Mr. Holly, N. J., July 7.—Henry Lemmon, who was recently discharged from state prison, fatally stabbed his brother Charles Monday night at Medford. The latter had stolen the affections of his best girl during Henry's sojourn in prison. When the men met a quarrel ensued, during which Henry drew a knife and stabbed his brother seven times about the body, and then fled. He has not yet been recaptured. The injured man cannot recover, as any one of the wounds is sufficient to cause death.

Persons Leaving Town.
During the summer can have the HERALD mailed to them by ordering it at this office, either in person or by letter, at 25 cents per month. If you are going to enjoy yourself among the cool breezes of the sea shore or some mountain retreat, don't forget that your enjoyment will not be complete unless you have the HERALD sent to you.

Vin, vigor and victory—these are the characteristics of De Witt's Little Early Risers, the famous little pills for constipation, biliousness and all stomach and liver troubles. C. H. Hagenbuch.

The Weather.
For District of Columbia, eastern Pennsylvania, Maryland and Virginia: Generally fair; continued high temperature; variable winds. For New Jersey and Delaware: Showers on the immediate coast; variable winds.

"Leave me One Minute," said the public speaker in a hasty voice; and then he took a dose of De Witt's Little Early Risers, proceeded with his oratory, and the minute cough cure is unequalled for throat and lung troubles. C. H. Hagenbuch.

Eighty-Seven More Arrests.
Detroit, July 7.—Proprietors of the 25 breweries in Detroit are each planning to sell out to a syndicate composed chiefly of English capitalists. The considerations are to be cash and stock and bonds of the new corporation. Nearly all the brewers have signed an agreement for the above purpose. A result of the combination will be a rise in the price of beer from 41 and 45 per barrel to 48.

Three Trains Killed.
Woodville, N. H., July 7.—A freight train on the White Mountain division of the Boston & Maine railroad was wrecked by a washout at a point four miles north of this station. Three men were killed and the engine and three cars were badly wrecked. The dead are: Patrick Lennon, engineer; Bert Pophies, fireman; and O. K. Lange, brakeman.

Hot Weather Dyspepsia.
Thousands Suffer From It at This Season of the Year.
Hot weather dyspepsia may be recognized by the following symptoms: Depression of spirits, heaviness and pain in the stomach after meals, loss of flesh and appetite, no desire for food, bad taste in the mouth, especially in the morning, wind in stomach and bowels, irritable disposition, nervous weakness, weariness, costiveness, headache, palpitation, heartburn. It is a mistake to treat such troubles with "tonics," "blood purifiers," "cathartics," "pills," because the whole trouble is in the stomach. It is indigestion or dyspepsia and nothing else.

All these symptoms rapidly disappear when the stomach is relieved, strengthened, and cleansed by Stuart's Dyspepsia Tablets. They should be taken after meals and a few carried in the pocket to be used whenever any pain or distress is felt in the stomach. They are prepared only for stomach troubles.

Stuart's Dyspepsia Tablets are endorsed by such physicians as Dr. Harlandson, Dr. Jeunson, and Dr. Mayor, because they contain the natural digestive acids and fruit essences which when taken into the stomach cause the prompt digestion of the food before it has time to ferment and sour, which is the cause of the mischief.

Stuart's Dyspepsia Tablets are pleasant to take and unequalled for invalids, children and every person afflicted with imperfect digestion. It is safe to say they will cure any form of stomach trouble except cancer of the stomach.

Nearly all druggists sell Stuart's Dyspepsia Tablets, full sized packages at 50 cents. A book on stomach troubles and thousands of testimonials sent free by addressing Stuart & Co., Marshall, Mich.

CROP CONDITIONS.

A Very Favorable Report From the Weather Bureau.
Washington, July 7.—The weather bureau, in its report of crop conditions for the week ending July 5, says: "In the states of the central valleys, lake region and New England the week ending July 5 has been very favorable to crops, the high temperatures being especially favorable to corn. In the southern states the conditions have been less favorable, the excessive heat and absence of rainfall proving injurious to most crops. On the Pacific coast the weather has been most favorable. In the principal corn states of the central valleys corn has made rapid growth, but in the southern states it is suffering for rain. In some sections autumnity. Excessive rains in Missouri have retarded cultivation, and the crop is still backward in Minnesota. In Texas, while the late corn is suffering from drought, the early planted is matured and a good yield assured."

Corn is growing rapidly over the greater part of the cotton belt, more particularly the southern portions. The crop is, however, generally clean and fruiting well. A marked improvement is reported from Oklahoma, and it is doing well in Missouri, Tennessee, North Carolina and portions of Florida. In southern Texas fields are beginning to open.

The bulk of the winter wheat crop is now harvested south of the 40th parallel—about the latitude of the central portions of Indiana, Ohio and Illinois. Excessive rains have retarded harvesting in Missouri, and caused further damage to grain in shock. Good progress with harvesting has been made in Nebraska and northern Indiana, and harvesting will soon begin in Michigan.

Spring wheat has continued to make favorable progress, and is now heading well over the southern portion of the spring wheat region. In Oregon the best crop for years is promised.

Tobacco has continued to improve generally, but is still in poor condition in Kentucky. A marked improvement is reported in Ohio, and the crop is doing well in Missouri, Pennsylvania and Maryland.

How to Find Out.
Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.
There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It cures inability to hold urine and swelling pain in passing it, or bad effects of use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention EVENING HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Another New York Harbor Mystery.
New York, July 7.—The drifting of a woman's life drifting with the tide in the East River at the foot of Ninety-eighth street, on July 1, did not attract any particular attention on the part of the police. The limb was inclosed in a black stocking, and had on a red garter. It was in a badly decomposed state and appeared to have been disconnected at the knee. Yesterday another female leg, also encased in a black stocking, and having a buttoned fly case covering the foot, was picked up in the bay, near the Narrows, and turned over to the Fort Hamilton police. The finding of the legs has attracted the attention of some one who is making a secret investigation into the mystery, for last night A. J. Benterich, a Greek sculptor, with two of his assistants, called at the morgue and made a plaster cast of the limb found on July 1.

If it required an annual outlay of \$100.00 to insure a family against any serious consequences from an attack of bowel complaint during the year there are many who would feel it their duty to pay it; that they could not afford to risk their lives, and those of their family for such an amount. Any one can get this insurance for 25 cents, that being the price of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. In almost every neighborhood some one has died from an attack of bowel complaint before medicine could be procured or a physician summoned. One or two doses of this remedy will cure any ordinary case. It never fails. Can you afford to take the risk for so small an amount. For sale by Graham Bros., druggists.

Alleged Counterfeiters Arrested.
New York, July 7.—The United States secret service agents made four more arrests yesterday in connection with the counterfeiting of about \$500,000 worth of Costa Rican bank notes. The prisoners are Louis Housman, Mrs. Betty Chesnut, Fred M. and Mrs. Herman Dohn. The alleged counterfeiters were held in \$2,000 bail each for examination tomorrow. It is understood that the arrests were made at the request of the Costa Rican authorities in Washington. Dohn, who is a lithographer, is believed to have printed the counterfeit bills at his place of business.

Don't nauseate your stomach with tea and bitter herbs, but regulate your liver and cleanse your blood by using those famous Little Pills known as De Witt's Little Early Risers. C. H. Hagenbuch.

Bottled Up.

Whether in the form of pill powder or liquid, the doctor's prescription for blood diseases is always the same—mercury or potash. These drugs bottle up the poison and dry it up in the system, but they also dry up the marrow in the bones at the same time. The suppleness and elasticity of the joints give way to a stiffness, theacking pains of rheumatism. The form gradually bends, the bones ache, while decrepitude and helplessness prematurely take possession of the body, and it is but a short step to a pair of crutches. Then comes falling of the hair and decay of the bones, a condition truly horrible.

Contagious Blood Poison—the curse of mankind—is the most horrible of all diseases, and has always baffled the doctors. Their potash and mercury bottle up the poison, but it always breaks forth again attacking some delicate organ, frequently the month and throat, filling them with eating sores. S.S.S. is the only known cure for this disease. It is guaranteed to cure purely vegetable, and one thousand dollars reward offered for proof to the contrary. It never fails to cure Contagious Blood Poison, Scrofula, Eczema, Rheumatism, Cancer, or any other disease of the blood. If you have a blood disease, take a remedy which will not injure you. De Witt's S.S.S. don't do violence to your system. Don't get bottled up! Our books sent free to any address. Swift Specific Co., Atlanta, Ga.

NEW YORK'S HOT WAVE.

The Thermometer Climbs to 102 Degrees in the Metropolitan.
New York, July 7.—A warm wave, which is said to be due to a combination of an area of low pressure to the north and a high pressure area to the south, struck this city yesterday, and at noon the thermometer on the street level registered 102 degrees, while the humidity recorded was 91 per cent. As the result of this intense heat, there were three deaths and eleven prostrations. Toward evening, however, the sky became overcast, and there was a fall of 12 degrees between 5 and 10 p. m.

This drop, however, was in the thermometer at the weather bureau, where it registered 88 degs. at 5 o'clock, and at 10 o'clock 75, while at 3 o'clock on the street in the neighborhood of the city hall, it registered 83 degs.

The fatal prostrations from the heat reported by the police were as follows: Maggie Ebb, 60 years old, a nurse, residing in Brooklyn, who was overcome by the heat on Avenue C; Raymond McTiernan, aged 45, was overcome by the heat, fell from a fifth story window and was killed; William Smith, keeper of the morgue at the city hospital on Blackwell's Island, died in Central park of heart failure induced by the heat.

It beats everything except a broken heart, may be said of De Witt's Witch Hazel Salve, Piles and rectal diseases, cuts, burns, bruises, bites, rashes and all skin troubles may be cured by it quickly and permanently. C. H. Hagenbuch.

Dr. Lutz's Sentence Reversed.
Baltimore, July 7.—The sentence of Dr. Joseph J. Lutz, the Cuban patriot, has been reduced by United States Judge Morris from eighteen months to one year in jail. Dr. Lutz was convicted last March of conspiring to set on foot a Cuban filibuster expedition.

Dr. Lutz is about 50 years old and a native of Cuba, although now a naturalized citizen of the United States. For some years he has been a practicing physician in New York.

Dr. Miles' Nervine Triumphs.

Excessive Nervousness from Childhood. La Gripe Brings on Heart Weakness.

REY, B. R. REAREY, pastor M. E. church, Washington, D. C., writes Dec. 10, 1895: "In childhood I was afflicted with excessive nervousness, which, almost developed into St. Vitus' dance. I partially recovered, but at sixteen it gradually grew worse. Close study aggravated the trouble; any unusual exertion caused tremulousness. In 1881 I had a severe attack of La Gripe which brought on heart weakness. I had been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Nervine and Liver Pills and since then I have been studying more and working harder than for years and the good effects that have resulted seem to be permanent."
