THURSDAY, NOVEMBER 18, 1897.

WHILE it is true that Grover Cleveland, Jr., has not made his appearance, there is some consolation that Richard Folson Cleveland may soon be a name for Democrats to conjure with.

On December 2nd, the 200th anniversary of the opening of St. Paul's Cathedral, in London, after it had been rebuilt by Sir Christopher Wren, will be observed with a grand Masonic service.

STATE SENATOR FLINN, of Allegheny, is right in the estimate of the man when he says: "Senator Quay is a marvelous man—a marvelous man. He makes more daring and unexpected moves than any man ever in politics."

JOHN WANAMAKER landed from the Kaiser Wilhelm der Grosse in New York on Tuesday, and to a reporter said that had he been a citizen of New York he would have voted for Tracy in the recent contest, because Tracy represented Republicanism.

BICYCLE frames stamped out in two halves from a solid piece of steel is a Birmingham, England, innovation in the bicycle business. It is claimed by this method, the frame which is now sold for \$12.50 can be made for \$2.00. It is his earnest editors will soon be able to ride bikes.

This case of Theobald Eisenhauer, condemned to death on the gallows, is again in the hands of the Board of Pardons. Hon. C. N. Brunner yesterday presented numerous signed petitions and also presented movement favoring commutation of his sentence to life imprisonment. It is probable the Board will take favorable action.

THE North German Lloyd ocean greyhound Kaiser Wilhelm der Grosse, broke the record for the fastest days run of 24 hours on her last run to New York when she made 597 knots, an average of 22.8 knots per hour. The next best record for a mail day was her own run of 594 knots on a previous voyage. She made the voyage in 6 days 28 minutes, which was not as good as a previous run owing to heavy weather.

As to the matter of holding their own Institute, as one of the Potomac papers seems disposed to advise their teachers to do, perhaps it might not be a bad idea for Shenandoah to do the same. We have a corps of teachers which is not only larger than that of the town which bridges any other the county institute, but it is a corps which contains less back numbers, better-looking and sweeter natured, as well as more competent teachers than the county seat. With a force of 82 teachers Superintendent Cooper could run a good-sized institute himself.

JOHN RUSKIN, who is opposed to railroads because they disfigure rural scenery, and for other reasons, objects also to all forms of cycling. His language is quite radical: "To walk, to run, to leap and to dance are virtues of the human body; and neither to stride on stilts, wriggle on wheels, nor dangle on ropes, and nothing in the training of the human mind with the body will ever supersede the appointed God's ways of slow walking and hard working." Modern civilization seeks to hard work, but it is unwilling to jog along at the rate of two miles an hour. A hundred miles an hour is the pace it looks forward to.

GOVERNOR JONES, of Arkansas, joins the state of Georgia in denunciation of foot ball, and through his efforts that game is to be prohibited in the State University of Fayetteville. He says: "I think the game of foot ball as now played is a brutal sport, fraught with much danger to those playing it, and altogether out of harmony with a proper educational system." President Fetterolf, of Girard College, has forbidden foot ball to the students of that institution. The reason for this order, it is said, is because one of the boys last Saturday got a leg broken during an exciting struggle on the gridiron. The feeling against the brutality of the game is growing in strength.

THE HERALD is not unlike other newspapers, and necessarily says many things that please some readers and offend others. It could find a good deal of space with the voluntary by intelligent readers who have approved our course during the past on various topics of public interest, and it would no doubt require much space to produce remarks of other who do not approve of the HERALD policy on every question.

TO PROSECUTE A RAILWAY.

Canadian Pacific Charged With Aiding Illegal Immigration. Assistant United States District Attorney, who is conducting the trial of cases in the United States District Court here, is authorized by a remarkable story in connection with the smuggling of Chinamen into this country. Mr. Brown said that the cost of deporting Chinamen has been very great, and has been on the increase, which is also the case with the smuggling of the Chinamen. The government, Mr. Brown says, lays the blame for the large part of the illicit traffic on the employer of the Canadian Pacific railway, and Attorney General McKenna, it is stated, will institute an action against the corporation. The government, according to Mr. Brown, that the railway employees connected with the government officials to break the law. A bill of costs is being compiled, and as each deportation costs \$200, the total cost is very large. If it can be proved that any other railroad has been a party to breaking the law an action against it will also be brought.

CHINESE BRUTALITY.

Boys Await a Terrible Death For Accidental Murders. The steamer City of Japan, just arrived from Yokohama and Hong Kong, via Honolulu, brings a story to the effect that some two months ago the Shanghai papers published a sensational story to the effect that an 11-year-old boy had been arrested at Kinkou for accidentally causing the death of his mother. It was reported that the child had been most inhumanly treated by the Chinese rulers sent to arrest him, and that he would have to suffer the consequences of his lamentable accident by being stoned to death with the "imperial" or ox headed knife. The foreign residents indignantly protested against this manifest injustice, but were assured by the officials to whom they appealed that there was absolutely nothing in the report, and the matter was dropped. But it now appears from an undeniable source that the wretched boy is confined in prison at Shoo Chow awaiting the final order for the carrying out of this barbarous punishment.

Health in Every Drop.

No medicine in the world has received so much praise as Dr. David Kennedy's Favorite Remedy. Every mail brings testimonials from people all over the United States. Words of thankfulness go up from thousands of lips.

Mrs. James E. Beach, of Rowland, N. Y., says: "About seven years ago I was afflicted with kidney disease, so sick and helpless I could not walk a step. My physician could do me no good, so I began to use Dr. David Kennedy's Favorite Remedy. From the first dose I could see improvement and it entirely cured me. My husband used it for dyspepsia, with excellent results."

Dr. David Kennedy's Favorite Remedy dissolves the excess of uric acid in the blood, thus curing Rheumatism, Dyspepsia, Kidney, Liver and Urinary troubles. Its peculiarities to women are positively and permanently cured by this marvelous medicine.

WHAT IT INDICATES. Nothing so interferes with one's plans or ambition like sickness or poor health. Have you ever thought that your kidneys may be the cause of your sickness? You can easily find out by setting aside your urine for twenty-four hours. A sediment or scaling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

It is a source of comfort to know that Dr. Kennedy's Swamp Root is the great remedy for all kidney and bladder complaints. It relieves pain, stings or dull aches in the back, difficult or painful urination, frequent desire to urinate, scaling or pain in passing it, and quickly overcomes the unpleasant necessity of being compelled to get up many times during the night. The mild and extraordinary effect of Swamp Root is soon realized. Its action is gentle, yet immediate, the relief speedy and the cure permanent. At drug stores, fifty cents and one dollar. You may have a simple bottle and pamphlet, both sent free by mail. Mention HEALTH and send your address to Dr. Kennedy & Co., Binghamton, N. Y. The publishers of this paper guarantee the genuineness of this offer.
