Liver Trouble

When the yellow flag of quarantine is hoisted over a dwelling it means disease and danger. So when the yellow flag flies in the face—when the cheek is sallow and the clear white of the eye is dyed saffron—there is danger. It is liver trouble. The liver is one of the most important organs of the body. On the proper discharge of its functions depend human health and happiness. When the liver fails of its duty, poisons at once begin to generate, and other organs of the body become involved. Never neglect the liver if you value health. If you are suffering from liver trouble, begin at once the use of Ayer's Pills and you will find prompt relief and permanent cure.

"I was so weakened by liver trouble that I could scarcely lift my head. While in this condition I began the use of Ayer's Pills, and finding almost immediate benefit, continued their use until I was cured of my complaint."
H. R. W. BENTLEY,
Towner, N. D.

Mississippi Editor Murders.
Holly Springs, Miss., Nov. 15.—At Ashland, an inland town 25 miles west of here, W. H. Harrison, editor of the Ashland Register, was stabbed to death by J. L. McDonald. The two men had some words about a notice in the paper of an approaching lecture. McDonald charged that he had the order been a Methodist instead of a Baptist the notice would have been more extended. Harrison replied through his paper in a way that incensed McDonald, and the tragedy resulted. McDonald is in jail.

Bishop of Majorca Resigns.
Madrid, Nov. 15.—The bishop of the diocese of Majorca, Beatear Isles, who last September excommunicated Senator J. Navarro Riverter, minister of finance in the cabinet of General Marcello de Azcarraza, for an alleged conversion of church property to government uses, is dead. The act of excommunication above mentioned, with the friction it entailed between ecclesiastical and political authorities, was believed at the time to be a prominent factor in hastening the fall of the Azcarraza ministry, which resigned on Sept. 25 inst.

Oh, How Thankful

Pain Was Gladdening and Hope Had Been Abandoned—Wonderful Results of Purifying the Blood.

"A very severe pain came in my left knee, which grew worse and worse, and finally a sore broke out above the knee. It discharged a great deal and the pain from my thigh down was excruciating. Large, hard, purple spots appeared on my leg. I suffered in this way for years, and gave up all hope of ever being cured. My wife was reading of a case like mine cured by Hood's Sarsaparilla, and she advised me to try it. I began taking it and when I had used a few bottles I found relief from my suffering. Oh, how thankful I am for this relief! I am stronger than I have ever been in my life. I am in the best of health, have a good appetite and am a new man altogether." J. P. MISSING PEOPLE.

The Great Mystery Which Surrounds Their Disappearance and What Becomes of Them.

"Secretly a day passes that we do not read in the newspapers of some man or woman who is reported missing and in the majority of cases these people forsake happy homes without any earthly reason for doing so and their fate often becomes a mystery."

"The cause of these disappearances has excited widespread discussion of late, and some of our best novelists have founded thrilling romances on this strange subject. But no one has yet been able to find an answer to the question, 'What becomes of these missing people?'"

"Perhaps the best explanation of the mystery may be found in the words of a New York physician who is a keen observer. According to his theory, these people are sufferers from various demented maladies from which they gain no relief. Their surroundings eventually become intolerable to them. In their demented imaginations they fancy everybody is an enemy although surrounded by friends. Driven to despair, they at last forsake their homes, and become wanderers on the face of the earth or else—which is very probable—commit suicide."

"Any person who is not in perfect health is liable to meet with this terrible fate. Even those who fancy themselves strong, well and mentally sound may become unhappy, gloomy and despairing. The symptoms of such facts should cause every man and woman to stop, consider and see if he or she is really well. There are so many dreadful diseases that come with the greatest stealth, that show no symptoms but ruin the life even before we know it. The worst of all troubles of this kind arises from uric acid poison, which being in the blood, not only causes rheumatism, neuralgia and sciatica, but often affects the mind or the vital organs. Now, the cause of uric acid in the system or in the blood is because the kidneys are either too weak or too diseased to throw it from the system. When the uric acid is not discharged it remains in the blood, poisons the body and often the mind causes disease and too frequently death."

"Is it not plain and simple then, that in order to avoid moroseness, pain and other troubles that come with this terrible ailment, this uric acid? This can only be done by helping the kidneys, which may have been weakened, to throw it out and that quickly. You, reader, who sense these things, may be in precisely this condition and yet not realize it. But if you are awakened and realize the sense of these great truths, you must be quick to act. The only reliable discovery of the present day that can help you in such a case and that is Warner's Safe Cure. All the columns of this paper could not describe the grateful statements of men and women, not only in America but all over the world, who have been not alone assisted but absolutely cured by the use of this great and scientific remedy. It is pure, and pleasant to take, it produces a prompt and agreeable effect, and it furnishes relief whenever used."

Elevating the Painter.
A Scotch journal says that a certain well known painter went to a seaside village to paint a picture and put up at a small public house. One day while in his room he heard a commotion, and on running down stairs found that the chimney was on fire. Two or three men were trying to put out the flames by sweeping the soot down with brooms, but the blaze was too high to be reached in this manner. Seeing their want of success, the painter caught up a thick mat, ran with it to the roof, and, climbing up the stack of chimneys, placed it on the top of the one that was on fire. His idea was of course, to obstruct the draft. It happened that a heavy breeze was blowing, and as the mat was in danger of being blown off, the artist sat on it to hold it down. He was just comfortably seated when he found himself lifted bodily and landed upon the tiles of the roof. What had happened? That was more than he could imagine till he went down stairs. No one knew that he had gone aloft, and when the landlord saw that sweeping down the soot was ineffective he tried the old fashioned remedy of lighting a charge of gunpowder. This it was that removed, not only the soot, but the mat and the painter.

Oliver Cromwell had the largest brain on record. It weighed a little over 60 ounces, but was found to be diseased.

A Considerable Echo.
At a watering place in the Pyrenees, says a French journal, the conversation at table turned upon a wonderful echo to be heard some distance off on the Franco-Spanish frontier. "It is astonishing," said an inhabitant of Gironne. "As soon as you have spoken you hear distinctly the voice loop from rock to rock, from precipice to precipice, and as it has passed the frontier the echo assumes the Spanish accent."

DEFENDERS' CHRISTENING.

The Fire Company's New Home Opened Last Evening.

The Defender Hose Company of Turkey Run formally opened and christened its new building last evening and the affair was a success in every way. Former Commandant Patrick Kerns delivered an address of welcome in a very peculiar spirit and response was made by Mr. J. R. Tompest, of the Columbia Hose Company. The Grand stand was in attendance and rendered several selections during the evening in a manner that delighted all present. Speeches, recitations and singing made up the balance of the program, after which the floor was cleared for a dance. Refreshments of all kinds were plentifully served in excellent style and a unanimous vote of commendation was extended to the committee on arrangements. The Hon. John H. Hays, friends of the Defenders in wishing them uninterrupted prosperity in their new home.

Deaths and Funerals.

Mrs. Joseph H. Richards died at her home in Mineersville yesterday from apoplexy. The deceased was 63 years old, and only a few weeks ago sustained the loss of her husband. She is survived by five children, several by daughters, Miss Florence, teaches school at Delata.

William Scales, aged 92 years, died at his home in St. Clair from infirmities incident to old age, on Saturday. The deceased was born in Knapp, North Curry, Somersetshire, England, and came to this country July 15th, 1848. He is survived by five children. The deceased was well known by many Shenandoah people. The funeral took place this afternoon.

Samuel Adams, a well known young man of Ashland, died at the Miners' hospital yesterday from injuries received by a fall of coal in the North Ashland colliery on Friday. He was married and six small children survive him.

Miss Ida Sigfried, daughter of Conductor Joseph Sigfried, of the Lehigh Valley railroad, died at her home in Mt. Carmel on Saturday night. The deceased met with an accident while on a visit to a friend in Allentown, by falling down stairs, and this led to her death. She was 32 years old, and she had many warm personal friends here who will be grieved to learn of her death. The funeral took place this afternoon.

Girardville was the scene of much sorrow yesterday afternoon when the funerals of Henry Jones and his stepmother, Elizabeth Davis, the two unfortunate young men, who met an untimely and terrible death on the railroad at that place last Friday, took place from the home of Mr. and Mrs. William Davis. The remains of the two young men were interred side by side in the Ashland cemetery. The Rev. M. E. A. of a white organization Jones was a member, had charge of the funeral.

The Big Brother.

Children early learn to adopt the manners and the speech of the child leechery. The small boy is educated by the one who is at college or in business much more than by his parents or his tutor. Said a wise observer once: "If only you can get your child so well started, if he be manly, truthful and of high principles, the others in the family follow him in the same direction. The judicious father will take great pains with his oldest boy."

In a neighborhood or a school the large boys influence social opinion and set the fashion for the rest. Always there is some larger boy whom the little but greatly admire, who is his model, whose smile or whose frown makes or unmakes his happiness. The big brother does not know it, but he is in this changeable world the one personage whom superior noses tutors, whose popularity never waxes and who never grows out of fashion.

To his sisters he has the opportunity of showing civility, kindness and the deference of the stronger to the weaker. To the baby of the household he is little short of a king. The big brother, bless his heart, and generous fellow, is as important a member of society as any one who can be mentioned.

If, as sometimes happens, he is either a bully or a coward, then he is more contemptible than he would be if he had been born to a less fortunate order in the family, for he has, so to speak, broken faith with all that was expected of him.—Harper's Bazar.
