A food ship from the United States has reached India. The famine district may yet be reached in time to save some from starvation.

GOVERNOR HASTINGS returned to his official duties at Harrisburg on Thursday, and the appointment of a chief of the Bureau of Mines may be announced any day.

SENATOR QUAY will next week go to Florida, where he expects to remain until Congress assembles in December, unless called to Washington sooner to press Federal appointments in Pennsylvania.

WHEN a farmer can not help being prosperous he is bound to cease being a Populist, and this is the situation of thousands of American citizens who voted for Bryan last year on account of the depression of agriculture.

GOVERNOR ATKINSON, of West Virginia, in pardoning a citizen who was heavily fined for wounding the seducer of his wife, expressed regret that the attempt to kill the seducer did not succeed. This Governor evidently has the courage to express himself.

ADVERTISERS who have no means of knowing much about the value of a newspaper as an advertising medium, can get a pretty safe idea by noting what papers experienced advertisers use. This information is important enough to be printed in the editorial column.

A WOMAN recently returned from the Klondike says she received fifty offers of marriage before she was fifty miles up the Yukon. But she wiled until she reached the mines and married a man who was panning out \$50,000 a month. Declining a score of proposals a day in Alaska must be almost as trying as the mosquitoes.

SATURDAY'S delegate election showed a decided change in political leaders, thinks the Tamaqua Herald. Those who for years had been the shining lights were turned down or won only by a slim margin. It proved conclusively that the old-time politicians are losing their hold upon the voters. The new comers developed considerable strength and surprises were felt at galore. This only goes to illustrate the ups and downs of politics and there is an old saying that once a politician loses his power he can never regain it.

Decreased Immigration. One of the invariable consequences of a period of commercial and industrial depression in this country is to check the invading tide of immigration, says the Philadelphia North American. Europeans already here write to their friends and relatives at home that the times are hard and employment difficult to find, and thousands who had contemplated trying their fortunes in the new world are induced by these representations to postpone their departure to a more convenient occasion.

The statistics of the Bureau of Immigration for the fiscal year ending June 30, 1907, show the operation of these deterrent influences. Immigration fell off all around to such an extent that the total arrivals only aggregated 239,533, a decrease of 112,435 as compared with the twelve months preceding. This is a great decline from the high water-mark of 1889, when the army of immigrants reached the enormous figure of 798,992, but the falling off is not to be regretted.

This country has reached a point now where it doesn't need any further accessions of foreign labor. Its population seems indeed to have temporarily gone ahead of its developed resources, and there are more people willing and anxious to work at unskilled labor than there is necessity or opportunity to employ. If the immigrants who come here would strike out for the west or south and become tillers of the soil the ease would be different, but that is what most of them refuse to do.

They just settle down in the eastern cities, increase the competition in the unskilled labor market, and help swell the ranks of the criminal and destitute. We are better without them, and the fact that they are not coming here as fast as they were is matter for congratulation rather than for regret.

The Pennsylvania Railroad seaboard excursion Thursday, August 15th, offers all that modern travel has to offer. First class accommodations on regular trains, and for those desiring to go through to Atlantic City sans delay without transfer through Philadelphia can do so by taking the Delaware river bridge route, the only all rail line from points in Pennsylvania.

THE NATIONAL OARSMEN

Winners of the Teahin in the Great Aquatic Event. Philadelphia, Aug. 14.—The first day's races in the silver jubilee regatta of the National Association of Amateur Oarsmen were rowed yesterday over the national course on the Schuylkill river, by Fairmount park.

The Ariel club, of Baltimore, won the first of the former by a half length, and the Institute club, of Newark, the second senior four heat in a magnificent dash. In the eighth the Worcester High School Athletic association took the lead at the crack of the pistol, maintaining it throughout.

All the events with the exception of the international fours and the intermediate eight were three-quarters of a mile and return. The exceptions were one and one-half miles, straightaway. The day was perfect for sculling, and the course, skirting on either side the picturesque river drives of Fairmount park, was almost without a ripple on its surface.

The sudden decline in wheat. New York, Aug. 14.—Wheat values yesterday tumbled two cents from Thursday night's close, and three cents from Thursday's high point of 90 1/2c for September. The decline was attended by heavy unloading of long wheat. It piled into the market from all quarters, influenced by weakness abroad, particularly at Paris, where four quarters broke 75 cents from Thursday night. The best traders here were prepared for the decline, but the rank and file of bulls opposed it vigorously.

CIVIL WAR IN ILLINOIS. Many believed in a fight between Fulton and Rock Island, Ill.

The contest between the two towns dates back several years. At the recent convention of the order, held at Duquesne, Pa., it was decided to move the office to Rock Island. The matter and its progress, yesterday a party was made for a raid on Fulton headquarters, with the object of forcibly taking possession of the books, records, etc., of the order and removing the office to Rock Island.

Sick Headache. Neuralgia and Extreme Nervousness.

EVER since I was eighteen years old and I learned of Dr. Miles' Restorative Remedies, I suffered from sick headaches and extreme nervousness and dyspepsia. In time heart disease developed. I was treated by several doctors with no relief. Severe palpitation with pain in left breast, shortness of breath, and smothering spells made me most miserable. I procured Dr. Miles' Restorative Nerve and New Heart Cure and took them alternately as directed. Improvement began at once and continued to increase so rapidly that I had made of six months I increased thirty six pounds in weight. All pain in the heart is gone, and the nervousness has wholly left me."
