He is a Republican in politics, but is of DeWitt's Witch Hazel Salve, C. H. Hagen thoroughly independent, and does not buch. believe in strict partisan control, nor in the spoils system, or the creation and naintenance of offices for the benefit of ward workers or personal or politi-cal henchmen and favorites. Among the reforms he instituted in Brooklyn was the system of competitive exami-nations for appointments and promotion for merit. He founded the admirable Brooklyn board of charities, and was its first president. Mr. Low was offered the nomination for governor of New York in 1888, but he declined it because the Chicago platform did not sass him, and he was the chief com-

Meeting of Protest.

San Francisco, Sept. I.—The steamer Australia, from Honolulu direct, arrived yearerday with the following advices: Francis M. Hatch, minister to Washington, arrived Aug. 20 with special information which will require the attention of both government and senate, and a secret notice has al-ready been issued to the members of the latter body calling upon them to meet in extra session Sept. 6 to conlayed, and May Now Nominate an sider the question. Meanwhile Min-later Hatch is in almost constant consuitation with President Dole and his enbinet. The lawmakers will be asked to ratify the annexation treaty rea majority of the members favor an-nexation the matter will be rushed.

It is said that a call has been made 14 against closer political union with United States, Senators Morgan and Quay are expected to arrive from the United States that day, and the object of the anti-annexationists is to impress them with the feeling upon the island.

James B. Castle, who has held the position of collector of customs since the queen was deposed, has resigned on account of ill health. It is rumored, however, that the real cause of his resignation is dissatisfaction with the manner in which the cabinet is handling the Japanese affair. Castle con-trols a newspaper, and it is generally resolutions adopted by the conference asking for delay until Sept. 18, upon and attention to conducting a vigorous which date the Republican convention attack upon the officials.

Personally-Conducted Tours via Pennsylvania Rallroad.

That the public have come to recognize the fact that the best and most convenient method of pleasure travel is that presented by the Pennsylvania Railroad Company's personally-conducted tours, is evidenced by the increasing popularity of these tours. Under this system the lowest rates are obtained, for both transportation and hotel accommodation. An experienced tourist agent and chaperon accompany each tour to look after the comfort of the passenger. The following tours have been arranged for

As Explained by That Government's Legal Adviser.

SUPPRESSION OF FILIBUSTERING.

"The Laws Sufficient to Enable Our Government to Come Up to the Full Measure of International Duty as Required of Great Britain."

Washington, Sept. 2.- The report of Attorney Calderon Cartisle, of this city, the legal adviser of the Spanish government in this city, to Senator Dupus de Lome, the Spanish minister, on the subject of the Cuban question in this country, with particular reference to fillbustering expeditions, was made public yesterday. It is an exhaustive document of over 600 printed pages, and abounds in copious extracts from judicial opinions and documents of various kinds bearing upon the relations of the United States with Spain as regards the Cuban insurrection. In summing up the conclusions of the investigation in which Mr. Cartisle has been engaged the report says in part:
"A continued study of the neutrality

laws of the United States, and their application to the existing emergency, onvinces the undersigned that in spit of the various failures of justice which have occurred the laws are sufficient in themselves to enable the United States to come up to the full measure of in-ternational duty which they required of Great Britain "As to criminal proceedings against

persons, while many prosecutions have failed, yet the convictions, by juries of our contents, in the cases of Wiberg. Luis and Hart, demonstrate that under proper, efficient and vigorous prosecu-tion of the law there is no public sentiment sufficiently strong deliberately ncourage its violation or defeat its enforcement.

evidence here submitted leads to the following conclusions:
"That the United States now owes to

Spain all the international duties which one friendly nation owes to another in time of peace, and can owe no interna-tional duty to the insurgents.

"That by admitting officially and pro-claiming to its citizens and inhabitants knowledge of the existence of the insur-rection in Cuba, the United States admits knowledge of a fact which in-creases its duty of vigilance in detecting and diligence in preventing the be-ginning or setting on foot, or providing or preparing the means for, military expeditions or enterprises by its citizens or inhabitants within its territory against Spanish teritory.

Phat as to mere commerce Spain can, under present conditions, claim no right under the law of nations to inter-fere with it batalde her own borders, which fact, however, does not lessen, but increases, the obligation of the United States to prevent military ex-peditions and enterprises against Spain from being sent out under the false and fraudulent pretence of more peaceful and lawful compares.

and lawful commerce. "Even admitting in the preent state of the law that citizens of the United States may sell arms and munitions of war to anybody wishing to buy them and able to pay for them, and within the United States may thus obtain large quantities of arms and munitions of war to aid the insurrection, the com mercial transaction must end here, be-cause it is impossible, by mere commerce, for the insurgents' emissaries in the United States to get these arms and munitions to the insurgents in the field, for whom they are purchased, but in order to accomplish this, or attempt to accomplish this, a military expedition or enterprise must be begun or set on foot, or the means must be prepared by the insurgents or their agents within the territory of the United States.

The municipal laws which permit the repeated consummation of hostile JOE WYATT'S SALOON, enterprises against a friendly nation can furnish no justification or extenuation for any international wrong or damage as against such friendly nation."

GOVERNORS AT WAYNESBORD

brating the Town's Contential. Waynesboro, Pa. Sept. 1.—Vesterday was governors' day here. The gov-ernors of Pennsylvania and Maryland dined together at Buena Vista Tuesday night, and yesterday came to Waynesboro to participate in the exerclass. It was really the centennial of the town. It was inaugurated with the ringing of bells, the blowing of whistless and the roar of cannon. The visiting organizations, firemen, G. A. R. vet-erans and secret societies and sightseers began arriving early and crowded

One of the natable events of the day was the unveiling of the soldiers' granite monument erected by the Women' Retief corps. Rev. T. C. McCarnell, o Waynesboro, delivered the opening ad-dress, and President Judge John Stewart, of this county, followed, Rev. Herman S. Cooke, of Wayneshoro, pro-

parade in the afternoon, and the parade was reviewed by Governors Hast ings and Lownles. In Governor Hast-ings' party were Secretary Latta, Auditor General Mylin, State Treasurer Haywood, Colonels Reynolds and Trexter and Captain Paxton. The Mary-land executive was accompanied by Adjutant General Allison Wilmer Colonels Gerald T. Hopkins and H. II.

Governor Hastings, In a lengthy peech, attributed much of the succ of the country to the union of church and state and public schools. He said he believed ignorant foreigners should be excluded unless they bowed down to our flag and institutions.

Governor Lownder spoke of the close relations between the two states, and encouraged the Waynesboro people, "In whom all Marylanders took much interest," to continue their progress, industrial and intellectual.

"WHERE DIRT GATHERS, WASTE RULES." GREAT SAVING RESULTS FROM THE USE OF

There is no music like the melody of health. When every life-string is in perfect tune, and the pure, rich, red blood dances through the arteries to the quick-step of health, life is truly worth living. But the human body is the most delicate and intricate of all instruments. Just one little string out of tune will make a general discorder of the digestion. The sulferer hardly notices it, and does not think it worth troubling about. It is just one little string out of order, but it soon puts every organ in the body into a

tion. The sufferer hardly notices it, and does not think it worth troubling about. It is just one little string out of order, but it soon puts every organ in the body into a jangling discord. The blood no longer receives the proper supply of life-giving elements with which to build up new and healthy tissue. Instead it receives the poisons thrown off by improperly digested food and the effete material with which the intestines are clogged. Diseases of the blood and skin or wasting diseases like consumption are the result.

The best of all known medicines is Dr. Pierce's Golden Medical Discovery. It keeps every life string in parfect time. It corrects all disorders of the digestion. It invigorates the liver. It makes the appetite hearry and keen and assimilation perfect. It fills the blood with the vital-elements that build new and healthy tissues, firm muscles, and strong vibrant nerve fibers. Acting through the blood it tears down inert, half-dead tissues and causest them to be carried off and excreted. It acts upon every organ of the body driving out impurities and disease germs. It is the great blood maker and fiesh-builder. It cures every kind of humor from the common simple blotch or eruption to scrofula. It cures cesema, salt theum, and all skin affections. It cures of per cent, of all cases of consumption. Thousands have testified to its wonderful merits. All good druggists sell it.
