Harmony to the Front.

This is not the time for dissensions in the Republican ranks, if there are changes in the officiary at Harrisburg. that is a matter of immense moment to those immediately concerned, no doubt, and there may come a period when it will be proper to thresh the whole matter out in the press and possibly on the platform. But just at the present moment the rank and file of the party will not permit themselves to be separated into factions if they are wise. Faction may be permitted to rage while a priticket has been made, unless it was nominated by fraud or contains bad men, faction should hide its diminished head and harmony should come to the front.
