Service Cut Off. Atlantic City, Oct. 26.—The northeast storm still prevailing is probably the most severe in many years. In point of high tides it has not been equalled, it is stated, since 1844. The damage storm of 1889, but if it does not abate soon it promises to exceed it. The principal damage accomplished has been by the wind. It blew over at least three houses in course of erection and a row of two more is threatened.

At the inlet a section of the yacht-men's wharf was carried away by the breakers pounding against it, also one end of John Mehrer's Inlet pavilion. Bolton Parsons' houses, on Grammercy Place, nearly completed, were blown over, while two brick houses owned by the Moore Brothers were laid low.

The three railroad beds have been washed out for a considerable distance, thus shutting the city out of train service either way. The tracks of the Philadelphia and Reading railroad were picked up by the surging waters and carried up against the telegraph poles, a distance of about ten feet.

At Chelsen about six squares of boardwalk were washed away and sev-eral valuable bulkheads were wrocked.
