Opposition to Them in the New York Municipal Campaign.

THE COMING OF MAYOR HARRISON

Opposed by Mr. Sheehan, Colonel Brown and Other Leading Democrats-The O'Brien Democracy Joins the Ranks of the Georgeltes.

New York, Oct. 22.-The announcement that Mayor Harrison, of Chicago, is coming here to speak in behalf of Judge Van Wyck, the Tammany nominee for mayor, is not received with favor even by the Tammany machems.

From the outset the Republicans have been entitled to the Department of the Departme been criticised by the Democratic managers and the leaders and newspaper supporters of the Citizens' Union movement for importing campaign speak-ers, notable among whom were Senators Foraker and Thurston. The ac-ceptance of Mayor Harrison's tender of services is regarded as a stuittifica-tion of the Democratic position on this subject. Colonei William L. Brown gave voice to the dissentient sentiment of Powitt's Witch Hazel Salve. C. H. Hagen-

Richard Croker.

It is believed that Henry George has declined the services of the scores of Populist and silver orators, among them Jerry Simpson and former Sena-tor Peffer, who volunteered to speak for him in New York. George has 300 speakers, nearly all residents of great-

er New York.

The final lining up for the election is advancing to the stage of completion. After some hesitancy and a shifting from one foot to the other the United Democracy, sometimes called the O'Brien Democracy, has decided that its place is with the Jeffersonians, whose mayorally candidate is Henry George. More influential, because more representations of Steeknumerous, is the Manhattan, or Steck-ler Democracy, which has elected to support Seth Low and the other mu-nicipal candidates of the Citizens' Union. The potency of the 29,000 votes which the Steckler brothers claim to have organized and controlled was recognized under the Gilroy-Tammany regime by the appointment of one of Steckler's friends to a city judgeship, while lesser lights in the organization were given more places in the city's

pected that Tammany will suffer by to stand by Low. To what extent the action of the United Democracy will affect the result is subject to much wider conjecture. Its membership and the loyalty to its leaders of that membership are comparatively unknown quantities. Latterly the organization has taken sides with the free silver element in the party, and it was foremost in the demand that Henry George declarations in the demand that Henry George declarations in several to the second declaration of the second declaration declare himself unequivocally in sympathy with the platform adopted at

Chicago last year. Matter for speculation exists upon the question as to the probable extent to which the Republican vote in Brooklyn will be affected by the palpable coldness of some of the old and tried leadness of some of the old and tried leaders of the party there. While there is no open revolt, there is unquestionably as NIAGARA STRICT. SUFFALO, N. Y a coldness among personal adherents of Jacob Worth, whose anti-convention preferences for Low brought about his Sold at Kirlin's drug store. Shenandoah, Pa deposition from leadership. The organization in Brooklyn is in comparatively inexperienced hands. Whether they will be able to hold the yoters in

line can only be known after the bal-lots are counted. The usual large number of meetings in the interest of the various candidates were held last night. One of these was a crowded meeting held in these was a crowded meeting held in Carnegie Hall by the followers of Seth Low. The most remarkable feature of the meeting was the fact that it was not billed as "a Citizens'," but as a Republican meeting, being held under the auspices of the Republican organization (anti-Plait) of the city of New York. York. About one-third of the audience was composed of women. Enthusiasm fairly bubbled over, and when the familiar features of Mayor Strong ap-peared at the bottom of the stairway leading to the stage the whole house stood up and cheered. Immediately hehind the mayor came the familiar features of Seth Low. The first gimpse of the candidate set the house wild. Women scrambled up into their seats and waved their handkerchiefs and fairly shyriced with delight. The and fairly shricked with delight. The enthusiasm, mad as it was, verged close to the point of the indescribable when mayor, the candidate, General Wager Swayns, Joseph H. Choate, Root and General Auson G. Mc-Cook stood in the center of the stage.

Stands at the Head. Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. One of the most encouraging features of a cure made by S.S.S. (Swift's Specific) is its permanency. Of all diseases, it is well known that those of the blood are the most obstinate, and therefore the most difficult to cure. The medical profession, in fact, have virtually admitted that a real, deepmeated blood disease is beyond their skill.

Of course, their admission is not made in so many words, but actions speak louder than words, and their inability to cure, after months and often years of treatment, is sufficient evidence that diseases of the blood carnot be cured by doctors. Their mercurial mixtures, although taken faithfully, only cover up the symptoms of the disease, inducing the ration to desire the disease. the patient to feel that he is being cured but when he is sooner or later seized with stiff joints, pain in the bones, etc., the evidence of the doctor's patchwork is conclusive. Such results cannot be exis conclusive. Such results cannot be expected from the use of S. S. S. Being purely vegetable, containing no harmful mineral ingredients, it is the only blood remedy which acts on the true principle of forcing the disease from the system, building up rather than tearing down the health. No loss of hair, no stiff joints, no decrepit mercurial wrecks result from the use of S.S.S.

Mr. H. L. Myers, of too Mulberry street, Newark, N. J., made the mistake of relying upon remedies based upon mineral ingredients, and for the hundreds of dollars which he invested received only disappointment in return. He says:

"Before I became convinced that the doctors could do no good I had spent a hundred dollars, which was really thrown away. I then tried vari-ous patent medicines, but they did not reach the disease. When I had finished my first bottle of S.S.S., I was greatly improved and was delighted with the
