The Two Most Prosperous Sections of the United States.

COPPER PRODUCTION.

Still as High as Before the Panic of 1803, While Stockholders Have Received Larger Profits-Heavy Forsigu Domand Koops Up Prices.

Houghton, Mich., July 21. - Reyond question the most prosperous sections of the United States, at the present time and for several years past, are the Butte, Mont., copper district and the Lake Superior copper district. Wages are as high as before the panic of 1893, with more mines working, more men employed, larger produciion, cheaper cost of producing and larger profils to the stockholders.

The principal, if not the sole, reason or the good times enjoyed by the cop-er districts is found in the enormous oreign demand for the product of the nines. Of the 1898 American production

over 60 per cent was exported, and for the first half of the current year the exports have exceeded 58 per cent of the output. The world's supply of visible copper continues alowly but stead-liy to decrease, being at present loss than 33,000 tons, although the American mines have increased their production steadily for a number of years past. The outlook for the copper producers could hardly be better, for with a gen-eral revival of business in this country the domestic demand will be greatly increased, and although the present price of the metal allows enormous profits, an enhanced demand will of necessity bring about higher prices, and larger profits than are now being

During the past 12 months larger dividends have been paid by the Lake Superior mines than ever before in the same period of time. The great Calument and Hecia, the richest mine in the world, led with dividends of \$40 per share, a total of \$4,000,000, followed by the Quincy with a round million of profits paid stockholders. The Tama-rack paid \$360,000, and the Osceola.

earned.

they work.

erature.

 Track paid \$386,000, and the Osceola, Kearsarge and Atlantic also paid handbornely.
 For the year 1896 the production of refined copper by Michigan mines amounted to 138,395,760 pounds, worth approximately \$15,000,000. This produc-tion was achieved by 17 mines, nine of which were in Houghton, one in Ke-weenaw and seven in Ontonagon county ty the Central mine of Keweenaw county contributing 469,243 pounds, or about one-third of one per cent. of the total production, while the groose output put of the seven Ontomagon county mines was lies than 120,000 pounds, and was all secured by "tributors," or miners who picked what copper could be found from the upper levels of abandoned mines.
 The Calumet and Hecla produced \$5,-Kearsarge and Atlantic also paid

The Calumet and Heela produced \$5,-552.756 pounds of refined copper, or nearly two-thirds of the entire produc-tion of the state. Of the refined copper

mining companies on this output will scarcely fail short of \$7,000,000, after labor has been paid the highest wages

Realthy fienh Penna. Railroad.

SCHUYKILL DIVISION. JULY 1, 1897.

FOR NEW YORK.

nearly two-thirds of the entire produc-tion of the state. Of the refined copper a trifle over 25,000 tons was smelted in the works of the Calumet and Heela at Black Rock, Buffalo, and something over 44,000 tons was refined at the smelters in this city. The 1897 output of copper by the lake district will probably reach or even ex-ceed 75,000 tons, and the profit to the mining companies on this output will

WASHINGTON AND THE SOUTH.

The Rocky mountains, wages from which the miners have saved sufficient to become themselves among the heavi-est stockholders of the mines in which they work.

They work. John Griffio, of Zanesville, O., says: 'T never lived a day for thirty years without infering agons, until a box of De Witt's Witch Hazel Saive cured my piles.'' For piles and rectal froubles, couls, bruises, witch Mazel Saive is unequalied. C. H. Hagenbuch. Death of Sir John Sociton.' London, July 21.—Sir John Skelton, the author known by the nom de plume of "Shirley." is dead. The late Ski John Skelton was born at Edinburgh in 1851, and was educated at St. And drews and Edinburgh university. He hut retired on account of the Scottand, which of the poor hay board for Scotland, which of the held from 1568 to 1991. Since 1894 he has served as vice president and chairman of the local government hoard (Scotland). After his retires

SCRANTON TALK THE BIG GAS TRUSTS.

About the Little Wonder-Worker. A Personal Interview of Interest.

Our representative called on Mrs. Elchard T. Roberts at No. 525 Thirteenth street, and her conversation as given below is but a sample of the Scranton talk that is going on about the little conquerer.

Mrs. Roberts I am told you have been a aufferer from kidney complaint, how long did you have it?"

'For ten years at least." "Can you tell what brought it on ?"

"I can't just my how it came, I first noticed a slight pain in the small of my back which gradually grew worse." "And of late years your trouble has in-

"Yes It was very had at times. I had a dull pain in the small of my back with an occasional pain in the abdomen and groin." "Was the bladder affected ?"

"Yes I thought so as during passage of urine an awful scalding and hurning sensation existed while there was a scremess in the abdomen as well."

"Was the passage of urine unnatural ?" "Indeed it was sometimes excessive and metimes scanty, if I caught cold I was always worse."

Were there any other symptoms ?" "My stomach constantly gave me trouble." "I understand you are cured ; what lms brought this about ?'

took Doan's Kidney Pills; they have curst my kidney complaint and the stomach trouble has disappeared as well. I have been relieved of my headache. I am truly happy to say I am entirely over it all now, and will always find it a pleasure to recommend Doan's Kidney Pills to all who are victims o kidney troubles." It is Said That E. C. Benedler Is Endeavoring to Obtain Practical Control of the Lighting of the Metropolls, but Mr. Bonedlet Denies It.

New York, July 21.-Today's Herald says: Notwithstanding vigorous pro-tests to the contrary, it is almost cer-tain that New York within the next four months will be the scene of a bitter fight between two great gas trusts. When the directors of the Equitable empany announced last Monday that they would not surrender their holdings on the terms proposed by the East River company the casual observer be lleved that it was a heavy blow at the proposition to organize gas trust num-

ber two. But the blow was more ap-parent than real, E. C. Benedict and his friends control the Equitable stock. He has been for some time anxious to form a combination in this city similar to the one that has given him practical control of the lighting of Chicago. He was very active in the preliminaries of the futile attempts at consolidation with the Consolidated company a few months ago. Though Mr. Benedict da-nics it, his friends insist that he has means of which the East River company will be absorbed into the Equita-, and then, they say, with this coalltion it is his purpose to go directly inte-the territory occupied by the Consoli-dated and Standard Gas companies and fight those corporations on their own around

tain control of the Equitable. Mr. Benedict declares positively that he has nothing to do with the an-nouncement by the Central Trust company. He says that there is no object to be gained by the Equitable joining with the East River. Other director of the Equitable say the same, yet it is positively known that propositions were made to the East River company by men who hold a very large portion of the stock of the Equitable, and that these men regard the proposed consoli

dation of interests with much more implacency than anger

The fact that Mr. Benedict is bringing on from Chicago two or three men who have made Chicago gas combination a success indicates that, notwith-standing the protests from the directors of the Equitable, that company will surely, and within a comparatively short time, join with the reorganize East River company and aid in the battle against the Consolluated.

What do the Children Drink?

Dont give them tes or coffee. Have yo ried the new food drink called Grain-O ? II is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about 1 as much. All greeers sell it, 15c. and 25c
