THE Mahanoy City American has taken from its editorial column the names of those forming the Republican organization in the county.

WITHIN the past day or two quite a number of names have been added to our subscription list. As a newsgatherer the HERALD is steadily moving to the front.

THE "daily bread" may become dearer, but increased general prosperity should give a whole loaf now head. where in many cases there has been, owing to idle mills and trades, only a half loaf.

It is said that England is sending larger war-ships to American waters because she is building them larger. At the same time, it is a good thing on fire, and before the flames could be to turn out a big ship of our own extinguished one of the vagrants was periodically as a preserver of peace and politeness.

THE action of the Republican convention of Berks county on Saturday, instructing the state delegates to vote for Hon, William A. Stone, of Allegheny, will cause the aspirants from the eastern part of the state much uneasiness.

THERE is quite a scramble among several members of the Schuylkill County Bar over the Judicial vacancy. The one who receives the ap pointment will have sufficient oppor tunity/to display his qualifications by the time the voters are called upon to sauction the Governor's choice.

all the improvements, and without cost. The proposition appears to have been conceived solely in the interest of Philadelphia, but it probably has another side to it which on investigation will prove to be not quite so disinterested and benevolent.

THE FRENCH OCEAN CABLE And the Controversy Over Its Lann-

Ing at Cape Cod. Washington, Eept. 7,-Officials of the state department and of the attorney general's office have been conferring recently relative to the French cable which lands at Cape Cod. The cable was first laid under authority given by the president, through Secretary Evarts, in 1879, and recently the French company has been replacing this line with a new copper cable. This mot with opposition, and Senator Frye Intro-duced a hill to prevent the landing of cables without the assent of congress, while Senator Nelson offered another bill leaving the question with the president. Neither bill passed congress. While they were under consideration In the genate committee on commerce the statement was made that if the French cable was landed pending congressional action a United States rove-

aue cutter would cut it. Through the summer work on the cable has progressed steadily, and in-formation received here today indicates that the last link in the line will be completed in midocean in about ten days, although there may be delays owing to the delicacy of this final oper ation. The steamer Silverstone has been paying out the line from the American coast, and the steamer Francis Aragon from the French coast. The Sliverstone has paid about 1,520 miles from the American side and the Francis Aragon about 900 miles from Brest. This leaves about 600 miles of the total length of 2,000, and the steamers are gradually approaching with the prospoet of uniting about the milddle the month. The American connection at Cape Cod is said to have been completed, with the line running into mid-用的复数

ington and all points on the Delaware Divi-aton; \$0.70 from Lancaster; \$8.00 from Altoona and Harrisburg; \$8.25 from Wilken-The question before the state department and attorney general has been as barre: \$5.80 from Williamsport; and at pro-portionate rates from other points.
