"All the News That's Fit to Print." Evening Herald THURSDAY, AUGUST 12, 1909.

THE American, with its 300 circulation, fails to reach our standard. Surely it has not suspended publication.

It is Coyle's frenzy lasts much longer. It will be in order to have a commission in lunacy appointed to put some restraint upon him.

BAR Silver sold in New York Tuesday for 55 cents an ounce. This reduces the value of the metal in a silver dollar to 42.9 cents.

WHEAT for delivery in September reached the highest recorded figure for the year, 86 3/4 cents per bushel, in New York on Tuesday.

There is nothing just as good as Dr. King's New Discovery for Consumption, Coughs and Colds, and it does not permit the dealer to sell you some substitute. He will not claim there is anything better, but in order to make more profit he may claim something else is just as good.

THE Republican voters of the Thirtieth Senatorial district have rendered their verdict, and they were in no way backward about it. They have no further use for back numbers.

NEXT year will witness one of the most interesting political campaigns yet recorded within Republican lines. Alliances are now being formed by a number of the leaders foreshadowing a spirited contest for control.

MR. HARRITY may not land in any other place, but he manages to keep pretty conspicuously installed in Pennsylvania politics, in spite of the efforts of some of his esteemed political contemporaries to relieve him of worry.

WHILE the President is apparently very far away from the seat of the government, he is actually within hailing distance all the while, by direct telegraph wire. There is little consolation, however, in this bit of news for the horde of office seekers.

THE somewhat startling news coming from Maryland that Senator Gorman has concluded not to be a candidate for re-election. It is needless to say that there is no likelihood whatever of this being the case, if he sees the remotest opportunity of securing another term.

THE man who control the National League of professional base ball clubs are seriously and wholly to blame for the deterioration of the national game through the rowdiness of the players, rowdiness being a spirit that rapidly communicates itself to surrounding crowds.

THE official report that 85 per cent. of the men in the navy are Americans by birth or naturalization is gratifying to national pride and, probably, a guarantee of national safety, so far as it goes. It is natural for men to fight better for their own country than for another, and, therefore, it is well that battle ships shall be manned by their own nationality.

AUSTRALIA, in the federal constitution which she has framed, has drawn largely on the experience of the United States. So, too, in some degree or other, has every country which has adopted a constitution in this century, and this means every country in the world, Switzerland included. The traces of the United States' fundamental law in the German Empire's constitution are necessarily comparatively few and faint, but some traces of it are there, nevertheless. France, of course, drew on the United States, too, but as France is a centralized state and not a federation she could not copy as much of the United States constitution as her Republican name would indicate. Switzerland in her present constitution has drawn more heavily than France on the great charter of the Philadelphia convention of 1787.

Another Proof. Another proof that business is reviving is the influx of Western and Southern merchants to the East to buy goods. The New York papers say that there are at least one thousand people in that city this week who have arrived there to make their fall purchases, they having taken advantage of the low railroad rates. The reports from the merchants of Philadelphia are to the effect that they, too, will have many of this class of Western and Southern buyers, because of the advantages they now get for the first time in several years. The Trades League has been doing excellent work in sending out letters and circulars to those who have been trading with our Eastern merchants, pointing out the advantages buyers now possess to replenish their stocks of goods.

The reports from all over the country are encouraging. The crops have been plentiful, prices obtained for them are greater than for several years; the iron industry is flourishing; as is indeed every other branch of manufactures. In the coal regions alone there is demoralization, but we have hopes that that will not last long.

The people now have confidence that better times are coming—indeed, have come—not as good as they were previous to the advent of Cleveland's second term, but much better than they were previous to the adoption of the Dingley tariff bill.

Rapidly Sentenced to Death. John West, 41, Aug. 12—Sylvanus Johnson, a negro accused of rape, was tried yesterday in the circuit court, Judge Phillips presiding. After hearing the evidence the jury retired, and returned in half an hour with a verdict of guilty. Judge Phillips declared that no other verdict could have been brought in from the evidence. He then sentenced the prisoner to death. Johnson broke down when the verdict and sentence were pronounced, and was conducted to his cell weeping.

To Expel Anarchists From France. Paris, Aug. 12—A warrant has been issued for the expulsion from France of Tarrilla Marmol, the Spanish anarchist, who, within the course of a speech which he made on Sunday last, urged that Senor Carnova del Castillo, the Spanish premier should be assassinated. Marmol, who was formerly a prisoner in the fortress at Montjuich, at Barcelona, is believed to have started for England Tuesday. The French authorities have resolved to expel a number of other anarchists from France.

There is Nothing so Good. There is nothing just as good as Dr. King's New Discovery for Consumption, Coughs and Colds, and it does not permit the dealer to sell you some substitute. He will not claim there is anything better, but in order to make more profit he may claim something else is just as good.

YELLOWSTONE PARK. A Complete Tour via the Pennsylvania Railroad. The Yellowstone National Park is unquestionably the most interesting region on the globe, for within it is displayed the greatest collection of nature's manifold wonders.

100 Doses in a Bottle. Is peculiar to and true only of Hood's Sarsaparilla, and is proof of its superior strength and economy. There is more curative power in a bottle of Hood's Sarsaparilla than in any other. This fact, with its unequalled record of cures, proves the best medicine for all blood diseases is Hood's Sarsaparilla.

Hood's Pills. The One True Blood-Purifier. All druggists sell Hood's Pills, take, easy to operate, 20c.

STOCK AND PRODUCE MARKETS. But Little Interruption to the Upward March of Prices.

New York, Aug. 12.—The only interruption to the upward course of prices today was due to occasional profit taking by room traders. The offerings on this account were mostly absorbed with only a momentary fall, after which the rate was resumed. During the morning the influence of buying for London account was evident, arbitrage brokers taking all the wheat, western wheat, and rice today.
