WAS IMPRISONED FOR LYNCHING. Left a Note Declaring That It's Death

Was the Satisfaction He Owed Soclety-Blames Another Police Official For Suggesting the Lynching. Cliy of Mexico, Sept. 25.—Ex-Inspec-tor General of Police Eduardo Valan-quez yesterday committed suicide in Belem prison. The inspector blew his brains out with a revolver. He was a proud man exceedingly reserved, and very ambitious, his rise from a humble

position through various posts to the command of the police having been sufficiently rapid to attract attention to him as a man of great talent. , Since the alleged lynching plot was exposed and he, with other police officials, was imprisoned he has been ex-

tramely retiesnt, and evidently suffer-ing from intense nervous strain. He was subjected on Thursday to a long examination by Judge Flores, and at the conclusion of that ordeal, on his return to his room in the prison, it was noticed that he showed great dejection. He has always been in the habit of reticlog late, and in prison he kept up his custom, retiring about 3 o'clock, except when his presence was required by the judge.

Thursday night he retired late, and at 11 o'clock yesterday morning the warden of the prison went to call him. Valuerney and said in a friendly tone, as he knew the prisoner well:
"Come, my boy, it's time to get up.

Receiving no answer, he began to shake the inspector, saying, "Don't be laxy," when he noted that Valasquez Humphreys' Homeopathic Specific had a bullet wound in the right temple, and on investigation further found a small two barreled pistol with which successful remedy.

The warden immediately notified the judicial authorities, who went at once to the room of the suicide and summoned medical men. Judge Flores remarked that he had given the strictest orders to prevent Valasquez attempting suicide: that he had carefully watched him, and every precaution was taken to keep weapons from him. At first the authorities were inclined to connure Colonel Campuzo, the warden. During the afternoon relatives of the dead man were allowed to enter the public. The doctors had concluded the examination and had found that death must have been instantaneous, the buillet being imbedded in the brain. The body was dreased and delivered to relatives.

A letter was found in which Valas.

A letter was found in which Valasquez made a statement, saying his death was, he felt, the satisfaction he owed to society, and he should, therefore, give that satisfaction. He also said that the crime was suggested to him by Inspector Villa Vicencio, of the Second police district, who is in prison. It is generally felt by his friends that Villa Vincencio was his evil star, having from the time Valasquez became chief of pelice gained a remarkable influence over him.
