The Republicans have made a gain in the United States Senate by the elections of 1907, and that is where their policies must need votes.

The Capitol Commission having been sustained by the Supreme Court, the work of erecting the new capitol building will proceed without hindrance.

When you are in a tight place trying to vindicate the honor your neighbors believe you lack, all swearing will occasionally impose upon a jury.

The prospect is that the government will get the whole amount due on the Kansas Pacific Railroad in spite of the mischief-makers who invent a new sensation daily.

Foreign newspapers are severe on the voters of Greater New York. They should not forget that New York has more voters of European birth than any other distant city in the world.

Your advertisement works twenty-four hours a day. It works while you sleep. If it is a good one, inserted in a widely circulated paper, it will make money for you while you build up your health for another day.

An exchange thinks that an advertisement placed where it doesn't bring results is clear away price.

And, conversely, an advertisement placed where it brings results in throngs must be worth its cost many times over.

A Millionaire's Revolt. No assay of the period upon the career of wealth is as full of significant points as the will of the late Mr. Pullman, says the Globe-Democrat.

NOT ALWAYS UNDERSTOOD

A fact often overlooked, or not always understood, is that women suffer as much from diseased kidney and bladder troubles as men. The womb is situated back and very close to the bladder, and for that reason any disease, disease or inconvenience manifest in the kidneys, back, bladder or urinary passages is often, by mistake, attributed to female weakness or womb trouble of some sort.

The error is easily made and may be as easily avoided by setting aside for twenty-four hours, a sediment or settling is evidence that your kidneys and bladder need doctoring. If you feel pain or dull aching in the back, your water is frequently, or scanty supply, with smarting or burning, these are also convincing proofs of kidney trouble. If you have doctored without benefit, try Dr. Kilmer's Swamp-Root, the great kidney remedy. The mild and the extraordinary effect will surprise you. It stands the highest for its wonderful cures. If you take a medicine you should take the best. A druggist fifty cents and one dollar. You may have a simple bottle and pamphlet, both sent free by mail. Mention HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

FORTUNE FOR BAKER HEIRS.

Four Million Dollars Said to Be Located in Philadelphia. Pittsburgh, Nov. 11.—The Commercial Gazette reports the following: "The attorneys for the Baker heirs have discovered, they claim, a fortune in the neighborhood of \$4,000,000. The money had been invested in a Philadelphia institution, and proceedings will be begun immediately to get possession. When the attorneys representing the Baker heirs' association of western Pennsylvania and eastern Ohio went to Philadelphia they had nothing to go on. It was discovered that Jacob and John Baker, presumed to have been brothers, had invested certain money in the year of 1832 in Philadelphia and afterwards died. The heirs of the man could not be located. The money that had been invested was paid into a trust in the early part of this century.

"Since that time these persons have been at work and new information has been received which leads the attorneys here to think that there can be no possible doubt about it now. The attorneys have secured it out generally, and are now in the hands of the court. The amount is \$4,000,000. The 20 year lease has been broken up. The money, so far as is discovered, has not been paid, and the estate, in which this \$4,000,000 is located, has never been settled in the courts of Philadelphia. The Association of Baker heirs are anxious. In this part of Pennsylvania there are in the neighborhood of 15 associations of Baker heirs.

CAPITOL COMMISSION WINS.

The Courts Cannot Interfere With the Pennsylvania Building. Pittsburgh, Nov. 11.—The supreme court yesterday handed down its decision in the noted state capitol commission cases, affirming the decision of the lower courts in dismissing bills in equity filed by the architects whose designs had been rejected by the board of commissioners provided for by the legislature to select designs and plans for a new capitol building. This decision defeats the effort made to set aside the award of the commission.

Justice Mitchell handed down the opinion, which is in brief as follows: Complainants have shown no interest in the subject matter entitling them to the relief. The complainants violated the terms of the competition, and were therefore not entitled to the selection. The action of the commissioners complained of was not illegal, but was justified in the terms of the program. Even if the action of the commissioners had been in disregard of the program, they could not themselves to delegate their discretion or limit their final judgment. The state being the real party in interest as defendant, and its officers not being alleged to be acting in good faith, the courts are without jurisdiction.

Changed His Wife With Murder.

Canton, N. Y., Nov. 11.—M. McCooker, of 200 E. 10th street, who was admitted to the Cooper hospital Tuesday night, suffering from a bullet wound in the abdomen, which he said, had been inflicted by his wife, died yesterday. McCooker's attorney's statement differs from the story told by his wife. He said that he accused his wife with improper actions, and during the quarrel that followed she pulled a revolver out of the lining of her dress and shot him. He said she always carried a revolver. Mrs. McCooker declares her husband threatened her with a revolver, and during a struggle for the weapon it was exploded.

Saving Lives.

Doctors declare that cancerous growth cannot be cured. Surgeons say they can cut them out, but that it only postpones the inevitable. The old trouble comes back. The poison is in the blood.

You can't cure it from the outside. Make the blood pure and rich, then the disease can't thrive.

PERU MUST PAY UP.

The McCord Indemnity Must Be Settled With Further Delay. Washington, Nov. 11.—Arbitration is understood that the department of state has addressed another note to the Peruvian minister, Dr. Eguiguren, politely but firmly requesting a speedy settlement of the claim for indemnity of Victor Hecquelin, an American citizen, who was ill treated by the Peruvian officers while in charge of railroads in that country during a rebellion. The present Peruvian minister came to this country with the expressed purpose of settling this claim, and has repeatedly sought to get the state department to reopen the investigation. The department, however, has declined to do this. It is said that nothing now remains but to adjust the sum to be paid McCord, and \$50,000 is mentioned as the proper figure, being about half of the original claim. Moreover, it is believed that no opening is left by the state department for arbitration or anything short of an immediate acknowledgment of the claim and its settlement, at the price of the friendship of the United States government.
