

"All the News That's Fit to Print."
Evening Herald

SATURDAY, JULY 31, 1907.

The Maryland Democrats have abandoned free silver; in fact, they have straddled the currency question, at the dictation of Gorman.

In deciding to admit citizens of the United States to full mining privileges Canada has simply followed the long established example of this country.

A CONTEMPORARY advises no "poor" man to go to Alaska unless he has a grub stake of at least \$1000. All such "poor" men will please rise and be counted.

FIFTY per cent. of the wholesale grocers in twenty-seven states say there is a marked improvement in business. Yet the "croakers" continue to growl.

A LARGE batch of Consols were named by the President on Thursday. Of the two credited to Pennsylvania, Schuykill's applicant is not named. This suspense is indeed awful.

THERE was a wholesale slaughtering of the expense bills by the Governor. The veto axe cut deep into items for sleeping berths, parlor cars, carriage hire, mileage and clerk hire.

AMERICAN manufacturers have just shipped six locomotives to South Africa and are building thirty for Japan. In making machinery of all kinds for transportation the United States is a recognized leader.

THE eastern boundary of Alaska, when determined, will probably run through some of the mining towns, leaving them partly in the United States and partly in Canada. In that case the Canadians will probably emigrate, as usual.

ONE of the best medical authorities on athletics says a century run on the bicycle is a foolish thing under the best conditions, while a double century run is "absolutely suicidal." But there are always some who are ready to destroy their whole stock of vitality in a sudden feat.

THE smart editors of Democratic free silver organs, who are trying to belittle the improved condition of business and make it appear that times are no better, should consult their commercial exchanges, such as Dun & Co. and Bradstreet's before writing their editorials.

SOMETHING must have broken loose in the bicycle market, or there would not have been such a sudden and remarkable slump in prices as has taken place during the past five or six weeks. Wheels that are claimed to be first-class are offered at about one-third the price demanded for that kind of wheel earlier in the season.

THE Senator from this district is between the devil and the deep blue sea. To nip in the bud the paper hospital was bad enough, but to add to his humiliation a deep cut in the "expense" account is surely adding insult to injury. The "handwriting upon the wall" is becoming more legible with each succeeding day, and "Friday" O'Donnell's labors are correspondingly increasing.

THE protracted reign of the Storm King being presumably over, brighter skies and cool breezes are with us, and there is a general impression that we shall have a continuance of this genial weather condition, but the weather prophets do not see the situation in that light. They tell us to look out for bright skies with a somewhat higher temperature, to be followed before many days with a hot wave that will make everybody long for the rainy season once more.

THE President before leaving Washington, in a discussion on politics, expressed himself as very well satisfied with the outlook for the fall elections. The administration has redeemed the pledge which the party made at St. Louis to restore production, and it is certain that at the next session of Congress the currency laws will be revised, and every other pledge of the Republican platform will be made good. The Republicans will undoubtedly gain strength because of the fact that reports from all sections of the country tend to show a wonderful revival in business.

TERENCE B. POWDERLY will be Commissioner of Immigration unless something unforeseen happens, for a year at least. In making Powderly's appointment one of the recess appointments the President placed him in control of the Immigration Bureau without the necessity of a confirmation by the Senate, and in a position where his fitness for the place will

hardly be questioned before the next session of the Senate. It is possible that the Senate when it does meet will not take up the case of the ex-Grand Master Workman and act on it finally until the close of the next session of Congress, and if this course is pursued, he will remain in office undisturbed until well into the summer of next year.

Revolution Fomented in Portugal. Lisbon, July 31.—The situation at Oporto is alarming. Ministers fear an attempt at revolution. The governor of the town has been dismissed and replaced by Augusto do Castilho, a naval officer.

Wish For Annexation. San Francisco, July 31.—Speaking of political affairs by the Sandwich Islands, Mr. Mills, the retiring consul general at Honolulu, had this to say of the situation: "Annexation is now regarded universally by the people of Hawaii as a certainty. The enthusiasm over the annexation movement is more intense now than it has ever been before, and almost everybody has an abiding faith in the happy result that they all wish for and anticipate. It is confidently expected that the whole matter will be settled when congress meets this fall."

King of Siam in England. London, July 31.—Chulalongkorn, king of Siam, arrived at Spithead yesterday in the Siamese royal yacht Maha Chakri, with the royal suite and a large retinue of servants. The British warships Inflexible, Alexandria, Calliope, Hero and Victory received him with the salute reserved for royal visitors. The Duke of York and Admiral Sir Nevill Salmon went on board the Maha Chakri and cordially welcomed him to England. All the shipping in the harbor was raptly dressed with bunting.

Cyclone in Illinois. San Jose, Ill., July 31.—A cyclone that swept over the Sandwich Islands of A. C. McDowell, two miles north, and his house and barn were entirely destroyed. Seven people were killed and three severely injured. The killed are: A. C. McDowell, McDowell's grandson, wife of Samuel Brown, Clara C. Brown's child, Miss Jessie Groves, Mrs. A. C. McDowell, her son, Charles, and daughter, Mary, are severely injured.

Fire on the Wilmington. Jacksonville, Fla., July 31.—A fire started in the coal bunker of the United States steamship Wilmington, in the aft starboard locker, several days after the vessel had left Savannah for this port. It was, however, extinguished as soon as discovered, and was considered of small importance, as no damage was done. A similar fire occurred some weeks ago in the same bunker.

ONE OF TWO WAYS.
The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.
Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb like the bladder, was created for one purpose, and if not destroyed, is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often by mistake attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy is now realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention EVENING HERALD and send your address to Dr. Kilmer & Co., Readland, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

NUGGETS OF NEWS.

Hanged on a Scaffold.
San Antonio, Tex., July 31.—Maximo Martinez was hanged at Floresville, in the Wilson county jail, yesterday afternoon, for a triple murder committed on June 8 last. He killed Juan Carillo and wife, an aged couple, and Juanita Acosta, 18, whom he first ravished. Martinez died without a struggle, and apparently with no fear. He said he wanted the girl to sleep with him, but that she objected because he was married, although he was separated from his wife.

Cereal Coffee Drinkers BEWARE!
If you have been deceived and tried one of the cheap bran substitutes now on the market, claiming to be the original and to have great food value, and you got a pound of poorly roasted bran for your 25c and a poor, weak, sickish drink (what can you expect from bran), don't be discouraged but try DR. O'SHEA'S Cereal Coffee. It is made from solid grain, nicely browned and 2 pounds for 25c. Grain-O takes the place of coffee at 1/4 the price. Get a package of your grocer today.

Over the Mountains.
Lancaster, July 31.—Edward Overly, a young farmer, of Providence township, has been waiting for several months and his case was a puzzle to the physicians. Yesterday Overly commenced to vomit, with extraordinary results. There were 24 larvae, ranging in size from two to three and a half inches long, many of them dead, 46 lizard eggs and many worms thrown from his stomach. The doctor will continue the treatment to dislodge any of the unwelcome tenants that may still be in Overly's stomach. On the farm on which the larvae resides is a large spring, from which he has been accustomed to drink for years by lying that he in that way swallowed the larvae or their eggs.

Don't nauseate your stomach with fens and bitter herbs, but regulate your liver and sick headache by using those famous little pills known as Dr. Witt's Little Early Risers. C. H. Hagenbuch.

THE SOCIAL DEMOCRACY.
Eugene V. Debs Defines Its Aims and Purposes.
Chicago, July 31.—The New Time of Monday will contain an article by Eugene V. Debs, in which he says:
"The social democracy is a general social, economic and political organization. It is at once national and international. Politically speaking, it is a party within and for itself, and within 12 months its national representatives will have formulated a national political platform. Similarly the various state platforms and municipal representatives local platforms.
"By far the greater part of the criticism has been directed against the 'colonization scheme' and there are those who still insist that this is all there is to the movement, or at least that this is its chief purpose."
"It is of these he said that the proposed colonization scheme is simply one of the features of the movement and has been assigned a special department known as the 'colonization department.'"
"There has never been any intention to organize in the colonies, and they who have worked themselves up in describing the fate of other 'colonies' and predicting calamity have been wasting their time."

Life Range Had no Success.
Williamport, Pa., July 31.—James C. Forman, married, aged 45 years, was instantly killed at the 'Twelfth' regulation rifle range yesterday. He was engaged in yielding berries at a point 250 yards back of the target, which had no backstop, and was in a stooping position. The ball passed through his head. W. G. Stair, John Bond and W. J. Davis, members of the rifle team that will represent Company D to the 200 yards, were practicing regular regimental matches, were practicing the target, neither could the guardsmen see Forman. It could not be determined which man fired the fatal shot.

EVER since I was eighteen years old until I learned of Dr. Miles' Restorative Remedies, I suffered from sick headache, extreme nervousness and dyspepsia. In time heart disease developed. I was treated by several doctors with no relief. Severe palpitation with pain in left breast, shortness of breath, and smothering spells made me most miserable. I procured Dr. Miles' Restorative Nervine and New Heart Cure and took them alternately as directed. Improvement began at once and increased so rapidly that inside of six months I increased thirty six pounds in weight. All pain in the heart is gone, and the nervousness has wholly left me.

A Child's Recovery
FROM PARALYSIS AND SIX YEARS OF CONVULSIONS.
Little Fannie Adams, of Umatilla, Cured of a Dreadful Malady
A Cure of Unusual Interest—A Reporter Investigates.

From the Lake Region, Baites, Va.
For some time past the Lake Region has been receiving reports from Umatilla, Fla., of an almost miraculous cure that had been effected in the case of Fannie Adams, a daughter of A. J. Adams, of that place, and last Saturday a representative of this paper made a trip to Umatilla for the purpose of determining the authenticity of the same.

The family live a short distance from the village, where it was found that the people were so much interested in the case that they were ready to receive the family in their new found happiness. The father, A. J. Adams, is a hard-working honest farmer from east Tennessee, and the family came to Florida four years ago in the hope that a change of climate would be of benefit to the afflicted child. Much of their earnings have gone for doctors' bills, whose services proved unavailing. The representative was greeted by Mrs. Adams from whom he gained the story of her great trial.

Fannie, the youngest child, was born in east Tennessee, and was seven years old on the third day of February, 1907. When ten months old she was stricken with paralysis, which affected the entire left side. This attack of paralysis was followed by convulsions, and from the time little Fannie was ten months old until February, 1907, there was not a single day or night that she did not have spasms of the most distressing nature. Not a single convulsion, but always three or four, and sometimes as high as ten in one day.

The family was all broken down with care, and Mrs. Adams states that for one year she did not get up from her bed. The right hand of the little girl was enlarged and misshapen, caused by her being thrown during the fatal convulsion. The case baffled the skill of the best physicians, and they were frank to say that they could not determine the cause, or prescribe a remedy to aid the afflicted child.

It was what a change now in the household for little Fannie has recently been released from her six years of agony, which brings the light of happiness to the faces of the parents. In January, this year, Mrs. Adams, who had purchased some of Dr. Williams' Pink Pills for Pale People for her fourteen year old daughter, determined to try their effect upon little Fannie. After three or four doses she noted an improvement and she then told the father what she had done. He at once went to the village and bought another box, and up to this time six boxes have been used. The first pills Mrs. Adams states were given in January, the latter part, and certainly not earlier than the fifteenth or twentieth, and the child had her last convulsion on February 23, nearly three months ago. Her general condition has improved in every way, and it was not a month after the first pills were taken when she began to walk without assistance.

The pills were bought at the drug store of Dr. Stielon, in Umatilla. In answer to the question, did he, to his personal knowledge, know that the remedy had benefited Fannie Adams, as was stated by her parents, the doctor said that he was a regular practicing physician, and he took very little interest in any proprietary medicine, but still he was ready to do justice to all men, and he did know that Dr. Williams' Pink Pills for Pale People had benefited Fannie Adams, and also volunteered the information that he knew of other children in the village who had been benefited by the pills.

REDUCED RATES TO THE SEASHORE.
Extremely Low-Rate Excursion via Pennsylvania Railroad.

No other coast can compare with that of Southern New Jersey in summer resorts. Atlantic City is the most popular seaside resort in America, and Cape May, Sea Isle City, Ocean City, Avalon, Anglen, Wildwood and Holly Beach do not fall far short of Atlantic City's high standard.

The Pennsylvania Railroad Company has arranged for excursions to the seashore from Erie, Forest, Bellefonte, Shenandoah, Danville and intermediate stations (including stations on branch roads), on August 5 and 19.

Excursion tickets, good for 10 days, will be sold at extremely low rates. Passengers may, if they so desire, go to Atlantic City via the new Delaware River Bridge Route, the only regular rail line from points in Pennsylvania to Atlantic City.

For information in regard to rates, time of trains, etc., consult local bills or apply to nearest ticket agent.

BUCKLEN'S ARNICA SALVE.
