AID FOR KLONDIKERS **A Fortunate Escape**

May Be Sent by the Government If Deemed Necessary.

SECRETARY ALGER'S ACTIVITY.

The Head of the War Department Investigating Mothods For Reaching Dawson City Should the Inhabitants Bo Threatened With Starvation.

Washington, Sept. 20 .- Two repre mentatives of the North American Trading and Transportation company, Mezars, Perfous E. Weave and Michael Cudahy, of Chicaly, of Chicago, arrived here yesterday. They came at the special request of Secretary of Was Alger, who desired to confer with then in regard to the question of sending reller supplies to the gold mehors the Klondike country should the invisitigation now being made by Cap tain Bay, of the army, show such after their arrival in the city the two gentlemen went to the residen-Secretary Alger, where they remained In consultation with him the greate part of the evening. The possibility of the need of government aid to the miners during the coming winter was broached by Secretary Algor in a cal Inet meeting during the past wook, the secretary feeling that the interests humanity dictated that some feasily plan whereby aid could be extended should be determined upon. In the event if was found measure. Lan hight's conference was mainly a pro liminary one. in which, however, whole question was gone over in STF thorough manner. Mr. Wenre vho hus spent some time in Alasim. was able to give the secretary much information bearing upon the topoglace and other conditions which have to be confronted if aid were u dertaken. Secretary Alger said today that nothing final had been determine

An important matter upon which Secretary Alger especially desired the opinion of Messre, Wears and Cudahy was the femalbility of a locomotive sled designed to draw logs and other ma-torial over ice. This has been in sucmerul operation in the forging camp In Wisconsin, and its adaptability to this work influenced the secretary to bullave it might be put into practical

intervent and a local or plut from plattices a mensures be receivery. The representing tives of the Trading company had ax-mained a drawing of the sted and had y He working briefly explained to them, and they expressed the optition that it might be feasible for the purpose con-templated. Secretary Alger's idea is that the sleds might be taken up to EL e Broad Street Station, Philadelphia. "Yan

that the fields might be taken up to EL. Michaels by ship, but even if this were fits possible he believes they could be taken piecement over the Chilkoot pass and the nee to the Eykon. Means, Weare and Cudahy say these are ample pro-visions for 5,000 men for one year at St. Michaels, and they believe if found necessary the sleds could be used to transport these supplies to Dawada Chipen during the coming winter. using the coming winter.

Secretary Alger has received a letter rom the superintend of ponstruction for an intentes of the stedy in which the writer cays he understands that the Yukon river freezes solidly enough to be good as a road, also that between White pass and Fort Selkick, a distance of 250 miles, the land is pracfically level and a good wagon road can be easily made. That, he says, is within 200 milles of Dawson City, and the eiver would furnish the road the rest of the way.

News of the Gold Hunters. Seattle, Sept. 20.-Sylvester Scovell, the correspondent of the New York World, arrived yesterday on the sleamer Rosalie. Mr. Scovell brings the news which will come with comforting as-surance to thousands of people who have friends on the pass, that at least 2,000 men, with complete outfits, will get through to the Yukon, though he pelleves that only a small fraction of these numbers will reach Dawson City before winter. He believes that 2,500 men have gotten over the Chilkoot pass and have gone on down to the mines. These men have, however, with few exceptions gone through with little or no supplies, Provisions are not to be had in the gold fields.

Certainly you don't want to suffer with dys-pepsia, constitution, sick headache, sullow skin and loss of appetite. You have never tried DeWitt's Little Early Risers for these complaints or you would have been, cured, They are small pills but great regulators. C. H. Hageabach.
