THE REFORMS IN CUBA.

Sagasta's Cabinet Will Insist on the Autonomy Program.

Madrid, Nov. 21.—Premier Sagasta, replying yesterday to a Catalan deputa-

Continuing, the premier expressed the hope that the Cuban assembly would elect a commission which would co-operate with a Spanish commission in determining the commercial relations between Cuba and Spain by consulting their mutual interests.

This is interpreted as meaning that the cabinet will adopt the scheme of Senator Moret, the minister for the colonies, who announced to a Catalan deputy that he had fully considered the general interest of the colonies, and was convinced that his policy alone would lead to a peaceful solution.

Continuing, Sagasta's reply to the Catalan delegates that in dealing with the colonies national and not merely certain industrial interests must be considered.

Weyler Opposes Autonomy.

Barcelona, Nov. 21.—General Weyler, shortly after his arrival here, expressed regret at his recall from Cuba, adding that he was particularly annoyed at the attitude of certain newspapers which declared he favored the Insurgency.

Continuing, he said: "Autonomy in Cuba would be most unfortunate for national industry. The riches of Cuba belong to Spain, and autonomy means the disappearance of Spanish workmen and misery throughout the island."

OFFICIALS SUSPENDED.

Charged With Behaving Government Testimony in the Wellburn Case.

San Francisco, Nov. 21.—Steven Collector Lynch received orders from Washington yesterday to suspend pending an official investigation.

Continuing, the investigation ordered will be in connection with the conduct as witnesses in the Wellburn case. Special Agent J. A. Thrasher, of the treasury department is yet nothing of the case, but it is known that the investigation is at his instigation.

He was much disappointed at the failure to convict Wellburn. All the clerks in the revenue office gave practically the same testimony as the suspended employees.

Mr. Semmely said: "It is a piece of injustice, due, of course, to political spite. We were involuntary witnesses. The witnesses in the Wellburn case were not the clerks in the office testifying to the same thing. Thrasher made up his mind that somebody must suffer, and of course Democrats were selected as objects of his wrath. We have ten days in which to answer these charges, and will claim that the charge of rebuffing government testimony is without foundation."

HEART DISEASE.

SOME FACTS REGARDING THE RAPID INCREASE OF HEART TROUBLES.

Do Not Be Alarmed, But Look For the Cause.

Heart troubles, at least among Americans, are certainly increasing and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion.

Best, organic heart disease is incurable; but not one case in a hundred of heart trouble, is organic.

The close relation between heart trouble and poor digestion is because both organs are controlled by branches of the same great nerve, the sympathetic and thermic.

In another way, also, the heart is affected by the action of poor digestion, which causes gas and fermentation from half digested food; there is a feeling of oppression and heaviness in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their action; hence arises palpitation and short breath.

Poor digestion also poisons the blood, makes it thin and watery, which irritates and weakens the heart.

The most sensible treatment for heart troubles is to improve the digestion and to insure the prompt assimilation of food.

This can best be done by the regular use of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets, which may be found at most drug stores and which contain valuable, harmless digestive elements, in a pleasant, convenient form.

It is safe to say that the regular, persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stomach trouble, except cancer of stomach.

Full sized packages of the tablets sold by druggists at 50 cents.

Little book on stomach troubles mailed free. Address Stuart Co., Marshall, Mich.

Wants a Blitzer Reward.

Atlanta, Nov. 21.—Governor Jones, of Arkansas, wires The Journal that he will give a reward of \$500 for the arrest and conviction of the murderer of J. M. Clayton, who was assassinated in Plummersville, Ark., in November, 1888.

Luther Allen, a convict guard, of Pitts, Ga., tells The Journal that he knows the murderer and has sufficient evidence to convict him, but that a reward of \$500 would be no inducement for him to disclose the guilty party.

Allen's clue is reliable, the murderer of Clayton is probably a convict who is now serving a term in the Georgia penitentiary.

Government Building Comdemned.

Annapolis, Md., Nov. 21.—The main recreation building at the Naval academy, one of the oldest of the group which form the institution, was condemned yesterday by the board of inspectors composed of naval officers, and its use will be immediately discontinued.

The walls of the ancient structure were found to be so badly sprung as to render it unsafe, and it is probable that it will be rebuilt. It may be found necessary to house some of the classes in private residences until the building can be replaced.

Bladder Troubles.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one or two ways.

The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. It is comforting to know that Dr. Kilmer's Swamp-Root is a natural remedy, and that it is not liable to any form of disease except by one or two ways.
