THE movement against the gambling dens in the Klondike region is to be commended. Yet all men who has been at Ostond during the entire February, tempt fortune by making the trip to season, committed suicide Thursday May, 36.50 the gold fields are more or less evening. The deceased is said to have gamblers.

THE Democrats who insist that the Dingley bill is a failure will remember that that is what they said of pretty nearly everything since they aunounced 35 years ago that the war was a failure.

UNCLE RICHARD BLAND, of Missouri, says the wheat boom will strengthen the Republican party, while Mr. Bryan argues that its effect will be directly opposite. Obviously these able free coinage shouters ought to get together and do a little har monizing.

THE case of Poor Director Dietrich should be a warning to office holders. This man was an honored citizen of his community before he entered public office, so conspicuous were his virtues as a citizen that they were largely instrumental in elevating him above his fellows to look after the expenditure of the county's alms. He was, however, tried in the balance and found wanting and is branded as one whose greed to get rich led him to violate the law and he is a disgraced man. He realizes very keenly that the way of the transgressor is hard.

Cologano Democrats have decided to go it alone hereafter. At their convention at Denver on Monday last, They decided that there shall be no more fusion by that party with any other. After a heated session the enough to keep its shape. convention nominated John A. Gordon, of Las Animas county, a straight Democrat, for supreme court judge, by a vote of 283 to 167, and For sale by dealers everywhere. adopted a platform landing Bryan and declaring for free silver at a ratio of 16 to 1. After the convention had adjourned it was discovered that Gordon, their nominee, was a Cleveland Democrat, and consternation reigns in the party. What they will ALCOHOLIC, NERVOUS AND BILIOUS do about it remains to be seen.

Way did we not hear of strikes during the four years of the Cleve- anight out fand Democratic admistration and the reign of the Wilson bill? The reason is plain. The American workingman had nothing to strike for. A large part of them were out of work 17 and 19 Peach Alley, Shenandoah. over sack.

and dependent upon charity and the soup house. The very fact that we are now having strikes is an evidence of improved times. The workingmen knew that times are improving and they are in a hurry to secure their share of the improved condition. If there was no improvement and the outlook no better than it was in 1893, '94 and '95, there would be postrikes. Thousands of the men who are now striking had no work in

these years of depression. Instead of the present strikes being an argument against the new Dingley tariff law, it is one in its favor. It was impossible to get up a strike under the Wilson law. The only strike then
