TALK about gold; there's plenty of it! The Treasury officials positively refuse to exchange the yellow metal for greenbacks, having now more gold than it can comfortably accommodate.

ATTORNEY GENERAL McCORMICK, the state's legal adviser, is in "the dumps," and refuses to advise the Capitol Commission; all because things are not going the way of Dan & Dave.

With the close of the present week the short-cropped baseball champion will go to the rear, and in his place will bob up the long-haired football crank. There are several Oriole rooters here who wish the change had been made a week sooner.

In suggesting reasonable advertising a writer says "it's better to interest ten people thoroughly in one article than to merely catch the eye of a thousand people." Eye-catching is merely the beginning of an advertisement, and the advertiser who thinks it is the end fools himself badly.—Record.

This afternoon Thomas L. Hicks assumes the duties of postmaster of Philadelphia, and at the same hour his Democratic predecessor walked out. The latter, however, leaves the office with a good record, and one which the new incumbent might follow with profit to himself and the public.

The appointment of Richard H. Koch Esq., to the position of Additional Law Judge was expected and the formal announcement of the action of the Governor in the case occasioned no surprise as the HERALD intimated several days ago that the appointment had been decided upon. The fitness of Mr. Koch for the office is conceded even by those who, for various reasons, opposed his appointment. His ability is unquestioned and we predict for him a successful career as a jurist and a nomination and election to the office next year.

It is somewhat singular that trusted employes and public officials will begin pilfering from their employers, borrowing a dollar, then ten, then fifty, or a hundred or a thousand; never paying back a penny; falsifying the books, and keeping up this systematic robbery and at the same time going to church and perching superintending Sunday schools, with not the remotest regret for what they are doing. The hair in such men's heads retains its natural color, but when they are found out those ebullient locks turn white in a night, the form becomes feeble, and the man is left himself no more. It is not remorse that wrought these remarkable and sudden changes; it was the apprehension of being found out and the fear of prison cells.

SINCE the introduction of the chemical engine in Shenandoah, purchased by the Rescue Hook & Ladder Company, every town in the region of any prominence has followed the example of Shenandoah and added this important adjunct to their fire department. Pottsville, Allentown, Hazleton and Minersville are among the number, and now Wilkesbarre has come in line. The people of Shenandoah, especially those who have been at the mercy of the flames, fully appreciate the progressive spirit displayed by the Rescue Hook in purchasing the chemical engine. This was shown very plainly at the time of the test, and when a committee of prominent citizens appeared before Council in behalf of an additional appropriation in favor of the company. Shenandoah has the most efficient fire department in the coal regions, and the companies are prompt and ever ready to respond to an alarm.

A MILLION DOLLAR BLAZE.

Fireman Driven Off by Heat at the National Capital. Washington, Sept. 29.—Fire broke out in the central power station of the Capital Traction Company a few minutes before 7 o'clock last night, and in 30 minutes the magnificent six story structure was consumed. The building occupied the entire block from Pennsylvania avenue to C street and from Thirteenth and a Half street to Fourteenth street. The heat was so intense that the firemen were driven from the adjoining streets. When it became evident that no efforts could save the power station the department turned their attention to the adjoining property, but the flames leaped across Fourteenth street and the west end, a big livery stable and then across Thirteenth and a Half street on the east and attacked a row of three story brick houses. So fearful was the heat that the firemen could not get within reach of the burning buildings. They were driven back foot by foot until the streams from the hose pipes could not reach the fire. The entire fire department was on the scene, but so fierce was the conflagration that their efforts were futile.

The power house was built four years ago. It was six stories in height, and besides containing the power plant of the Capital Traction company, was occupied by dozens of offices. The walls began to fall by 12 o'clock, and with the decreasing heat the men were enabled to get to work on adjoining property. Several houses, however, were gutted. At this hour it is impossible to state the loss. Approximately it will be about \$1,000,000 on the building, about \$200,000 on machinery and fixtures, and while the loss sustained by tenants will amount to \$250,000 more, making the total damage \$1,500,000.

War Vessels Commanded, Three Voted. Plymouth, England, Sept. 30.—The torpedo boat destroyers Lynx and Thrasher were commanded yesterday during a fog on Dealman's Point. The Thrasher broke in two, and it is expected the Lynx will do the same. Three stokers were killed and two stokers injured by the bursting of a steam pipe on board the Thrasher shortly after she grounded. The crews of both vessels were taken off.

No man or woman can enjoy life or accomplish much in this world without suffering from a torpid liver. Dr. Witt's Little Early Remedy, the pills that cleanse that organ.

Belgium now Announced. Halifax, N. S., Sept. 30.—The arrangement between the Belgian non-commissioned and the part of the United States and the commissioner on the part of Canada paid a high compliment to all connected with the case. The latter expressed the opinion that the conference would mark a long step forward in advancing in the matter of international arbitration.

The Amceer's Royalty. Simla, Sept. 30.—The Afridi and Orakzai deputations, which started for Calcutta to solicit the help of the ameer, were rudely rebuffed at Jalandhar, where the Afghan officials turned the deputation back and refused its request for ammunition. This plain intimation from Abdur Rahman that he is resolved not to assist the tribesmen is a most striking proof of his loyalty to the treaties. The Muhalls have already included the tribesmen with stories promising the ameer's support, and the tribal leaders are only now learning the truth.

Two long sessions yesterday were devoted to papers on irrigation topics and discussion. The feature of the afternoon session was an address by Hon. W. J. Bryan. He said he was opposed to turning over large bodies of land to corporations controlled by water rights holders. Two long sessions thrown around the transaction to protect small holders of irrigable lands.

Woman's Protector

The greatest protection for women is Dr. David Kennedy's Favorite Remedy. No woman can be weak very long after she takes it. Disease must yield irregularly which it will not relieve and cure. There is no pain or ache peculiar to women which it will not drive away. Mrs. D. Ackerly, 265 Varick St., Jersey City, says: "Oh, how I wish I could speak personally with every woman who is in any way troubled with illness common to our sex, for I would advise them to use at once Dr. David Kennedy's Favorite Remedy and be cured, for my case was abandoned by the physicians." \$1.00 A BOTTLE.

General Harrison in New York. New York, Sept. 30.—Ex-President Harrison, Mrs. Harrison and their infant daughter arrived in New York last night from the Catalinas, and went to the Fifth Avenue hotel. An effort will be made to get General Harrison to open the Republican municipal campaign at a mass meeting to be held about Oct. 12.

The "Honeydew's Best Friend" is a familiar name for DeWitt's Witch Hazel Salve, always ready for emergencies. While a specific for piles, it also instantly relieves and cures eczema, bruises, salt rheum, eczema, and all affections of the skin. It never fails. C. H. Hagenbach.

HOMEWARD BOUND.

The President and His Party Leave Massachusetts For Washington. North Adams, Mass., Sept. 30.—The presidential party said good-by to Adams last night. Two bands furnished music and about 2,000 people witnessed their departure. The special train was backed down the track to a point in front of the Plummer residence at 9 o'clock, and in a few seconds the party had boarded it. When President and Mrs. McKinley appeared they were wildly cheered. In less than a minute the party was on board and the train moved on. President McKinley standing on the platform, his hat off, bowing his farewell to the people. The party consisted of President and Mrs. McKinley, Miss Mabel McKinley, Attorney General and Miss McKenna, Clerk George Cortelyou, Steward Sinclair and two maids.

The train was run over the Boston and Albany tracks to North Adams, where it was switched to the Fitchburg road and continued over the Fitchburg to Troy, going via the West Shore route to Jersey City and Washington. The party expect to arrive in Washington early this afternoon, the trip being timed to suit the president and the convenience of the passengers. When the train pulled into North Adams there were several hundred people waiting at the depot. The president bowed his acknowledgment of the cheers through the car window, and was finally forced to go out on the car platform and shake hands with the people. No stop was made between Williamstown and Troy.

Sent to Prison for a Month. Berlin, Sept. 30.—Herr Stadagen, a Socialist member of the reichstag, has been sentenced to six weeks' imprisonment for libeling Colonel Windheim, police president of Berlin. Herr Stadagen coupled Colonel Windheim's name with that of Baron von Luttwak, sentenced last June to two months' imprisonment for defrauding the imperial army service fund.

"You can rest assured that I have not committed myself against annexation. I do not care what you hear to the contrary, no man can say that I am pledged against annexation of the islands to the United States. I am here for pleasure, and to see and learn all I possibly can during the short period of my stay. I can truthfully say that I am greatly impressed with my trip to Hawaii."

Congressman Berry talked freely. He said: "I was favorable to political union before I came here, and my visit has only strengthened me in my position. I am confident that annexation will come during the next session of congress. The Hawaiian Islands will be annexed in some manner."

Congressman Loudenslager was non-committal when interviewed. It is understood that he favors annexation. He said: "Not being on American soil, I would prefer not to talk on the subject. You will hear very shortly how I feel about the matter, for I intend to ventilate my views when I return home. I can say that I am favorably impressed with the American colony in Hawaii. They are intelligent and law abiding, and are worthy of their flag and country."

It is asserted in Honolulu that when the question of the annexation of the Hawaiian Islands comes before the United States senate England will make a protest. This protest will not be of a belligerent nature, and it is alleged is only the forerunner of a scheme to obtain control of Necker Island for cable purposes. For some time past English war vessels have been sailing islands in the Pacific, but have kept their hands off Hawaiian territory.

In May, 1894, President Dole had reason to believe that England had her eyes on Necker Island. He acted promptly, and on the 25th of May a vessel was chartered and sailed the same day for the island. Captain J. A. King, the minister of the interior, was in charge of the expedition. The island was reached two days later and proclaimed war was declared. The possession of the island in the name of the provisional government of Hawaii. Both the United States and Hawaiian governments know positively that England does not object to the annexation of the island. But she must have a cable landing near Honolulu, and the landing must be on British soil. Necker Island is practically worthless to Hawaii, and it is believed that this government will readily cede the barren rock to please England.

People who fail to look after their health are like the carpenter who neglects to sharpen his tools. People are not apt to get anxious about their health soon enough. If you are "not quite well" or "half sick" have you ever thought that your kidneys may be the cause of your sickness?

It is easy to tell by getting a sediment or settling indicator an unhealthy condition of the kidneys. When urine stands lines it is evidence of kidney trouble. Two frequent desire to urinate, scanty supply, pain or dull ache in the back is also convincing proof that the kidneys and bladder are out of order.

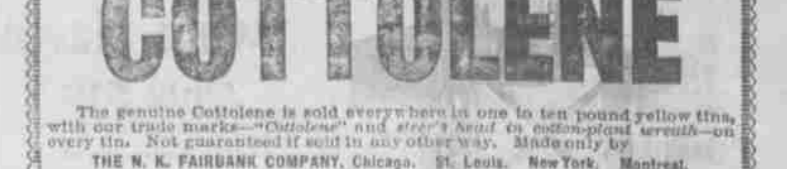

There is satisfaction in knowing that the great remedy Dr. Kilmer's Swamp-Root, fulfills every wish in relieving weak or diseased kidneys and all forms of bladder and urinary troubles. Not only does Swamp-Root give new life and activity to the kidneys—the cause of trouble, but by treating the kidneys it acts as a tonic for the entire constitution. If you need a medicine take Swamp-Root—it cures. Sold by druggists, price fifty cents and one dollar, or by sending your address and the name of this paper to Dr. Kilmer & Co., Binghamton, N. Y., you may have a sample bottle of this great discovery sent to you free by mail.

New Jersey's Special Election. Trenton, Sept. 30.—The latest revised returns and estimates this morning indicate that the anti-gambling amendment to the state constitution has been beaten by from 5,996 to 10,990. The amendment giving women the right to vote at school elections is beaten worse than the anti-gambling amendment, while the ad interim appointment amendment is probably defeated by a close margin.
