Tax electric cab has proven a big the astonishment of the unexpectant threwn against the walls and floor. Londoner. The sight of a horseless pont Tobacco Spit and Smoke Your Life vehicle progressing along the streets at eight miles an hour is a decided generally known.

THE announcement is made that Chicago or New York. John F. Whalen Esq., who was for so many years associated with the late Major Ellis in the practice of the law, has been appointed to succeed his chief as attorney for the Philadelphia Republican convention. In his reply & Reading Coal & Iron Co. The appointment was not unexpected as the ability with which Mr. Whalen has handled the legal affairs of these

THE railroaders are after several members of the Legislature, whom they consider inimical to the interests of their craft. The state legislative board of the Railway Employes of Pennsylvania, in session at Scranton and representing 100,000 men, adopted resolutions condemning a number of legislators for antagonizing the "efforts to secure just legislation" for railroad employes. Among those ntioned in the resolutions appear the names of Coyle and Losch, from this county. The former will not have the opportunity to betray them again, if that is any consolation.

Our friend Joyce, of the Black Diamond, has again been treated to what he considers editorial luxury-a libel suit. The aggrieved party this time is ex-Sergeant at-Arms Wyatt. The article complained of is said to he the same as the one John J. Coyle considers an injury to his character. The editor of the Black Diamond, it is said, has employed additional office help to wait upon those who consider their feelings sufficiently punetured by Joyce's caustic pen to enter the libel arena. These libel safts come high, but it appears our editorial friend must have them, even if he has to go to Dauphin county.

Ann now again comes the gratiflying intelligence that the end of the Cuban war is in sight, that Spain is practically helpless, that she has neither money nor troops to lavish upon Weyler, that Weyler has been a dismal failure and that the insurgents have already won the right to demand the recognition of their independence by the United States. We have, of course, heard all these things before. and they have proved delusive, but these reports come from such apparently authentic sources that they assume an air of verity that gives them a greater appearance of reliability than any heretofore.

Order United American Mechanics, in annual session at Altoons this week, brought out the fact that the Livery and order is in a healthy condition. It was established forty-four years ago for the purpose of incolcating the principles of patriotism in the hearts of the young men of this country. and since its formation has grown into power and importance, In Pennsylvania alone there are 80,000 members, while the total membership in the United States numbers over 200,000. The order is just now blending all its efforts to securing a restriction in immigration, and feels confident that a bill with this object in view will be passed at the next session of Congress. There are two conneils of the order in Shenandoah, and both are in a prosperous condition numerically and financially.

man who works on and on, utterly headless of health and too busy to occasionally take a little necessary medicine, is committing suicide as surely as if he turned a pistol on his heart. Such a man dies by little degrees. First a little indigestion and a little neglect. Then loss of appetite. The bowels get elogged and the hlood receives poisons instead of healthy nutriment. Old, inert fissues in flesh, muscle, nerve and brain are not replaced by new. The whole body gets stale. The very sleeping room of a man in this condition is filled in the morning with unwholesome odors as if it had been occupied by a decomposing corpse. It has been occupied by a decomposing corpse. It has been occupied by a man infi-dead. The poisoned hrain refuses to sleep and hates to work. Then comes the resort to the hypodermic injection of morphine and—speedy death. All this may be prevented by the use of Dr. Flerce's Golden Medical Discovery. It corrects all disorders of the digestion, makes assimilation perfect, fills the blood with the vital elements that make new tissue, builds healthy flesh, firm muscles, strong nerves and active brain cells. It drives out impurities and disease. Thousands of men in all walks of life have testified to its wonderful merits.
