FINANCE AND TRADE

Statistics of Failures Show Encouraging Business Conditions.

IMPROVEMENT WELL BALANCED,

Heavy Real Estate and Building Transactions, Extraordinary Grain Movements and Increased Business in Iron Made the Busiest August Known.

New York, Sept. 4 .- R. G. Dun & Co.'s

weekly review of trade says: Failures in August were in number not 17 per cent less than in August, 1828, but in amount of Habilities 70.8 per cent smaller. July and August show a lower average of Habilities per fallure han has ever been known in any year, or even in any quarter of the 23 years R. G. Dun & Co. have kept quarterly scords. The improvement is also well istributed, extending to nearly every moortant branch of business, but in lothing, jewelry and unclassified trad-ing only two months of the past 47 have shown smaller failures, in general stores and furniture only three, in groceries, bats and iron manufacture only four, in hat and chemical manufactures only five and in clothing manufacture only six months of the 17. The ratio of defaulted liabilities to payments at clearing houses has been smaller in July and August than in any other month since early in 1893. August was the first month in which the daily average of settlements through clearing houses exceded ma-terially that of the corresponding nonth of 1892, the excess at the prin-ipal cities being 12.3 per cent.

Nor is this due, as might be sup-used, to activity in stock speculation, for the Stock Exchange clearing house now disposes of a very large share of transactions, so that they affect bank exchanges far less than five years ago. The volume of business here has been distinctly larger in other than speculative lines than it was then, and in textile goods phenomenally large, though slackening this week, buyers having nearly completed their initial purchases. With an extraordinary movement in grain, heavy real estate and building transactions and increased business in iron products, the month was clearly the busiest August ever

Wheat continued its reaction until it had fallen 4 cents more, but then rose 3 cents with the first revival of foreign buying. Western receipts are very large, though not quite as large as a year ago, but Atlantic exports, flour included, rose to 5,534,758 bushels for the week, against 2,175,463 inst year. The estimates which command con-fidence still indicate a yield of 550,000,-000 to 580,000,000 bushels.

Conflicting news doubtless reflects that the cotion crop will be large, if by lateness not exposed to serious injury. The milis are now running and turning out great quantities of goods in response to heavy purchases recent-ly made. Wool sells largely between speculators, 16,588,500 pounds for the week. Mills have been buying more freely to replace the wool rapidly con-sumed, and the goods market has been so large and strong that they are en-couraged to purchase even after a rise

of 50 per cent in a year.

The improvement in the iron and steel industry gains momentum, and a further advance in prices makes 4.56 per cent from the lowest average Aug. 12. The demand increases for sheets and plates, especially for bridge and whip building.

Bradstreets' review says: Previous activity in all lines of trade is maintained. There is a better tone in de-mand from jobbers, and the volume of business in wool, leather, clothing, hats, groceries and light hardware has increased. There is a better request for woolen and cotton goods, jewelry and rubber goods, and for boots and shoes. Some wholesale merchants at western centers report the largest volume of August trade on record. Last week's general and unprecedented expansion of prices for staples is continued.

There are only 198 business failures reported throughout the United States this week, against 210 last year, 236 in the corresponding week one year ago, 184 two years ago, 207 three years ago, and as confrasted with 379 in the like week of 1802. There are 30 business failures rejected from Canada this week. Last week the total was 33. and a year ago it was 39.

Certainly you don't want to suffer with dys pepsia, constipation, sick headache, sallow akin and loss of appetite. You have never tried DeWitt's Little Early Bisers for these complaints or you would have been cured. They are small pills but great regulators. C. H. Hagenduch.

Avalanche Vlerm, "Bodies Recovered Berne, Sept. 4,- The bodies of three of the victims of the Mount Pleureus avalanche dispeter, including Bernard the young Englishman, have been re-covered. All were terribly mutilated

A New Turkish Minister. Constantinople, Sept. 4.—Rifant Bey, until recently councillor of the Turkish embassy in Lendon, has been appointed Turkish minister at Washington, in succession to Mustapha Tachsin Bey,

Small precautions often prevent great mischiefs. BeWitt's Little Early Risers are very small pills in size, but are most effective in preventing the most serious forms of liverand stomach trophics. They are constipation and headache and regulate the howels. C. H. Hagenbuch.

England's Wheat Deficiency. London, Sept. 4.—The Daily Graphic publishes a table comparing the availof September, 1898, showing a deficiency of nearly 2,000,000 quarters. It is in-evitable. The Graphic says, that the rise in the price of bread will be main-

WHAT DO THE CHILDREN DRINK?

Dont give them tea or coffee. Have you tried the new food drink called Grain-O7 It is delicious and nonrishing and takes the place of coffee. The more timin-O you give the children the more broith you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about the much. All process well is costs about # as much. All grocers sell it.

Ragiment Poli Through a Bridge Weimar, Sept. 4.—During the mili-tary maneuvers in this vicinity yes-terday a pontoen bridge collapsed while regiment of infantry was passing some of the trumpeters were either drowned or hit by the timbers of the ortôge and killed.

It is guaranteed to give perfect satisfaction or mony refunded. Price 26 cents per box. For sale by A. Wasley.

"If any of ye know just cause or impediment why these two persons should not be joined together in Holy Matrimony, ye are to declare it, or forever after hold your peace." If physicians obeyed bits solemn admonition in the marriage ceremony and protested with the honest and scientific reasons in their postession half of the unliappiness, sickness and death in the world would cease to exist. The man or woman who has developed symptoms of that dread disease consumption should bar the way to welded life. It is a crime to transmit to future generations the death-dealing germs in the blood of the consumption.

Many physicians pronounce consumption and limited from the death-dealing germs in the blood of the consumptive.

Many physicians pronounce consumption agent for

erations the death-deating germs in the blood of the consumptive.

Many physicians pronounce consumption an incurable disease. In this they are mistaken as thousands will testify. Dr. Pierce's Golden Medical Discovery cures of per cent. of all cases of consumption. It currects all disorders of the digestion. It promptly improves the appetite and makes it keen and hearty. It fills the blood with the tissue-building elements of the food, and acting directly mon the lungs, drives out all impurities and discase germs. It makes rich, pure blood, builds new, firm, healthy flesh, and strong, springy muscles. It soothes and invigorates the nerves. Thousands have testified to their permanent recovery from consumption through its use, after they were given up by the doctors and all hope was gone. Druggists sell it and nothing else is "just as good."

There cannot be too many good, practical books has home. Dr. Merce Cannot be too many good, practical books in a home.

FRANZ JOSEF LAND EXPLORED

The Result of the Explorations Completely Revolutionizes Old Ideas. and Makes a New Map Necessary.

an Untimely Death—Her Dangerous Predicament.

Iondon, Sept. 4.—The Bettish stamor Windward, having on board the Jack-won-Harnsworth expedition, which has been three winters near Cape Florat. Frams Joset Land. arrived here yesterday from Frans Joset Land. Arrived here yesterday from Frans Joset Land. All the singular of the content of

times along glaciated land, 1,500 feet high, bordering on Cambridge bay. The constants mists which prevailed made the journey very harassing. The party shot a bear, the only one seen, and having procured meat and blubber they returned to Elmwood in the middle of May, after meeting a party sent out to look for them. A second expeginning of June, was less successful, as on the second day out the explorers and cigars, beers, beers, porter and ale lineary trans:—Hotel Francy, Shenandoah contact of the second day out the explorers and cigars. ost a sledge through the thin ice and and a hazardous return journey,

The result of the explorations, it is claimed, completely revolutionizes the old ideas of Franz Josef Land, and proves that the much discussed Gillles land does not lie where Arctic geographers have been in the habit of placing it, and therefore it may be considered non-existant. The whole continental mass of land

is replaced by a vast number of small islands and the lofty mountains by long rigid hummocks and lee packs, while north of those areas has been found an open sea, which is the most open north sea in the whole world. The most valuable magnetic, meteo-

logical and geological observations a were made, and very valuable botanical and zoological collections were brought to England.

The winter life of the explorers was uneventful. There was about two hours twilight in the middle of the day, from October to November, and from thence m it was total darkness until the end of February.

The members of the expedition killed 1,400 loon (a web footed bird found in the northern region) in the autumn, which provided ample fresh meat. During the winter they caught 19 loon and 22 kittiwakes (a bird of the gull kind), to which they fastened labels initialed "J" and liberated them. The cold sometimes reached 40 degrees below zero and jumped up to 20

legrees below freezing point.

The members of the Jackson-Harmsworth expedition failed to see King Oscar land, and are convinced that there is no great land northwest of Franz Josef Land. They add that the existence of Petermann land is doubtful, and that at most it must be small. Pole from Franz Josef Land more than doubtful, as the returned explorers are satisfied there is no land north of \$2 legrees. They did not see anything of Professor Andre, who started on July it from the Island of Tromsoe, in an attempt to cross the North Pole by

Mr. Jackson announces his intention of heading another Arctic expedition. this time on his own account.

Dr. King's New Discovery for Consumption Dr. King's New Discovery for Consumption.

Free trial bottleast A. Wasiey's drag store, Regular size 50 cauts and \$1.00.

Skills Ourtained by a Gale.

Skins Overtaken by a Gale London, Sept. 4.—Four skiffs left Fair Inic, between the Orkney and Shotiand islands, on Thursday to barter produce with passing vessels. The skiffs were overtaken by a gale, but two returned safely. One of the other boats was found the next morning. In it were the bodies of four men, and its three other occupants were almost dead from ex-haustien. The remaining boat has not been seen, and it is believed that Its four occupants have all been drowned.

If you have ever seen a little child in a paroxysm of whooping rough, or if you have been annoyed by a constant tickling in the threat. you can appreciate the value of One Minute Cough Care, which gives quick re-lief. C. H. Hagenbuch.

A Privileged Convict.

Vienna, Sept. 4.—Private reports received here from Sofia state that Captain Boitcheff, formerly aide-de-gam; to Prince Ferdinand, and who was con-victed of the murder of his mistress Anna Szimen, is living luxuriously in the house of the governor of the prison, According to these reports Boltcheff is allowed to receive an utilimited number of visitors, and is ealy kept in se-clusion during the day time, being al-iawed to go out at night and spend his time as he pleases. His name, the reports say, has not been erased from the army ligt,
