The Attempt Made While the Chief Magistrate Was Marching on Foot to Assist in the Celebration of Indopendence Day.

The central thoroughfare of this city, extending from the great plaza to Ala neds, or the public park, was thronged by thousands of people in the morning, issembled to view the military procession usual on Independence Day. Following them were other officers, subject ministers, etc. Suddenly, near the Alameda, there was a disturbance in the crowd on the sidewalk, and a well built, muscular man, with flowing black hair and mustache, forced his way by a tremen-dous effort past the gendarmes and soldiers, jumped between the president solders, jumped between the president and General Praddilo and the chief of staff, Monasterio, and draft a blow at the back of the president neck, but the violence of the blow was diminished by the fact that he was growded between the president and officers immediately following him. and running behind. The man was taken to the palace and stripped, but no weapon was found on his person. He was taken away to the city hall, securely bound and placed in solitary confinement, after being questioned by the officers. He has often been employed in a notary's office as a clerk, and is said by the chief of poles to have a record as a man of viotent habits, given to drink and quar-relsome. Various stories are told regarding his design on the president, one theory being that he was armed with a dagger, but if so he must have thrown it away, as no weapon was found on him. It seems almost certain that he intended harm, for at the moment of dealing the blow he used opprobrious terms and was most mani-

#### TO CURE DYSPEPSIA.

A New Remedy Which Will Do It-Chronic dyspepsia is considered by many resple to be nearly if not quite incumble, No good reason can be given why they think so except that perhaps they have tried various remedies without much, if any bene-Bt. But the progress in every branch of medicine has been such that among other things a lasting cure for indigestion in its chronic form as well as temperary has been discovered and is now placed before the public strictly on its merits as a permanent cure for all stomach troubles or difficulties

with the digestive organs. This new treatment is called Stuart's Dynpepsis Tablets, being put up in tablet form so us to be easily taken and also to preserve its good qualities for an indefinite length of

This remedy has produced surprising effects to the worst forms of indigestion, and in many cases where ordinary remedies failed to give even relief, Stuart's Dyspepsia Tablets have fully enred.

The splendid results from using this preparation are owing to the fact that it is prepared and intended for Dyspepsia and stomach troubles only. It is not a cure-all like so many advertised remedies, claiming to cure everything under the sun, but it is claimed that it is a certain cure for Dyspepsia and anyone suffering from any form of indigection cannot fall to get permanent

strength to mind and body by reason of the food being properly directed and at the same time the much abused stomach is allowed to rest and recuperate.

Notwithstanding the great benefits to be derived from Stuart's Dyspepsia Tablets, the price is but 50c. for full sized package and all druggists sell them.
