ANOTHER AWFUL WRECK

Fearful Result of a Conductor's Attempt "Steal a Station."

THIRTY DEAD AND 185 INJURED.

wreck in the history of the state of Colorado occurred early yesterday morning on the tracks of the Denver and Ric Grande and the Colorado Midland rail-Ways, one and a half miles west of here. After 12 hours' incessant work by the wrecking crews in clearing away the debris and recovering the dead hodles of these who perished it is impossible to more than estimate the loss f life, and not even those known to be dead have been identified. The names of many of the unfortunates will never be known, and it is possible that the number killed will always be in doubt. From the best information obtainable now tuily 30 persons are believed to have perished, while 185 have been taken out of the wreck suffering from serious injuries.

The wreck was caused by a head end

collision between a Denver and Rio Grand passenger train, running at the rate of 40 miles an hour, and a special Colorado Midland stock train running at a speed of probably 20 miles. terrific was the collision that both engines, the baggage and express cars, smoker and day coaches and two stock cars were totally demolished and the track torn up for several rods in both directions. To add to the horror of the scope the wreck caught fire from the explosion of a gas tank on the passen ger train, and burned so rapidly that many passengers pinned beneath the debris were burned to death before help could reach them.

The most generally accepted theory

of the cause of the wreck seems to be that Conductor Burbank, of the Midland special, anticipating the time of the passenger train, undertook to "steal a station" and beat the passenger into New Castle. Burbank escaped uninared, and upon orders from Coroner Clark has been placed under arrest by the sheriff, Midland Engineer Ostrander is missing, and a thorough search falls to reveal any vestige of his remains.

The following tours have been arranged for to reveal any vestige of his remains. It is thought that when he saw the threatened danger he jumped his engine and, realizing his negligence, took

Rochester, and trains met the shock was so great as to literally hurl them out of bed. Some say the noise was heard and the shock felt in New Castle.

General Superintendent Samule, of the Denver and Rio Grande, was in the vicinity of the disaster, and soon reached the scene, taking charge of the work of removing the bodies. Ten bodies were found in the ruins of one car and four in another. The charred remains of two women, apparently clasped in each other's arms, were found. Their heads and lower limbs were burned off. In the dress bosom of each was found a ladies' gold watch. upon one of which was inscribed, "From Mother to Mamie."

Frank P. Mannix, a newspaper man of Victor, Colo., who was in the smoker and escaped with some painful bruises and burns, said: "Words fail to express the horror of the scenes. The crash came unexpectedly. Suddenly all vas darkness and confusion. The air was filled with cinders, splinters and heated gases. Then flames darted up on either side. The scene was simply idescribable. The flames were in use a godsend, for with their aid the vindows were located, even though the bassengers had to jump through fire." Of the dead only nine have been positively identified. The recognized dead F. J. Keenan, mall agent, Den- and Watkins returning, Robert S. Holland, fireman, Salina; Mrs. Alexander Hartman and two

Shortly before the Cleveland left St Michael's two of the expeditions, those of the National City and of the south coast, held indignation meetings, threatening dire vengeance upon those who had brought them there and were unable to carry them further. They had been left stranded at St. Michael's and cannot possibly reach Dawson before next spring.

The first signs of winter are apparent on the River Yukon, which is beginning to freeze, and in a few weeks will be closed. Enormous prices are now being paid for food at Dewson, and it is impossible that more than four yes sels with provisions can reach Dawson before the river is a mass of ice.

The Cleveland brings 65 passengers and about \$400,000 in gold dust. Thirtyeight of the passengers are from the gold fields and 27 are carpenters returning from St. Michael's, where they went to construct boats. The story of the fabulous wealth of the Klondike, Bonanza, El Dorado and other mines tributary to the Yukon is reiterated by the returning miners, but the warning which has already been given to stay away from the gold fields this winter is emphasized by everyone in the band. They say that hundreds of people must to hungry this winter, and that many will certainly starve, as the food supply in the country is far below what will be required to keep alive those already in Dawson City.
