LABOR DAY.

Attractions That Served to Make the Holiday Enjoyable.

There was a pretty general observance of Labor Day in this region yesterday and reports of success are made by all places where holiday programs were arranged. Shenandoah was a point of attraction to many visitors, despite the heavy rain at Mahanoy City and Lakeside, and the picnic of the Independent Social Club at Columbia park was the largest ever on the grounds. The balloon ascension and parachute jump proved a great magnet and hundreds of people patiently awaited the feat for several hours. It was originally intended to take place between 3 and 4 p. m., but was postponed until 6 o'clock. Two accidents then intervened and put it off until 7 o'clock, when the exhibition was given to the entire satisfaction of the management and the great crowd of people that stayed at the park. The exhibition was given by H. M. Roberts, an accountant from Cleveland, Ohio, who has been exhibiting in various parts of this state during the summer and lately at Tumbling Run. When the first attempt was made to fill the balloon with hot air the high pipe sustaining the rope which held up the top of the balloon fell. Fortunately nobody was injured. At about 7 o'clock the airship "Lockett" took to the air, but was jerked up from the earth, but ascended only about four or five feet when the rope connecting the parachute and balloon snapped. Roberts fell heavily to the ground and the parachute on top of him. The balloon soared high in the air and then took a westerly direction, as the wind was blowing from the east. The hot air escaped. It fell several hundred yards west of the picnic grounds. Meanwhile there was great excitement at the latter place. Many rushed to Roberts' assistance. He was temporarily dazed and one of his knees was somewhat wrenched. People were flocking to the park to see the "Lockett" take to the air. Roberts immediately proceeded to make arrangements for another trial and at seven o'clock he made it successfully. The balloon shot straight above the starting poles and the aeronaut dropped with his parachute within fifteen feet of the starting point. The immense crowd went almost wild with delight and Roberts was carried to the pavilion by the cheering crowd. The management was delighted with the result, as the aeronaut's success had emphasized their good faith with the public. The picnic was very successful. Roberts to-day returned to Potomac, where he is employed as a steam fitter at Tumbling Run. The season closed next week and the aeronaut will then begin to play fair dates. His wife also engages in the same business. She is at Potomac with her four-year-old son.

MAHANAY CITY RACES.

Several hundred people of town also patronized the bicycle events at Mahanoy City yesterday afternoon. These events resulted as follows: The first race, the one-mile novice, was won by G. W. McHenry, of Berwick, with a time of 2:15. Second, W. H. Davis, of Brantfordville, third, time, 2:44. The one-mile dash was won by W. F. THE PHOENIX PICNIC. The anniversary picnic of the Phoenix Fire Company of town at Lakeside was also well patronized. Eight hundred tickets were sold at the last of the season. There was plenty of enjoyment on the grounds during the day, and those who participated in the anniversary came home delighted with the day's outing. The home company netted a good sum on the affair.

Small Business. The man who takes his job work out of town to have printed is no friend to the town. He can print about protection to home industries, but he is the rankst kind of a free trader, and all business can save a few pennies occasionally on a job of work. This same kind of fellows when they come to die should send their relatives to the same foreign job office and have them printed on manila card board and then tack them up on the town pump. They hardly deserve a funeral notice in his home paper.—Ex.

HOUSE AND RIDER BUFFALO FOR TWO DAYS IN A BUFFALO HERD.

A Cavalryman on a Hunt Separated From His Companions and Carried For Many Miles Across the Plains by Frenzied Buffaloes.

"It was in 1895, the year of the close of the civil war," said Hank Marston, a Minn. tann cattleman. "I was high private in the Second Kansas cavalry, and instead of being mustered out at the close of the struggle, our regiment was ordered to the column sent out against the Arapahoes and southern Cheyennes, who had been playing hob on the plains while our hands were tied up fighting the Johnny Rebs. This kind of campaigning was not new to Kansas, for when a fall water and dusty plains had no terrors.
