The essential features of Mr. Sher-man's reply have been sent by cable

to the British government, and the re-ply in full is now on its way to the British authorities. Lord Salisbury's note of declination, it can now be stated, bore date of Oct. 6, last Wed-

The answer states that the United States government views with aston-ishment the determination of Great

Britain not to participate in a conference including Russia and Japan,

and the statement is made that up to the 23d of last month the United States

authorities had fully expected that the conference would proceed with Russia and Japan as well as Great Britain present. It is pointed out that, aside

from the written correspondence to which Lord Salisbury had called at-

tention, there were verbal negotiations between Ambassador Hay and his lord-

Besides the foregoing reply, and in view of the differences that have arisen,

the state department suggests a con-ference in accordance with the terms of

Lord Salisbury's agreement as he con-strues it, namely, between experts of Great Britain, the United States and Canada. This last feature is now under

consideration by the British govern-ment, its substance having been trans-

Austin, Tex., Oct. 13.—Last evening at 5:30 o'clock, in broad open daylight. and within 12 miles of the corporate limits of this city, a southbound cannon ball train on the International and Great Northern railroad, consisting of mail, baggage and express cars and three coaches, loaded with passengers, was held up by four men and robbed. The conductor of the train, Tom Healy, was shot by the robbers while resisting them, but fortunately was not seriously wounded. One of the passengers had his shirt collar carried away by a pistol ball that was aimed at his neck, and another received a bullet wound in the hand. The passengers were rebbed of some \$290 in money. The bandits attempted to rifle the safe in the express car, but were unsuccessful. When the train reached McNeill, a small station 14 miles above this city, two men, heavily armed, boarded the

two men, heavily armed, boarded the train and took their stand on the roar platform. After the conductor had checked up the train he reached the platform, only to find a pistol at either side of the back of his head. The men demanded that he stop the train. He declined to do so, and began to run through the train, with the two robbers in close pursuit. He had not gone half the length of the first car when the foremost robber shot at him, bringing him to the floor with a pistol.

After going several miles they set the lever at a moderate gait and left the engine, they scampering into the sur-rounding country. The engine came on to the flag station at Duval and was there captured, and the station agent returned to the scene of the robbery with the engineer, secured the train and came on to this city.
