A Man of Affairs, Who Has Long Been a Leader in Politics, and Whose Popularity Extends Beyond the Limits of His Town, Relates

An Experience.

Alderman GEORGE FRY, Allentown, Pa. It would be difficult to find a more popular city official than the gentleman whose portrait appears above. He has been so closely identified with all that relates to the well being of Allentown and Lehigh County, and been in public life so long that his numerous friends will be particularly interested in what he has to say. His neighbor, Mr. H. H. C. Smith, in commenting on Mr. Fry's case says: "It was pitiful to look at him, he was so nervous and wasted. He told me every day that he could not live long. I watched this case from day to day and noted the changes. The doctors could not help him, but since he began taking Dr. Miles' Nervine I never saw a man change so. He now looks better than he has in ten years. Everybody asks him what brought about the change and he answers, Dr. Miles' Nervine."

Mr. Fry sends us the following statement, dated May 11, 1895. "In June 1894, I was terribly afflicted with nervous rheumatism, which was particularly severe in the shoulders. Physicians said it was the result of La Grippe which I had in 1891. They claimed my spine was affected, and this would weaken my nerves. I took medicines from many doctors without relief. Last November I commenced taking Dr. Miles' Restorative Nervine and Nerve and Liver Pills. I took five bottles of the Nervine and several boxes of pills and the result is a perfect circ.
