The members of the district executive board are in heavy accord

with this view of the case.
Colonel W. P. Rend yesterday met his thousand miners through a com-mittee of 12 men selected for the purpose at McDonaid, Pa. There was an immense gathering of miners, their wives and children, about the place of conference. The best of feeling pre-valled, and Colonel Rend announced after the conference that there was a full and candid discussion of the merits of the last plan proposed for the set-tlement of the strike. He says the committee that waited on him assured him that the plan had their cordial support, and they felt that the body of the min-ers would endorse it if submitted to them. The colonel pointed out to his men how an enforced settlement would result in only temporary gain to either side, and repeated to them his well known views in favor of arbitration.

Another meeting will be held this atternoon, at which it is expected resolution will be adopted declaring that lonel Rend's men will return to work at the rate proposed to the Columbus

onforence.

D. W. Van Eman, of Gastonville, manager of the Pittsburg and Chicago Gas Coal company, went to Washingon yesterday for the purpose of securis determined to start the mines Tues-day next, and the miners now occupying the company's houses there have been notified to vacate on that day, as new men will be put in them unless the old force goes to work by that time Van Eman fears trouble and wants the deputies for that occasion. The Ohio miners want all they can get, naturally, but what they insist upon most is the maintenance

of the differential of nine cents in their avor, which they have held so long. Whether any settlement could be secured through an acceptance of the proposition of the Pittsburg operators is a matter of opinion upon which the tive board differ. They all agree that they cannot act for the miners, and that the most they can do is to submit recommendations for acceptance or rejection by the craft. The members of the board also differ in their tions should be submitted, whether to convention of Pittsburg miners alone or to a general convention. The delegates represented 5,000 to 6,000 miners, who have formulated demands which place the miners and operators apparently further apart than ever, and the prospect of settlement is remote. The rate asked is 32 cents for machine mining and 40 for plok. General Manager Robinson has
