Who will the Governor "fire" next? He might with profit to the state try one of his three-line notes on him.

The election board of one of the wards in North Bethlehem was summoned by Judge Scott to pay a fine of \$200 and suffer sixty days imprisonment, for neglecting to keep the numbers on the voting check list and to file the ballot sheets with their returns. The court held that they should have acquainted themselves with their duties as such neglect constituted election offenses.

LORD CHILMSPORD, the English general in command against the Indians in the disastrous battle to the English forces when the French Prince Imperial was killed, is on a tour of Canada. In an interview he speaks boastfully of Canada's fortifications and of her militia, saying one Canadian is equal to two Americans. He is charitable to his Lordship's supposition he had dined rather heavily when he made the assertion, as it is hardly to be supposed that a general who had been so fully whipped by a lot of black savages as he would make so easily an assertion if he were sober. The Canadians are good citizens and would, no doubt, make good soldiers if called upon to fight, but an opinion of their fighting capabilities would come with greater force from a better general. But the better general would make no such invidious comparisons.

The Striking Miners.

In discussing the fatal tragedy enacted at Lattimer last week, in which a score of miners were shot down by Sheriff Martin's deputies, there may be drawn therefrom several conclusions. Public sympathy is unquestionably with the striking miners. It might be well, however, to accept the sensational press from the Leligh region with a due regard for the sensational character of the occurrence. No one in the Leligh region, whether he be a miner or strike, a citizen or a coal operator, but will deplore the awful slaughter of human lives; few will question the statement that the grievances of the men were just, and that they are entitled to the increase in wages asked for.

The presence of the state soldiery has had a restraining effect upon the strikers, and it is the belief of many that had the militia been called out earlier there would have been no bloodshed at Lattimer. Very few of the strikers understand the English language, and the reading of the riot act to them by Sheriff Martin was anything but intelligible. The sacrifice of human lives on such occasions is a terrible misfortune, and more especially so when the unfortunate are battling for what they deem just and proper, and for the protection of their homes and families.

But are not the mining corporations in the Luzerne region responsible, to a certain extent, for the condition of affairs that exist at Hazleton today? By the employment of alien laborers, who care little for our laws and less for our customs, at the sacrifice of the English, Welsh and Irish miners, these corporations are now reaping the fruits of that which they have sown. An exchange truthfully says "if the companies will have Huns to do their work for them they should provide against the risk and danger incurred and the cost of repression devolving upon the counties and the state. It is not fair that other industries should be taxed in order that the mines may be filled with laborers who work for low wages. Employers have an unques-

tioned right to get their work done as cheaply as possible; but the people of the coal regions have also a right to live in peace, and to be free from the lawless scoundrels which put life and property at hazard at the hands of men who contribute little or nothing to the maintenance of government, but who add materially to the cost of it."

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the word is: the bladder, once created for one purpose and if not diseased, it is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often by mistake attributed to female weakness or trouble of some sort. The error is easily made and may be easily avoided. To find out correctly, get your urine analyzed for twenty-four hours; a sediment settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention EVENING HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

To Cure Dyspepsia.

A New Remedy Which Will Do It. Chronic dyspepsia is considered by many people to be nearly if not quite incurable. No word is said to give the idea that they can be cured. That is why they have tried various remedies without much, if any benefit. But the progress in every branch of medicine has been such that among other things a lasting cure for indigestion in its chronic form as well as temporary has been discovered and is now placed before the public under its merits as a permanent cure for all stomach troubles or difficulties with the digestive organs. This new treatment is called Stuart's Dyspepsia Tablets, being put up in tablet form so as to be easily taken and also to preserve its good qualities for an indefinite length of time. The remedy has produced surprising effects in the worst forms of indigestion, and in many cases where ordinary remedies failed to give even relief, Stuart's Dyspepsia Tablets have fully cured. The splendid results from using this preparation are owing to the fact that it is prepared and intended for dyspepsia and stomach troubles only. It is not a cure-all like so many advertised remedies, claiming to cure everything under the sun, but it is a certain cure for Dyspepsia and any and every form of indigestion cannot fail to get permanent relief and cure from it.

STOCK AND PRODUCE MARKETS.

Not Reported to Affect the Market Fairly. But There is a Subsequent Daily. New York, Sept. 17. - Today's operations have been in a moderate way, with a reaction in the local or prices on the Stock Exchange. There was some talk during the morning of the possibility of a powerful bear pool which was reported to be operating in the market. The supposed prestige of this combination, coupled with the fact that London prices came lower this morning, apparently led to the reaction. The market was quiet here, led to the early success of the bear venture. The arguments they used were over the Cuban question, the yellow fever and the war in Mexico. The whole lot receded. Later came details from Washington of the yellow fever, which was the cause of the reaction. The market closed firm. Closing list:
