In a statement given to the press last night Presdient Ratchford says: "Our purpose is plain. We go before

the whole country with it. The man-agement of our strike thus far has been equally plain, and as conserva-tive as it is possible for a strike of such proportions to be conducted. The peaceable behavior of our miners

everywhere demonstrates a strong de-sire on their part to heed our advice and to preserve the peace under the most trying conditions. It is not necessary for me to state that an honest public opinion is with us, all efforts to divert it in another direction to the contrary notwithstanding. Our claim is just, which no man who has the cause of humanity at heart can deny.

For this reason we are confident that the rank and file of the miners, more o than we, will win this battle." Many of the operators very much deplored the passage at arms between Colonel Rend and President Ratchford. on the result that is trying to be reach
