RACE WAR RECALLED

By an Altereation on West Coul Street Last Night.

Last evening as three Poles, two men and woman, were walking along West Coal treet they were met by three Italians. One of the latter, without my apparent provoca-tion, suddenly struck one of the Polish men in the face with such force as to knock him line the gutter. The victim regained his ware Struggle fit of the miners. Previous to adjournfeet and picked up a piece of rock to hurl it at his assultant, but the woman prevented bim from doing so. The Italian had meantime whipped out a kuife and was ready for an encounter, but the woman's interference prevented it and nothing further resulted. The incident is sig-uificant in view of the fact that it took place near the scene of the rist of about two years ago, when several Italians shot and stabled three Poles, two men and a woman, and the latter and one of the men died. The Italians were acquitted of murder on a claim of self efense, but convicted of assault and battery

NARROW ESCAPE.

A Young Man Falls From an Excursion Train.

George Harris, a young man 24 years of age and residing on West Libyd street, was among the people who attended the Columbia within one short week such an area of Hose Company's outing at Lakeing on Satur-day and had a narrow escape from being killed on the way to that place. When the train reached Mahanay Plane he alighted to give tickets to a person on one of the rear ears. The train started before he could get back to the ear from which he alighted. He succeeded in getting on the train again, but lost his hold and fell from the steps. Fortu-nately he fell clear of the whoels. He suffored severe bruises about the face and head and did not continue the trip to Lakeside. eturning to town and receiving attendance

THE MINERS' BIG STRIKE

Wage Siruggle.

DECISIVE MOVE CONTEMPLATED !

The Success That Has Attended the Movement Has Greatly Elated the Miners, and Every Effort Will be Made to Make tuspension Complete:

Pittsburg, July 12,-Yesterday marked the beginning of the second week of the coal miners' strike, and already it gives promise of being one of the great-est wage struggles in the history of this country. Nine days ago the coal operators in this district and the miners themselves little dreamed that general suspension could be wrought as now exists in the bituminous coul mining industry. Then the mouths of the many coal tipples that dot the Monongahela. Youghlogheny, Alte-Monongahela, Youghicgheny, Alte-gheny and Peter's Creek valleys and the valleys of Tom's and Miller's Run, were open and turning out thousands and thousands of tone of the best coal that enters into the competitive mar-kets of the world. Now all is changed. The vast caverns are like so many graveyards. On the hillsides, basking in the shade, there is an army of 18,000 unemployed, who are anxiously waiting for more to join the troops of idlers. On nearly every railroad track leading to the mines there stand empty cars, apparently anxious to be leaded. that their burdens may be carried to

the ports along the lakes. The success that has nitended the movement has greatly clated the minof people. In company with Guy Win-ters, and during the next few days ters, and 16, he went in swimming, every effort will be made to bring out Harian could not swim, got beyond his the men in the few mines that are still depth, but no one went to his rescue working. This will be a difficult task, because boys have been in the habit of but they express confidence in their shouting help "just for fun." There ability to make the suspension com-From the best information obtain-

was himself rescued only in the nick of time.

So many of them had stocks on rail-toad sldings which they hold for an advance. Much of this was disposed of Saturday at a good profit. One prominent said today that it would take another week to determine the exact state of the market, and by that

exact state of the market, and by that time a general cleaning up will have taken place. All interested will be ready to begin business on a new basis and probably at a higher price.

"This whole thing will result in a compromise," said another prominent operator. "The operators are in a position to stand it for some time, and I believe the miners are in about the I believe the miners are in about the same condition. It looks as if business will brighten up, and in that event the operators will be able to get better prices and the condition of business and the condition of the miner will be

Just now the greatest obstacle in are repeating what they did three years | the rescue. ago when a general suspension was de-clared. At that time there were a numher of operators in the mountain state that were on the verge of bankruptcy. The general suspension was declared, and there came a great demand for coal at prices that insured a big profit. The operators rallied around them a large number of men, whose friendship and support they have encouraged ever since. The operators profited by thousands and thousands of dollars, When the season had finished and the strike was declared off they balanced their books and found things on the right side of their ledgers. They realized that they owed much of their profit to their miners, and rewarded them for On every succeeding pay day the faithful miners were paid bonuses in the shape of gold pieces, and naturally the best of feeling prevails among the

employers and employe. This is the condition of affairs the organizers that will go into the West Virginia district this week will have to encounter. It is argued by the miners that there are more men out in that section than there were three years ago, and they express the greatest confidence in bringing them out if they can get their ears. This failing, the railroad organizations will be appealed to. This plan of campaign has been outlined by the national officers and the developments of the week will be watched with interest.

The miners' officials say that the suc cess of the movement depends on the action of the West Virginia miners. They argue that many men in the Pittsburg district who were not affi-liated with their organization sacrificed thousands of dollars and joined it. They will tell the mountain state diggers of the success in this district, and make every effort to have them join. There are a number of operators in the a willingness to pay the price demand-Great preparations are made by the Sona of Pittsburg district who have expressed They will insist that a majority of the Shamokin will be represented by a drum operators in the district pay the 60 cent corps and farty numbers, Mt. Carmei dity rate or none. This is the ultimatum of members and a band, and Mahanoy City, the nutional officials, from which there Tamaqua and other towns in Sanuyikiii is no appeal. It is known that some county will send delegations. Division Community W. B. Scott, of Milton, will be press tional officials, who desire to have all

At the United Labor league meeting 63 out of 72 tabor organizations were represented. Resolutions were unanimously adopted pledging financial and moral support to the miners and callarivania to aid and assist in every pes-

albie manner in furthering ore interests of the strikers. W. H. Carney, vice president of the Amalgamated association, and her. Winston Green, the colored preacher-miner, were appointed organizers and ordered to begin work at once. Six more organizers will be appointed this week.

The league also decided to send out a circular to all trades unions requesting fit of the miners. Previous to adjournment a lelegram was received from President Simon Burns, who is in Washington, pledging the financial and moral support of the Windaw Glass Workers' Association. Judge W. N. Owen, of Columbus; James Bishop, of Columbus, and Hon. John Little, of Xenia, O., members of the Ohio state board of arbitration, and L. P. McCor-mack and D. Frank Schmid, of Indianapolls, members of the Indiana Labo Commission, arrived in the city last evening. The members of the Illinois board of arbitration and statistical bureau of Pennsylvania are expected to day. The boards will meet in joint con forence, and, after hearing both sides, will endeavor to secure an amicable settlement of the differences between

the miners and operators.

The strikers at the mines of the Pittsburg and Chicago Coal company are greatly excited over a report that Owen Crouse was in that region and that an attempt would be made to resume work with imported men. Secretary Warner, of the United Mine Workers, said that if this was done, there would likely before the Traction line terminus was be trouble, and he feared there would reached the Cleusons met a friend and be a lynching.
