Spain Will Get Along Without Uncle Sam's Help.

THE SITUATION NOW ORITICAL

According to the Views of Spanish Newspapers, Which Unantmously Support the Government's Attitude. Proposed Home Rule For Cuba.

Madrid, Oct. 28 .- In the special note to United States Minister Woodford, the government declares that Spain has done all in her power to end the war in Cuba and cites many sacrifices which have been made by the nation, the number of troops sent to Cuba and the reforms which are to be carried out in the Island, which are fully described. The note ends with the statement that foreign power to interfere in any of her

There is no doubt that the government's reply will represent the deep feeling of the nation. The note dwells at length on fillbustering and "other material and moral assistance which has chiefly contributed to the rise and duration of the rebellion, and which in turn has damaged American interests."

It clearly intimates that Spain cannot continue the "forbearance shows by Senor Canovas del Castillo and the Duke of Tetuan during the past two years," and that she now calls upon the American government to "fulfill more strictly in the future the rules of international law," because "the success of the new home rule policy and the speedy pacification of Cuba chiefly depend upon the conduct of the United

The Spanish press unanimously supports the stiltude of the government, which it calls eminently sober and dignified, but the impression is that the controversy with the United States has reached a critical stage which may be the prelude to a rupture. Three members of the cabinet who were interbers of the caonet who were inter-viewed contended that Spain has the right, after her tremendous sacrifices in Cuba, to demand the observance of in-ternational neutrality by other nations. One of them added: "The gordian knot is the United States, without whose help the rebellion would long ago have been suppressed. We do not want war, but every European nation will approve our defence of our international rights.

The Spanish naval forces in the Caribbean sea will be strengthened on the pretext of a necessity for increased vigilance on the Cuban coast.

General Weyler has cabled a denial of the report that Mr. Hughes, the correspondent of Black and White, was robbed. He says Hughes died of syncope and appeals to the testimony of the British consul at Havana for proof

According to a dispatch from Ha vana, Lieutenant General Weyler has ordered the abandonment of demonstrations that were being prepared there in his favor and against the gov-

Mrs. Woodford, the wife of the United States minister, has arrived here. General Woodford has not yet taken an official residence, but will continue to occupy apartments at the Hotel De

Rome.

A member of the cabinet declares that the government intends to give Cuba complete local government, with universal suffrage to elect municipal and provincial councils, and an insular parliament. The latter will be composed of upper and lower chambers, having entire control of taxation and tariff. The responsible government will be composed of five ministers, whose councils will be presided over by the governor general.

Senators and deputies for Cuba will we will sell reasonable. continue to sit in the Spanish cortes, and the imperial government will still control the army, navy, police, tribunals and foreign affairs of the colony, exactly as the program of the auhas received promise of the support of both the autonomists in Cuba and of those residing in France and the United States, and expects no opposition from the other colonial parties

The same minister says that the gov-ernment does not believe the Spanish note will cause friction with the United States, because it is couched in a friendly tone and virtually shows that friendly tone and virtually shows that Spain is doing what the United States DAVID FAUST, 120 South Jardin S has repeatedly advised.

No wonder women werp. The wonder is that they are not oftener in tears for all they have to bear and suffer; and the suddest thing about it is how little their sufferings are understood. Even the doctor, nine times in ten says; "Oh, a little nervousness, that all "or "neuralgia," or "insomnia," or "dyspepska." If he suspects the real-cranse he insists upon examinations and local treatment,—about the very worst thing possible to a nervous, overwrought woman. There is no need of these repagnant methods. Any woman may insure health and strength in a womanly way by the nse of Dr. Pierce's Pavorite Prescription. It cures the weaknesses and diseases of the feminine organism absolutely and completely. It was devised for this special purpose by one of the most eminent and experienced physicians in this country; an expert specialist in women's diseases.

For nearly to years Dr. Pierce has been chief consulting physician of the Invalidation and Surgical Institute, Buffalo, N. Y. Any woman may consult him by letter, free of charge. Her letter will be answered not by a mere nurse or unedicated, unscientific person, but by the most competent medical authority anywhere obtainable.

All women should read Dr. Pierce's thomand-page illustrated book, "The People's Common Sense Medical Adviser." It contains more clear and comprehensive advice on medical authority anywhere obtainable.

houses, and is said to be the largest log cabin town in the world.

John F. Miller says there will not necessarily be starvation, but certainly miners will suffer from privations. Five hundred men intend to come down the river, but that is closed and they cannot get out. There is no doubt that the people of Dawson have been alive

to the situation for six weeks.
"Our leaving," says Sims, "was the beginning of a stampede for grub. Transportation companies at St. Michaels and Fort Yukon claim the liquor traffic has no appreciable effect on the supply of provisions. Not more than 30 Graduate and Late Resident House Surgers of tons of liquor, they say, has gone into the University State of N. Y. the country. With the blockade of the Yukon every possibility vanishes of treasure by the steamer Portland. No gold will come out this year. There is any amount of gold at Dawson. It is not unusual to see horses loaded with dust But the mines are owned by men. dust. But the mines are owned by men who know their value. One sees it on every hand. It seems plentiful, but you must remember it is more plentiful in the United States treasury, and is just as hard to get. People who flock to the mines expecting to pick up gold in the grass roots do not realize what they are up against."

There is no doubt that a large amount of treasure will come from the Yukon basin next year if the miners can get enough to eat to continue mining during the winter. Gold sent out early this year will not be a circumstance to next oring's output of the sluice boxes. Miller says nothing of considerable stance, for 12 miles above the mouth Henderson, Dominion and Victoria Guich Henderson creek is 12 miles above Stewart river and Victoria Guich Henderson Creek is 12 miles above Stewart river.

More than half of the food in the warehouses has been sold, but the company refuses to distribute, although it is paid for, until it is learned for certain whether more provisions will be brought up the river. In case no more arrives the entire stock will be rationed among the residents, to prevent possible starvation. There has vation vet, but there will arely be a shortner. People are leav-agedally.
