the steamer Queen goes north. She will carry between 500 and 600 passengers. On the same date the steam barge Ajax will be towed to Dyen by a ing, loaded with stock. Aug. 8 the arties, will sail. On the same day the teamer Coquitian will sail from Vanouver. On Aug. 9 the Mexico leaves and on Aug. 12 the Topeka and Ro-salle, Aug. 17 the Alld, Aug. 22 the Queen, Aug. 23 the Mexico and Aug. the Topeks. Of these all will go through to Dyea save the Topeka, which will go no farther than Juneau

inless business justifies. John H. Smith, United States com missioner for Alaska,, writing from Juneau, says: 'There are 500 people now at Dyea waiting to get over the pass, and there are several more steamer loads on the way. The Indian packers and the pack animals have all the freight they can carry to the lakes by the time winter sets in, and hundreds of people will be camping at Dyea and on the lakes all winter cating the provisions they have taken with them. Prices for packing across the pass have risen to 25 and 27 cents per pound, and the packers are independent at that."

There is no truth in the report that the Northern Pacific company has re-fused to grant teave of absence to their employes. Railway officials say they have plenty of men to handle all their business. The street car companies, however, are having some trouble, as many of their employes have gone to the Klondike country.

Two Million Dollars For a Claim. Underwood, representing members of the New York stock exchange, has secured an option on the Klondike min-ing properties of Clarence J. Berry, the lucky Fresno man, who fately returned with his wife from the north. The price agreed on is said to be \$2,000,800, and the option is to hold good until time shall have been given for a thor-ough examination of the properties in volved. They include one entire claim on Eldorado creek, a haif interest in two others and a third interest in a fourth. It is the intention of Underwood and his associates, if they can buy out the men interested with Berry. to incorporate and work the Klondik claims by the most modern process.

Boundary of the Gold Fields. Washington, Aug. 5.—A careful ex-mination of all of the reliable charts amination of all of the reliable charts and maps made far enough back in date to be free from suspicion of influence of the recent heavy gold finds has convinced government officials that no far as the Klondike fields, as defined by the latest reports, are concerned, there can be no question but that they lie east of the one hundred and forty-first meridian which defines the boundary line, and so are within British territory by about 35 miles at least.

An Eloping Woman's Fortule. San Francisco, Aug. 5.—In 1849 a young Irlsh minister named Thomas Hogan and a woman supposed to be his wife settled in Calaveras county. Several years ago Hogan died, and the woman married John C. Scribner, of San Andreas. When Scribner died he left his widow in comfortable circumstances. She died recently, and her stances. She died recently, and her estate, valued at £30,000, was distributed Tuesday in Judge Coffey's court. By her will the bulk of II was left to her "nephews and neices, Elizabeth, George, Jane and Samuel Barnez, of Clafton, Yorkshire, England." It has been learned, however, that Mrs. Scribner with Hogon from England week. cloped with Hogan from England years her own children by legal marriage, but not wishing to raise the yell that had hidden her past from them, she described them in her will us her

EXPLODING NAPHTHA

In a Philadelphia Chemical Works Caused a Dangerous Fire.

FIFTEEN ARE SEVERELY BURNED

Phirteen of the Victims Firemen-The Walls of the Refining House Blown Out and Eighteen Thousand Gallons of the Oil in the Yard Explode.

Philadelphia Aog. 8 .- A naphtha ex-Carrett Manufacturing company, Frankford, yesterday, caused a dan-gerous and disastrous fire. Thirteen men and two employes were badly surned and scalded.

may assure herself of happy witchood, long life, love, and the great blessing of mother hood, who will take proper cate of her wo manly-self, and resort to the right remedy for weakness and disease of the delicate organs peculiar to her sex.

The best of all-known remedies for the special weaknesses and diseases from which women suffer is Dr. Pierce's Favorite Prescription. It acts directly and only on the organs that hear the bardens of mother-hood. It makes them strong and healthy. Taken during the expectant period it ban-lishes the usual discomforts and makes baby's advent casy and almost paniless. It insures a robust newcomer and an ample supply of natural nourishment. All good druggists self it.

"It is my heart's desire," writes Mrs. M. E. tolert Gettle and John Garrish, first deserved the danger from six large nuplitha targes in the room. Gettle I in two of them was holling to the abiling point and likely to explode. The men started for the door. Hardly had they reached it when the two tanks in rapid succession blew up, and the entire building containing them, a brick structure 100 feet long by 48 feet doep, was a mass of flames. Both were

The flames spread with fearful rapidlty, but notwithstanding the danger that threatened the entire block of druggists sell it.

"It is my heart's desire." writes Mrs. M. I Jimpson, F. O. Box 3t, Kinderhook, Columbi Ca. N. Y., "to tell you what Dr. Pierce's medicine has slone for me. Two years ago I was in yery laid state. I took mine bollies in all of you "Pavorite Prescription." I had been marrie five years and had not had any children. I no have a young son one year old. Pierce's medicines." wildings, the firemen believed that by herole exertions they might succeed in confining the more destructive blaze to the structure in which the explosion ok place. Fifteen fire companies were on the ground, and the firemen were stributed around the plant in such a way that their combined efforts would tached to the refining house were 180 barrels of naphtha, each containing 100 gallons, and it was their immediate ffort to prevent the flames from reach-

The walls had been blown out of the refining house, however, and the blasts of flame shot out in every direction. The fiery rivulets were rushing along the ground and licking around the barrels of explosive oil in the open space. It was not in human power to check this flood of liquid fire, and the fire-men heat a retreat. Many of them were unhappily too late. One after an-other the naphtha barrels blew up. Each explosion was like the discharge of a cannon. As the force accumulated

the barrels exploded in batteries.

Most of the firemen managed to escape, but many who had been in the storage yard among the barrels, and who were retreating from the pending explosions, were caught in the darting flames and struck by the flying from and stone and brick work that followed each explosion. Their companions carried them to places of safety and had them conveyed to the hospital. After the explosions had coased and the danger therefrom abated, the firemen succeeded in commining the fire to the immediate vicinity of the refining

The names of the burned and injured firemen are as follows: William Me-bade, Samuel Cook, Samuel White, Fred Hampshire, Aaron Knight, James Nevling, John Duffield, James Ridg-way, Charles D. Myers, Charles Miller, John Mair, Thomas O'Dair, Jacob Leonard. None are expected to die, but several may be disfigured by the burning oil. The loss is estimated at
