TAKEN TO THE HOSPITAL.

A Wound From a Busty spike Results Sertousty.

George Meyers, of West Line street, was removed to the Miners' hospital yesterday. On the 30th of last menth, while climbing a ladder in the Knickerbocker colliery, Meyers atepped on a rusty spike which broke off in the sole of his foot. Dr. W. N. Stein extracted the piece of spike, which measured it inches long. The wound was a sarious one and the patient was threatened with lockjaw. Dr. G. M. Hamilton was also called into the case, but it was finally decided to send the patient to the hospital. Dr. J. C. Biddle, the surgeon-in-chief at the institution, stated to-day that Meyers was in fair condistated to-day that Meyers was in fair condi-tion and an operation on the foot had been decided upon. statement that he would retire from public life at the close of his term, said he was not making an official announcement that he would not be a candidate for re-election, but unless he changed his mind he would not

remain longer in the Senate.

Asked about the rumor at Washington last evening Senator Quay replied: "I have not said and I will not say that I will not be a candidate for re-election. I said that I did not feel like it now, but it is a long time before I shall have to face the question in a practical way."

Associates of the Senafor recall that he as frequently wished himself out of pub life when depressed by poor health or a particularly trying situation. He has, however, always changed his mind when he felt better They agree that after the European trip, which he is expected to take for a complete rest from politics and business, he will be as well as ever and will probably consent to let his name be used again for re-election. Senator Quay is not yet 64 years old, and it is believed that a good rest will restore him to his old-time forn

Tax Upon Allens.

The County Commissioners are in receipt of a letter from James E. Barrett, Deputy Secretary of the Commonwealth, with reference to tax upon aliens. The state does not derive any benefit from this tax, as one-half of it goes to the schools of the county, the other to the counties themselves. "It is our intention, however," comtinues Mr. Barrett, "to prepare a form in conformity with the act and furnish it to the Commissioners of each county. This will be done within the next two or three weeks, which will be soon enough for all practical purposes." When these blanks ceach the Commissioners' office, it is likely copies of the same will be sent to parties employing such labor. Off For the Encampment.

Pittsburg, July 9.—I) is sufe to say that the amount of coal dug yesterday on the Wheeling division of the Baltimore and Ohio railroad would not fill one flat car. Such a complete shutdown as exists in this district so soon after the inauguration of the strike is admittedly a surprise to those living in that section. A number of miners were at work Wednesday, the majority of them in the pits of the Pittsburg and Chicago Gas Chal company, at Snow-den and Gastonville, but yesterday it is doubtful if the diggers at work alons the whole line would number 50, all of these at the Gastonville pit of the careful review of the situation proves the ossertion of the miners' officials that he Wheeling division is solidly adabove Finleyville-Anderson, Germania, Hackett, Ecilpse and Nottingham-are completely fied up. Five cars were loaded at the Germania Wednesday, but it was with coal which had been lying on the dump since work was susconded last Friday. The Coal bluff mine of the J. M. Ris-

kor company, employing 150 men, was entirely idle yesterday. The big first pool mines of the Hobbins company were completely closed. The miners' officials were elated over

their success on the Wheeling division. The mines in that section have with little worry, for much coal for the Ohio Pennsylvania trade could have been shipped out ofthere had the miners remained at work, and it would have very seriously interfered with the gen eral suspension. It is reported that the operators on this division have ad vertised for men to fill the places of the strikers. If this is true, and an attempt is made to resume with non union men, it is feared there will be serioue trouble. It is not likely, however, that a sufficient number can be gotten together to start the

The miners on the Wheeling diffusion apparently have no fear in regard to the length of the strike. A large num-ber of them were asked how long the strikers could stand without suffering from want. One and all were firm in the belief that all could "scratch along" for several weeks all right. "Well," re-plied a digger in answer to a question, 'the man who owns the pit I work in said once, when we had some trouble with him and went out, that the miners could live on weeds in the summe and I guess we can. Any way, we are willing to try for a right smart spell. About one-third of the full quota o diggers were at work at the Pan Han-dle mines of M. A. Hanna & Co. This

is an increase over Wednesday, and to due to the fact that the firm posted a notice to the effect that if the men not return to work yesterday the mone due them on their ironelad contract would be retained. The amount, is i said, aggregates \$4,000. The net result of the struggle up to
