The growth of the protection sentiment in the South is a certain indication that the industries of that region are multiplying.

A Boston paper speaks of "the retirement" of Mr. Bryan. This must be a misprint, for none of the derivatives of the word retire fit the case.

A Boston man undertakes to teach journalism by mail, and it is not unlikely that the results will compare favorably with the journalistic misfit in Mahanoy City.

An itemized statement of the Legislative expense accounts, asked for by the governor, will cause much uneasiness among some of the Legislators, and their pause for reply will likely be so prolonged that the silence will be painful.

Governor Hastings is after those expense bills with a big stick, and will compel the chairman of the various committees and the Sergeant-at-Arms, to submit within a week detailed statements of salaries of employees and other expenses. Some of them will have a hard time explaining on paper these big expense accounts.

The unparalleled mendacity of Coyle in his effort to hoodwink Governor Hastings into signing his fake hospital scheme with the statement that he had the papers from the P. & R. C. & I. Co. giving him a site, when it is shown that he had nothing of the kind, shows to what straits he is reduced in his efforts to maintain his fast-waning grip on the politics of county. A more disreputable way of trying to work an appropriation through for political purposes has not been developed in recent years and meets with condemnation on all sides.

Whether intentional or not, the fact stands that the State Fishery Commissioners will have no money to expend for the next two years, the appropriation bill was intended to be made in favor of that department having been omitted from the Appropriation bill. This is a much more serious matter than many persons believe, as it will completely halt the operations of the committee, and in a large degree prevent the hatching of trout and other fry for next year's distribution. The work of the shad hatchery at Bristol will also have to be suspended, unless the Commissioners have something in the shape of a surplus fund, which is not at all probable. This omission may have been intentional, but the probabilities are that it was due to the haste and confusion always incident to the close of the session. It is that there is no way of remedying the error until the meeting of the next Legislature, which will not be until 1899.

Mistakes of Some Parents. There is no greater mistake than that made by so many parents in the rearing of their sons and daughters in what is termed elegant leisure, says the Philadelphia Star. We know of no more pitiable object than that of a young man who has never been taught to do anything that can be turned to advantage in the event of necessity requiring it. And yet there are many, very many, such helpless creatures in the world, who, if by any mischance are deprived of the support of their parents, or have not been the heirs of wealthy progenitors, are confronted with the simple but stern fact that their future dependence must be upon their own efforts. They may be of the self-reliant order, but of what avail is self-reliance when there is nothing upon which to rely? The wise parent, therefore, instead of rearing his boys and girls in what has been appropriately termed the fashionable do-nothing style, will see to it that both are trained up in the way they should go—that is, taught to do something useful, and to respect that something, as possibly absolutely essential to their future happiness.

Very much of the discomfort and unhappiness of matrimonial life nowadays can easily be traced to the fact that the modern wife during the days of her girlhood had not been taught the most important duties of housekeeping, and is therefore unable to take charge of servants and to direct how things should be done, in order to make her home cheerful and enticing to her husband, as would be the wisest way to direct the making of a fine watch or the building of a steamship. Teach your children how to be useful to themselves and others. If they do not in the course of their lives find use for such accomplishments, they will be none the worse off because of their possession of them.

FINANCE AND TRADE.

An Encouraging Outlook Despite the Great Miners' Strike. New York, July 17.—H. G. Dunn & Co.'s weekly review of trade says: Excepting the great coal miners' strike, which may terminate at any time, there is scarcely a feature of the business outlook which is not encouraging, the season considered. Crop prospects have been improved by a heavy rain in some regions, and foreign advances continue to promise a large demand. In many home industries, particularly in building, there is more activity than in any year since 1892, and the week has brought a better demand in boots and shoes and in woollens, while the movement of freight, mainly trunks, through the Sault Ste. Marie canal is the largest in its history. With money markets unclouded, there is nothing to sight to hinder rapid improvement when uncertainty about legislation has been removed, for the miners' strike could not last long if business and industries should become active.

Bradstreet's review says: The dullest month in the industrial year is duller than usual, notwithstanding improvement among pattern and other. This is due to the position in iron and steel, prices of which are back to lowest points on record, a dragging demand for boots and shoes, and a threatened famine of bituminous coal. There are more coal miners out than at this time last week, and notwithstanding assertions that the coal situation is not so bad as it is, the coal situation is not so bad as it is, the coal situation is not so bad as it is.

Manufacturers of cotton goods and their agents report trade slow, owing to higher cost cotton, but new prices for goods. This has shut down a number of cotton mills in Massachusetts and in Rhode Island. A fairly steady business is reported by eastern manufacturers of shoes, but this trade at Philadelphia is dull, merchants hesitating to place orders. Western wholesale dealers in clothing report distribution unsatisfactory.

There were 27 business failures reported throughout the United States this week, compared with 21 last week, 25 in the week a year ago, 21 in the week two years ago, 22 in the corresponding period of 1894, and as compared with 27 in the second week of July, 1893. In the Dominion of Can. C. there were 15 failures, compared with 12 last week, 11 the week a year ago, and 29 two years ago.

DR. THEEL 604 NORTH SIXTH ST. PHILADELPHIA, PA.

ONE OF TWO WAYS. The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases. CHIEF CAUSE. Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often by mistake attributed to female weakness or womb trouble of some kind. The error is easily made and may be easily corrected. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention EVENING HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

American Wolf Diamond Sculls. Hunley-in-Thames. July 17.—Ten Eyck, the American, won the final heat in the race for the diamond sculls yesterday, defeating Blackstaffe, the English sculler, by two lengths in a closely contested race. The American was never headed. There was only a solitary yell to encourage Ten Eyck, while there was a continuous roar of cheers from both banks for Blackstaffe. At the presentation of the prizes Captain Frank W. Allen, in presenting the diamonds and silver gilt paddles to Ten Eyck, said: "This, the most important prize of the Henley regatta, is now carried out of the country for the second time, it having once gone to Holland. I am sorry it has been won away from us, but we must just up with it and try to get it back."

"Scorchers" Cause Fatal Runaway. Chicago, July 16.—A "scorching" was responsible for the death of Mrs. M. A. Morton, who was instantly killed in a runaway Wednesday night. The scorching, with elevated and bent head, while bowling along at a rapid rate, collided with the horse driven by Mrs. Morton. The frightened animal became uncontrollable and dashed down the street, colliding with a lamp-post and throwing the unfortunate woman from the vehicle. She was instantly killed. She had been an invalid for years. The scorching was thrown from his wheel, but remained, and rode away before he could be apprehended. The horse was badly injured, and died in a few moments.
