THUBSDAY, JULY 28, 1897.

THAT "ToR of honor" has been thrown in the "pi" box.

ADVICES from Mahanoy City leads us to believe that an institute for the insame is budly needed there. Especially in and about the American offler.

A BUSHEL of wheat is worth nearly. twice as much as the bullion in a silver dollar. Prof. Coin's favorite economic theory, like his money, is Leen inhirod. subject to a discount of 50 per cent.

Two branches of New York's pneu-matic tube mail system will be opened in October. The time seems to be coming when the delivery of parcels throughout a large city will be per formed in a few minutes.

ALL the routes yet opened to the States territory, the trade comes to our merchants, and the gold to our mints. The Canadians will not find. It easy to reverse the current.

THE larger the percentage of the circulation of a paper that reaches the home, the greater the advertising value of the paper, and none has a more thorough home reading than Gintment, the sovereign remedy for all lightthe HERALD in Shenandoah, which new of the skin. is now the favorite paper of the better classes of our people.

FOREIGN orders received yesterday gave such an impulse to the wheat market as to cause an advance of one and a half cents per bushel. These early foreign orders Indiente very clearly that European crops have been at least partial failures, and that as the fact becomes daily more and more apparent, prices will still further advance, all of which will be far from discomforting to our farmers

GOVERNOR HASTINGS did not disappoint anybody in this section, outside of the American office, in his is peculiar to and true Bottle noy township "hospital." After veto rilla, and is proof of its superior strongth ing the appropriation for two other and economy. There is more curative paper hospitals, he could not con- power in a bottle of Bood's Sarsaparilla sistently attach his signature to the sistently attach his signature to the inequality attach his signature to the inequality so when this hospital has its existence only in the fertile brain of the owner of the American.

- SHENANDOAH, PENNA

This is as true as goapel. If ever there was a traitor to the Republican party in this district, he it is whose term as Senator practically expired at the close of the Legislative session It is only necessary to refer to his open hostility to the election of Joseph Wyatt, the regular Republican legislative candidate. The latter charged him with conniving with the Democratic nominee. Coyle adopted the same course against another nominee of the Republican party. Yes, the "political traitors must and will receive their just deserts" and Coyle will be one of the first.

THE Klondike gold excitement has brought into existence a number of exploration and gold mining companies which make enticing representations to induce people to subscribe for stock in their companies. One of these companies was investigated by the New York Herald, with the result that one of the chief promoters was shown to be a man under indictment an unsavory reputation. The incident sticuted be a warning to all investors | Pea Coal at - - \$1.80 per ton in Klondike ventures. Even with a company organized with honest and responsible men at the head of it. there may be a chance of failure. But with Irresponsible men running it, there is almost a certainty of loss.

NEWS from the grain producing states continues to be most encourage ing. A belegram from Nobraska says the Burlington Railroad has started all its shops running full time, and Mcluskey & Son, other lines in the state are doing the same in order to keep their box cars moving to handle the unprecedented large grop of wheat now about ready to go forward. The telegram adds that the domand for grain cars ex. FOR SHERIFF, ceeds all the hopes of the railroad men, and all foreign cars in the state have been seized by the Nebraska lines in direct violation of contracts with other lines, deeming the argency of the ocension such as to justify the proceeding. In fact all accounts from that state tend to show that rallway officials are much concerned over the movement of the abundant erops. Nebraska evidently can produce something the country wants more badly than it wants William J. Bryan. It is a question also whether the free silver heresy will not leave that state when the returns from the heavy crops reach the farmers.
