A distressing accident occurred at the Maple Hill colliery about 11:30 o'clock this morning. The victim is George Bernish, a miner residing at 214 North Main street, City. He had just fired a blast and was returning to realize its effects when a large piece of top coal loosened and fell upon him, pinning him to the ground, breaking his left ankle. One end of the lump struck him above the left eye, inflicting a wound several inches in length and almost forcing the eye out of the socket, and fracturing the nasal bone. His head was bent almost back to his heels, in which position he was compelled to endure the agony for some time until he could be extricated. A special meeting was held by the Borough Council last evening to consider a numerously signed petition from residents residing on the north side of Centre street, for the purpose of building a sewer for draining that portion of the street which is to be paved. For some time past Mine Foreman Palmer, of the Primrose colliery, has been busily engaged in making preparations to tap a large vein of water which was dammed back of a heavy brick wall in a tunnel running from the middle split to the top split of the Mammoth vein with a view of opening up a large section of the mine in the top split that was closed in and abandoned by the former owners some 14 years ago. At 6 o'clock last evening the task was completed and water flowed for the first time into the opening. The flow of the water is controlled at the end of this opening. When this portion of the work has been fully completed it is intended to proceed further in the direction of the old Glendon workings where there is another immense body of water to be tapped, and where mining will be renewed. This will add an immense territory to the present mining area.

REDUCED RATES TO THE SEASHORE.

Extremely Low-Rate Excursion via Pennsylvania Railroad.
No other coast can compare with that of Southern New Jersey in summer resorts. Atlantic City is the most popular seaside resort in America, and Cape May, Sea Side City, Ocean City, Avalon, Anglers, Wildwood and Holly Beach do not fall far short of Atlantic City's high standard.

The Pennsylvania Railroad Company has arranged for excursions to the seashore from Erie, Elmer, Bellefonte, Shenandoah, Danville and intermediate stations (including stations on branch roads), on August 3 and 19.

Excursion tickets, good for 10 days, will be sold at extremely low rates.
Passengers may, if they so desire, go to Atlantic City via the new Delaware River Bridge Route, the only all-rail line from points in Pennsylvania to Atlantic City.
For information in regard to rates, time of trains, etc., consult small bills or apply to nearest ticket agent.

Foreigners engaged because Superintendent William Block, of the Pennsylvania colliery, at Shamokin, would not give them positions at the expense of English-speaking labor, have sent him notice that he would be killed. The Copper District Overcrowded.

Houghton, Mich., July 22.—Several hundred miners from Ohio and Pennsylvania bituminous coal districts have reached here in the past few days in search of work, and report that those lands more are coming. Many Think!

When it was said to the woman: "In sorrow shalt thou bring forth children," that a perpetual curse was pronounced, but the thrill of joy felt by every Mother when she clasps to her heart her babe proves the contrary. True dangers lurk in the pathway of the Expectant Mother and should be avoided.
