A TEACHER in the Cambridge University may, after a service of ten years, take a year's holiday for either travel or study, and receive full salary during the absence, although a substitute will have to be paid from that sum.

THE Taxpayers Association's investigation of the out-door relief has brought to the surface many on the list shown to be either dead or removed from the district, while a large number are recommended to be dropped.

TO-DAY is the anniversary of the discovery of America by Christopher Columbus. He discovered the island of San Salvador on Friday, October 12, 1492. He died May 20, 1506, in Seville, aged 70 years. He was first buried in Valladolid, Spain; afterwards removed to the cathedral in San Domingo in 1536, but in 1795 his bones were removed to Havana, in Cuba.

GOLD from abroad is coming in quite freely. We hear no more about a deficit or of an issue of gold bonds to meet it. In point of fact, there is more gold in hand at present, with more in sight, than we can find immediate use for.

It is probable that Schuykill county will get at least one political plum from the present administration. John F. Finney, of the Miners' Journal, according to the Philadelphia papers is now in the lead for the Naval Office. Yesterday's Record, commenting upon the subject, has this to say: "For the office of Naval Officer the leading candidates are John Finney, the Quay leader of Schuykill county, and ex-District Attorney James B. Holland, of Montgomery county. There are many who are inclined to think that Mr. Finney has the better chance of securing the office, not only because it is believed that he will control the eight delegates from Schuykill county to the next state convention, but it is argued, by the securing for Senator H. D. Saylor of a foreign mission, as is anticipated, Montgomery county will not be so much entitled to a prominent Federal place here as Schuykill county would be."

LORD KELVIN AT PRINCETON.

The eminent Scotch Scientist Entertained by President Patton. Princeton, N. J., Oct. 12.—Lord Kelvin, the eminent scientist of Glasgow, and Lady Kelvin, were the guests yesterday of President and Mrs. Patton, of Princeton University. During the afternoon an informal reception was tendered to them by Philadelphia and Princeton people prominent in society. The university conferred an honorary degree upon Lord Kelvin at the sesqui-centennial last fall, on the same day when Grover Cleveland was made doctor of laws, but owing to Lord Kelvin's inability to be present the degree was conferred in absentia. The distinguished visitors left for Philadelphia last night.

WILL TAKE GEORGE'S SEAT. Senator-Elect Money Appointed For the Unexpired Term. Jackson, Miss., Oct. 12.—Governor McLaughlin wired the newspapers last night from his home in Brandon that he had appointed Senator-elect Hernando DeSoto Money as United States senator to fill the vacancy caused by the death of the late Senator J. Z. George, whose term expires in 1898. Senator George, before his death having declined to again become a candidate, the last legislature, after a long deadlock, elected Mr. Money for the regular term.

Mr. Money represented the Fourth district of Mississippi in the lower house of congress in the Forty-fourth, Forty-fifth, Forty-sixth, Forty-seventh, Forty-eighth, Fifty-third and Fifty-fourth congresses. In accordance with the practice of the Mississippi legislature of electing a senatorial successor two years before the term begins, Mr. Money, at the last meeting of the legislature was chosen to succeed Senator George for the term beginning March 4, 1898. Mr. Money has been in Washington during a greater part of the summer under treatment for an affection of the eyes. He has greatly improved, and expects to leave the capital for his Mississippi home in a few days.

NUGGETS OF NEWS. A man was found dead in Dawson City with \$30,000 worth of dust under his pillow.

Judge Wilson, Thompson and Bisell, of the Colorado court of appeals, vigorously denounced "government by injunction."

Burglars broke into the Canadian gold commissioner's cabin at Dawson and stole between \$5,000 and \$4,000 in nuggets and dust.

City Marshal William Burko, of Antioch, Ill., was accidentally killed by Deputy State Game Warden Kelley while hunting for ducks.

Sixteen-year-old Mary Miller, of Van Nest, N. Y., killed herself with carbolic acid because her stepmother reproved her for staying out late at night.

At Raleigh, N. C., last night Albert L. Watson, a mechanic, shot and probably fatally injured his bride of six months, and then killed himself.

At Orlan's Station, O., a hardcar carrying nine men jumped from a trestle 45 feet high. John Whiteacre and George Gadd were killed and four others injured.

A bull fight took place at Lilla, in northern France, Sunday afternoon, and was attended by 20,000 spectators, who seemed to greatly enjoy the brutal Spanish pastime.

WHAT IS YOUR TRADE? Each Trade or Occupation Has Its Special Disease.

It is well known among medical men that certain diseases are more readily developed in certain occupations than in others. That such occupations has its attended physical weakness. Engineers, railroad men and similar occupations suffer mostly from kidney troubles and men who are often exposed to the weather suffer from rheumatism, while clerks and professional men, in fact the army of people whose business keeps them indoors, are oftentimes great sufferers from piles and constipation. In this connection the following letter is of interest to people whose occupation will not allow sufficient outdoor exercise.

Mr. A. F. Calhoun, notary public and jeweler and watchmaker of Cicleville, W. Va., writes as follows: "I had been a severe sufferer from piles for years and had tried many remedies with little benefit, when about three years ago I saw the Pyramid Pile Cure advertised and sent for it."

"I was badly afflicted when I got them, but after only two applications the piles disappeared and from that day to this I have never felt a symptom of the disease. I feel that I cannot recommend them too highly to sufferers from piles."

The Pyramid Pile Cure is free from cocaine, opium or any mineral poison, absolutely safe, pleasant and painless; sold by druggists at 50 cents per package. If there is any constipation the Pyramid Pills should be used with the pile cure. The pills are 25 cents per package.

Any druggist will tell you that the Pyramid is the best known and most successful and popular pile cure ever placed on the market and its reputation as a safe and radical cure has only resulted from the personal recommendation of people who have been cured of this distressing ailment.

Send in Pyramid Co., Albion, Mich., for valuable little book on cause and cure of piles.

NO EXCUSE FOR IT.

Deaths occur every day for which there is no excuse. The lives of loved ones go out needlessly. In the graveyards are thousands of bodies that ought not to be there. Death comes and conquers when it could be driven away.

Dr. David Kennedy's Favorite Remedy has stayed the hand of death in cases without number. There are people dying this minute who would heat the undertaker if they could only have been induced to try this great medicine.

Dr. David Kennedy's Favorite Remedy makes the whole body well. It purifies the blood, and cures scapulae, salt rheum, eczema, ulcers, rheumatism. It regulates the bowels, and cures all curable forms of indigestion. It is a tonic and builds up the system. It is the most certain cure for all the ailments of the body.

RIOTING IN ROME. One of the Mob Killed and Three Police-men Seriously Injured. Rome, Oct. 12.—A large procession of tradesmen, headed by the pro-syndic of Rome and the president of the chamber of commerce, marched to the office of the minister of the interior yesterday afternoon to protest against an order issued by the government regarding the increased taxation. Premier Rudini, who is also minister of the interior, received a committee representing the tradesmen, and promised that all possible would be done to promote friendly relations and greater equity between the tax collectors and the taxpayers.

In the meanwhile a large crowd of people had collected around the ministry, angry shouts were heard, and some of those present tore up paving stones and otherwise assumed a threatening attitude. This caused the police to make an attempt to disperse the violent portion of the crowd, and in the conflict which followed six policemen were injured and one rioter killed. The mob raised revolutionary cries, while the fighting was in progress, revolvers were freely used, many persons in the crowd were injured, and 24 of the leaders of the disturbance were arrested. The condition of three of the wounded policemen is serious. The prefect of police has ordered the dissolution of the Roman Socialist union.

Death in a Lightning Flash. Winston, N. C., Oct. 12.—A most distressing tragedy occurred at Union Ridge church, situated about two miles south of here, Sunday night. T. P. Huntman, with his wife, drove up to the church in a wagon to attend a Quaker meeting which has been in progress here about three weeks. As Mrs. Huntman was alighting a bolt of lightning struck a tree, giving her such a severe shock that she died an hour afterwards. Many others were seriously injured and are not expected to live. Many women fainted, and the people were in a high state of excitement all night.

WHAT IT INDICATES. Nothing so interferes with one's plans or ambition like sickness or poor health. Have you ever thought that your kidneys may be the cause of your sickness? You can easily find out by using Doan's Backache Kidney Pills. They are a sure and certain remedy for all kidney troubles, and will cure you in twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

It is a source of comfort to know that Dr. Kilmer's Swamp-Root is the great remedy for all kidney and bladder complaints. It relieves pain, stings or dull aching in the back, difficult or painful urination, frequent desire to urinate, swelling or pain in passing it, and quickly overcomes that unpleasant necessity of being compelled to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. Its action is gentle, yet immediate, the relief speedy and the cures permanent. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Coming Events. Oct. 22.—Entertainment and soiree under the auspices of the M. E. church choir. Nov. 25.—Thanksgiving dinner to be given by All Saints' Protestant Episcopal church, corner West and Oak streets. Nov. 2.—Annual supper under auspices of Ladies' Aid Society of the Calvary Baptist church, in Robbins' opera house. Nov. 5.—Peppercot Social, under the auspices of Ladies Aid of the M. E. church, in the church basement. Nov. 17.—Annual supper, under the auspices of the Trinity Reformed church, in Robbins' opera house.

Just try a 10c box of Cascarets, the finest liver and bowel regulator ever made. Buffalo's Saloon Burglars Captured. Buffalo, Oct. 12.—Buffalo's long and short men came to grief while trying to hold up the bartender in Emory Trout's saloon, in Columbia park. The two robbers made successful raids on two saloons on Saturday last, and the police were watching for them closely. They entered Trout's saloon late yesterday afternoon, and covering the bartender with a revolver, they took the contents of the cash register. Some one passing the place noticed the hold up and notified the nearest police station and policemen were quickly in pursuit, and ran the men down.

Fugitive Bank Teller Captured. Halifax, N. S., Oct. 12.—Willis A. Trask, the fugitive teller of the First National bank of Wallingford, Conn., was arrested here yesterday afternoon. Trask's embezzlements are said to amount to \$30,000.

Wales and Lady Romney. Wales gets buffy with women on account of the slightest trifles. Though on the most familiar terms with them, he will turn them down remorselessly. It is a shame that he should possess the power. How is an instance: One night he was talking to Lady Romney, who has a beautiful blue eye, and he said, "that Lord Romney has a nickname. What is it?" Instead of answering the question, Lady Romney said, "Sir, I hear that you are called 'Tummy.' Is it true?" Without a word he turned with a scowl and walked away, leaving her an object of rude attention.—New York Press.

REPORTING TRIALS.

POSITIONS THAT DEMAND THE BEST SHORTHAND WRITERS.

To Do Good Work the Stenographer Must Know Something of the Case In Advance—Grave Responsibility That Accompany the Employment.

There are thousands of shorthand writers, but of first-class, gilt edged stenographers who can go into court and report a trial with accuracy and a thorough understanding of the situation the number will not exceed a score. Out of those there is one woman who is thoroughly competent.

As a musician who aspires to be called such should be able to read at sight and play any music that may be set before him, so the first class stenographer should be and is capable of following literally the speech of the most rapid talker and can read his notes afterward at a signboard. In court work there is much that makes the work partake of a technical nature. The law terms, the peculiar phraseology of the courts, is something which it takes years for men to familiarize themselves with, and a great many of the lawyers are men who pour out a perfect torrent of words in their arguments to the court or jury.

The first thing that a stenographer must do when he starts in to report a case is to get the theory of both sides as to the case. Often one stenographer is engaged to take the case for both sides, and he must familiarize himself with the case from the different standpoints in order to report the case intelligently. It is not merely manual dexterity that is required. There must be quickness of apprehension to a marked degree and an unwary and keen attention paid to the case in all its details.

In taking down what goes on there is considerable that should be omitted from the proceedings, and this is where the stenographer's judgment comes into play. The lawyers do not wish to have the record lumbered up with the little side remarks of witnesses or interpolations of the court, and yet they do not want anything omitted on which a possible objection could hang.

A judge may make a remark which does not have any particular significance in a trial, and a witness is apt to follow up an answer by a subsequent qualification which may have much to do with the matter in hand. The wary stenographer and the good one separate what is from the chaff, and what is relevant and important be sets down. What is immaterial he ignores. Of course in the evidence he takes the questions and answers literally. And in the taking of the testimony he must always be on the alert, for here the lawyers may get into a dispute as to what a witness said in regard to some other point in the testimony, and it may be necessary to go back several pages to find out the truth of the matter. This the stenographer must be able to do without the slightest hesitation, remembering just about in the testimony the matter came up and reading the notes without the slightest hesitation or inaccuracy. Perceptive faculties of a high order are necessary to the success of a stenographer and an active brain and excellent memory.

Given the intellectual foundation to begin with, and it is possible for a man to become a fairly good shorthand writer in five or six years. Constant practice is necessary to keep in trim for court work, and in spite of the fact that so much legal business is done, the demand for experts is always in excess of the supply.

The court stenographer's work is coupled with not only a sense of great responsibility, but a very high degree of confidence is of necessity placed in him by the men who employ his services. The appealing of cases to the appellate and supreme courts, necessitating the working over of all the evidence and the arguments in the case, must depend, as far as the ground for argument and the true status of the case is concerned, on the stenographic reports. It is one of the professions where the hand and the brain combine to produce results, and the first class expert is more truly born than made.

It is one thing to be able to write down the report of a trial and quite another thing to dictate correctly from the stenographic notes to a typewriter. Some men are only fair at reporting a trial, but get out excellent transcripts of the evidence, while others are "chain lightning" at the trial, but uncertain when they get back to their offices and commence to make copy. The case handled expert will take a trial, put away the report for six weeks and then take the shorthand books and read off the contents without a break as fast as a typewriting operative can drum it off on the machine.

A great deal of work is done at night by the shorthand notes. So much of what is taken down at a trial on one day is needed on the succeeding day that the lawyers generally keep up with the evidence as it is brought out, and this keeps the shorthand people on the move. Work in the courts is done at a high tension of the nerves and brain, and not an instant is the stenographer's mind permitted to indulge in day dreams, for any form of mental "wool gathering" would be fatal to faithful work. Concentration is an indispensable requisite to success.—Chicago Chronicle.

REV. W. T. HOUCK, the talented pastor of Grace O. C. church, Carlisle, Pa., writes September 28, 1895: "I always enjoyed good health until 1892, at which time my duties as a clergyman were of a peculiarly trying nature, subjecting me to several severe nervous attacks which together with overwork and anxiety, impaired my general health and nervous system. Indeed I was in such a condition that the mere sight of a large congregation so wearied me that it would require a day or more for me to recover from the exhaustion. It afforded me great pleasure to say that Dr. Miles' Restorative Nervine and Restorative Tonic have done me untold good. THURICE WELCOME RAIN. The Severest Drought of Which There is Official Record. Chicago, Oct. 12.—The drought just broken has for severity and wide area of country affected never been equalled in the period covered by any reliable record in the country. Crops have suffered, fruit has been blasted, fires have leaped up as if from spontaneous combustion in field and woodland, and every moment of the time since the middle of August has been crowded with danger to cities. Farmers have been hauling water for their stock, even buying the fluid in many sections of the country. Many small towns throughout the country have suffered severely from fire.

Conservative estimates place the reduction in average winter wheat at 25 per cent. Thousands of acres throughout the affected district have not even been plowed, the ground being in such a condition as to render farm work next to impossible. To stock raisers the rain is a Godsend. Pastures which have been dried up for weeks will be available once more. In many localities it has been necessary to feed stock for two or three weeks past.

A Shortage of \$500,000. Chicago, Oct. 12.—Judge Haney yesterday appointed Joseph W. Suddard and Arthur Walsh permanent receivers for the Mechanics and Traders' Savings, Loan and Building association, for which temporary receivers were appointed last July. A rather startling state of affairs was disclosed when the report of Expert Bard was made. According to this report Secretary Charles G. French owes the association about \$460,000. French is supposed to be in Colorado.
